The Mindless Menace of Violence Zachary J. Martin, 2009-05-16 On April 5 1968 Robert F Kennedy stepped to the podium at the City Club of Cleveland in Cleveland Ohio and gave an address titled the Mindless Menace of Violence It had

been one day since an assassin's bullet killed civil rights leader Martin Luther King Jr. For a country seeking to understand the senseless bloodshed and the future of the United States in peril from acts of indifference, Kennedy attempted to paint a picture of society in which citizens had become out of touch with one another. This book is an examination of Robert F. Kennedy's 1968 speech. Using a line-by-line breakdown, the author analyzes the history behind Kennedy's words and discerns a warning for the future of American society. In history, as in society, words can change the course of human events. As American society has become increasingly violent, Kennedy's words are just as important today. *Trumpism, Bigotry, and the Threat to American Democracy* Larry N. Gerston, 2023-12-11. In *Trumpism, Bigotry, and the Threat to American Democracy*, Larry N. Gerston examines the near-lethal combination of American bigotry and the ability of Donald Trump to take advantage of this scourge to satisfy his own political objective. The result is an individual who won election to the American presidency by adroitly pitting members of American society against one another while presenting himself as the only person in the position to save America from itself. Having succeeded to the nation's most important political office, Trump proceeded to use the position for his own benefit, irrespective of laws, norms, and most importantly, the Constitution. So powerful was Trump that he and his minions came close to overturning the 2020 presidential election with the January 6, 2021 insurrection against the nation's Capitol. While Trump failed in his attempt to remain in office, the threat to the well-being of the United States remains real.

XV International Scientific Conference "INTERAGROMASH 2022" Alexey Beskopylny, Mark Shamtsyan, Viktor Artiukh, 2023-02-24. The book contains proceedings of the XV International Scientific Conference INTERAGROMASH 2022, Rostov-on-Don, Russia. This conference is dedicated to the innovations in the field of precision agriculture, robotics, and machines, as well as agriculture biotechnologies and soil management. It is a collection of original and fundamental research in such areas as follows: unmanned aerial systems, satellite-based applications, proximal and remote sensing of soil and crop, positioning systems, geostatistics, mapping, and spatial data analysis, robotics and automation. Potential and prospects for the use of hydrogen in agriculture, for example, in high-performance tractors with hybrid electric transmission, are disclosed in the research works of scientists from all over the world. It also includes such topics as precision horticulture, precision crop protection, differential harvest, precision livestock farming, controlling environment in animal husbandry, and other topics. One of the important issues raised in the book is to ensure the autonomy of local farms. The topic of the impact of the agro-industrial sector on the environment also received wide coverage. Ways to reduce the burden on the environment are proposed, and the use of alternative fuels and fertilizers is suggested. The research results presented in this book cover the experience and the latest studies on the sustainable functioning of agribusiness in several climatic zones: the tundra and taiga, forest steppe, the steppe, and semi-desert. All this is a unique and incredibly demanded bank of information, the main value of which is the real experience of the functioning of agribusiness in difficult climatic and geographic conditions. These materials are of interest for professionals and practitioners, for researchers, scholars, and producers. They are

used in the educational process at specific agricultural universities or during vocational training at enterprises and also become an indispensable helper to farm managers in making the best agronomic decisions

The American Civil Rights Movement 1865-1950 Russell Brooker,2016-12-07 The American Civil Rights Movement 1865 1950 is a history of the African American struggle for freedom and equality from the end of the Civil War to the beginning of the Civil Rights Movement in the 1950s and 1960s It synthesizes the disparate black movements explaining consistent themes and controversies during those years The main focus is on the black activists who led the movement and the white people who supported them The principal theme is that African American agency propelled the progress and that whites often helped Even whites who were not sympathetic to black demands were useful often because it was to their advantage to act as black allies Even white opponents could be coerced into cooperation or at least non opposition White people of good will with shallow understanding were frustrating but they were sometimes useful Even if they did not work for black rights they did not work against them and sometimes helped because they had no better options Until now the history of the African American movement from 1865 to 1950 has not been covered as one coherent story There have been many histories of African Americans that have treated the subject in one chapter or part of a chapter and several excellent books have concentrated on a specific time period such as Reconstruction or World War II Other books have focused on one aspect of the time such as lynching or the nature of Jim Crow This is the first book to synthesize the history of the movement in a coherent whole

African American Politics Kendra King,2010-01-11 Offers an introduction to the political successes failures and persistent challenges of African American political participation in the United States This book provides the reader with an analysis of what appears to be irreconcilable differences between the American political system and its historically subjugated constituency groups
