Library Access, 1898-1963 Dallas Hanbury, 2019-12-04 Using the Atlanta Birmingham and Nashville Public Libraries as case studies *The Development of Southern Public Libraries and the African American Quest for Library Access 1898-1963* argues that public libraries played an integral role in Southern cities economic and cultural boosterism efforts during the New South and Progressive Eras First Southern public libraries helped institutionalize segregation during the early twentieth century by refusing to serve African Americans or only to a limited degree Yet the Progressive Era s emphasis on self improvement and moral uplift influenced Southern public libraries to the extent that not all embraced total segregation It even caused Southern public libraries to remain open to the idea of slowly expanding library service to African Americans Later libraries social mission and imperfect commitment to segregation made them prime targets for breaking down the barriers of segregation in the post World War II era In this study Dallas Hanbury concludes that dealing with the complicated and unexpected outcomes of having practiced segregation constituted a difficult and lengthy process for Southern public libraries
