## **Public Policy In The New Europe:**

Public Policy and the New European Agendas Fergus Carr, Andrew Massey, 2006-01-01 This broad and all encompassing study focuses on Europe's new policy agendas. It brings together international academic experts on a range of policies to discuss Europe's place in the world and its relationship to the USA and beyond. This book concentrates on two key themes of particular salience for policy makers: the enlargement of the EU and the place of Europe in international politics. An expansive list of important policy areas within these themes is explored, including enlargement, political and constitutional implications, and international socialization of central and eastern Europe. Europe and the USA, security and defence, policy, trade, finance and development, institutional development and external relations in justice and home affairs before and after September 11, international terrorism, EU immigration and asylum and borders, policy, human rights and civil rights, agriculture, environmental policy and regional policy, pensions and ageing in Europe. This book constitutes a major contribution to achieving a deeper understanding of European integration and the barriers to integration within the context of global and multi-level governance. As such, it will be of enormous interest to an extensive audience including academics, researchers, students, policy makers and practitioners in the fields of political studies, international relations, public policy, European studies, US studies and security studies.

**Europeanization of Environmental Policy in the New Europe** Mats Braun, 2016-04-22 Prior to the European Union (EU) 2004-2007 enlargement, there were several predictions that this event would hamper progressive decision making within the EU on environmental policy. It was believed that the new member states had adopted EU rules as a consequence of the EU's conditionality and consequently they would rather slow down the reform speed in the field after accession. In this book, Mats Braun offers an up-to-date account of how post-communist member states have handled policy initiatives in the field of environmental policy after accession. Using detailed case studies of how Bulgaria, the Czech Republic, Poland and Romania dealt with two different EU policy initiatives, REACH and the Climate Energy Package, he explores whether social norms and the process of socialization can help us understand why the track record of new member states in the area of environmental policy is more varied than was originally envisaged prior to enlargement.

**Migration and Welfare in the New Europe** Emma Carmel, Alfio Cerami, Theodoros Papadopoulos, 2012 Providing innovative insights, this book moves the debate on migration and integration policies in the enlarged European Union and its member states onto new terrain.

**Social Change, Social Policy and Social Work in the New Europe** Anna Kwak, Robert Dingwall, 2019-01-04 First published in 1998, this edited volume reflected on the role of universities and aimed to improve the preparation of social welfare professionals by the University of Warsaw for employment in the new market-oriented society that was being created in Poland after the end of real socialism in 1989. Many of its articles were previously published in Polish and were published revised and updated in English for the first time in this collection. The contributors discuss two key issues: First, should universities worry about the employment of their graduates and the skills

that are needed by the wider economy and society or just focus on transmitting advanced learning Second they considered the modernisation of the welfare state The Polish experience and the Western partners reaction to it has proved an excellent case study for these issues *The Economics of the New Europe* Nigel Healey,1995-05-04 Europe is in a period of rapid transition The Single European Market has been completed and many barriers to the free movement of goods services labour and capital have been removed However the moves towards deeper European union with full monetary union by 1999 have proved more problematic Outside the EU the collapse of communism has added

**Public Opinion and the Making of Foreign Policy in the 'New Europe'** Nathaniel Copsey,2016-04-15 By drawing a new boundary between the EU and its eastern neighbours the European Union has since 1989 created a frontier that has been popularly described in the frontier states as the new Berlin Wall This book is the first comparative study of the impact of public opinion on the making of foreign policy in two Eastern European states on either side of the divide Poland and Ukraine Focusing on the vocal informed segment of public opinion and drawing on results of both opinion polls and a series of innovative focus groups gathered since the Orange Revolution Nathaniel Copsey unravels the mystery of how this crucial segment of the public impacts on foreign policy makers in both states He also takes a closer look at the business community and the importance of economic factors in forming public opinion The book presents a fresh approach to our understanding of how the public's view of the past influences contemporary politics

**Negotiating the New Europe** Dimitris Papadimitriou,2018-02-06 This title was first published in 2002 Offering a new and challenging perspective on how the European Union EU sought to structure its relations with Central and Southeast Europe after the Cold War this volume draws upon key debates in both politics and international relations A historically and theoretically informed examination of the EU's engagement in Central and Eastern Europe since 1989 the book combines conceptual rigour with clear empirical analysis firmly grounding the study of the European Union's current enlargement process in established theoretical perspectives The book is written in an engaging and accessible way which will appeal to academics students and practitioners alike
