The Democratization

Disconnect Brian K. Grodsky, 2016-08-25 The most recent wave of democratic revolutions has convinced many in the West of the triumph of political rights But in this provocative book Brian Grodsky argues forcefully that nothing could be further from the truth Today s revolutionaries both democratic and non democratic are much like those who preceded them throughout history They ve all come into power promising enhanced political but especially economic rights higher wages better living standards more security The difference between today s pro democracy leaders and yesterday s non democratic ones the author demonstrates rests on the perceived international legitimacy of the democratic template Now when even the most abusive regimes feel the need to label themselves democracies opponents delegitimize rulers by calling them undemocratic This sets the stage for what Grodsky calls the democratization disconnect Leaders and followers fight for political change not as an end but as the most acceptable means to attain economic rights But by selling democracy as a panacea for the ills of the preceding regime new elites simultaneously cheapen the notion of democracy and by creating unrealistic popular

expectations set it up for failure Putting a fresh new spin on hotly debated current events this clear eyed and informed book will be essential reading for all politically engaged readers

Legacies of Repression in Egypt and Tunisia Alanna C.

Torres-Van Antwerp,2022-03-10 When an authoritarian regime collapses what determines whether an opposition group will form a political party be successful in mobilizing voters and survive or dissolve as a group in subsequent years Based on unique field research Alanna C Torres Van Antwerp examines the origins of the dramatic political arc of Egypt s Muslim Brotherhood from winning a plurality of parliamentary seats and the presidency in the first free elections in eighty years to being ousted from office eighteen months later through a popular coup and finds common causal factors that structured the fates of other formerly repressed opposition groups in five comparative cases She demonstrates how the processes of party formation electoral mobilization and party dissolution after the ousting of an authoritarian regime were shaped by the way that regime structured the resources incentives and constraints available to opposition groups in the previous era

Religion and Civil Society David Herbert,2017-03-02 This book presents the first full length study of the relationship between religion and the controversial concept of civil society Across the world in the last two decades of the twentieth century religions re entered public space as influential discursive and symbolic systems apparently beyond the control of either traditional religious authorising institutions or states This differentiation of religion from traditional institutions and entry into secular public spheres carries both dangers and possible benefits for democracy Offering a fresh interdisciplinary approach to understanding religion in contemporary societies this book provides an invaluable resource for students and researchers in religious studies sociology politics and political philosophy theology international relations and legal studies Part one presents a critical introduction to the interaction between religion modernization and postmodernization in Western and non Western settings America Europe the Middle East and India focussing on discourses

of human rights civil society and the public sphere and the controversial question of their cross cultural application Part two examines religion and civil society through case studies of Egypt Bosnia and Muslim minorities in Britain and compares Poland as an example of a Christian majority society that has experienced the public reassertion of religion **Trade Union Activists, East and West** Guglielmo Meardi, 2018-05-08 This title was first published in 2000 This text concerns the transformation of class consciousness It shows that differences between trade union activists from the East and West are not inherited from the past but are socially constructed and that Eastern trade unions are no longer like their Western counterparts as opposed to not yet like them The study concentrates mainly on Italy and Poland with East and West referring to concepts and perceptions rather than as a geographical concern It discovers whether the differences in trade union consciousness are due to the meaning members give a situation or the specificity of the local work settings **Effective Environmental Regulation** David P. Angel, Halina Szejnwald Brown, Patrick G. Derr, 2000-07-30 Challenging views prevalent among Western and Polish scholars this book explains Poland's surprising success in developing effective environmental and occupational regulatory systems while achieving remarkable socioeconomic growth despite the toxic legacy of the Communist era It offers rich insights into the questions of how one can achieve both economic growth and improved environmental and safety protection and of the extent to which regulatory systems can be transferred across national and cultural boundaries The authors develop a theoretical framework for assessing regulatory success then use it to analyze Poland's recent experience Grounded in five case studies of recently privatized firms the analysis also presents a new survey of privately owned firms extensive policy and data analysis and interviews with key policy leaders entrepreneurs and intellectuals The book points to case specific decision making and information richness as key dimensions of an effective regulatory system and considers in depth the extent to which information richness is culturally dependent and hence its portability as a policy tool Addressing regulatory issues that are specific to both the United States and the international development community the book makes a significant contribution to advancing the theoretical and conceptual frameworks used to explain the success or lack of success of regulatory systems **The Polish Studies Newsletter** ,1995 *Social Justice* ,1996 **Canadian-American Slavic Studies** ,1997 **Subject Guide to Books in Print** ,1993 *Canadian Slavonic Papers* ,1997 **Church-state Relations in Central and Eastern Europe** Irena Borowik, 1999
