properly understood mutually reinforcing Contemporary liberalism as represented by Rawls Guttman and Thompson Dworkin Raz and Macedo rejects natural law and seeks to diminish its historical contribution to the liberal political tradition but it is only one defective variant of liberalism A careful analysis of the history of liberalism identifying its core principles and a similar examination of classical natural law theory as represented by Thomas Aquinas and his intellectual descendants show that a natural law liberalism is possible and desirable Natural law theory embraces the key principles of liberalism and it also provides balance in resisting some of its problematic tendencies Natural law liberalism is the soundest basis for American public philosophy and it is a potentially more attractive and persuasive form of liberalism for nations that have tended to resist it
