Published Essays, 1929-1933 Eric Voegelin, 2003 Published Essays Eric Voegelin, 2001

In this collection of essays which covers the years from 1934 to 1939 we see Eric Voegelin in the role of both scholar and public intellectual in Vienna until he was forced to flee the Nazi terror that descended on Austria in 1938. These essays encompass a broad spectrum of topics ranging from Austrian politics, Austrian constitutional history and European racism to questions of the formation and expression of public opinion, theories of administrative law and the role of political science in public university education. Several essays serve as useful commentaries on elaborations of or synopses of arguments Voegelin made in the four books he had published between 1928 and 1936. These essays will be of interest to a wide range of scholars including constitutional historians, historians of political science, political theorists and students of Voegelin's later work.

Published Essays Eric Voegelin, 2003

Eric Voegelin 1901-1985 was one of the most original and influential philosophers of our time. Born in Cologne, Germany, he studied at the University of Vienna where he became a professor of political science in the Faculty of Law. In 1938 he and his wife, fleeing Hitler, immigrated to the United States. They became American citizens in 1944. Voegelin spent much of his career at Louisiana State University, the University of Munich and the Hoover Institution at Stanford University. During his lifetime he published many books and more than one hundred articles. The *Collected Works of Eric Voegelin* will make available in a uniform edition all of Voegelin's major writings. In some thirty-four volumes the *Collected Works* will include the monumental, never before published *History of Political Ideas*, important published essays not previously collected in book form or published only in German, previously unpublished essays, selected correspondence, translations of seven books, four of them never before available in English, and the five-volume *Order and History*.

On the Form of the American Mind Eric Voegelin, 1995

In 1924, not quite two years after receiving his doctorate from the University of Vienna, Eric Voegelin was named a Laura Spelman Rockefeller Memorial Fellow and thus given the opportunity to pursue postdoctoral studies in the United States. For the next twenty-four months Voegelin worked with some of the most creative scholars in America and at several of the country's great universities, an experience that undoubtedly influenced his scholarly and personal perspectives throughout his life. A more immediate result was the publication in 1928 of *On the Form of the American Mind*, the young philosopher's first major work in which his acute perceptions and analyses combine with a conceptual vocabulary struggling to find its own coherence and form. Voegelin begins his inquiry into the form of the American mind with a complex discussion of the concepts of time and existence in European and American philosophy and continues with an extended interpretation of George Santayana, a study of the Puritan mystic Jonathan Edwards, a presentation on Anglo-American jurisprudence and a consideration of the historian, economist and political scientist John R. Commons. Voegelin was particularly interested in Commons' views on the mental, political, social and economic aspects of democracy in modern urban and industrial America. Although admitting that this diversity of themes seems only loosely

connected Voegelin demonstrates the actual overall unity of these various subjects each concerns linguistic expressions of a theoretical nature Analysis of *On the Form of the American Mind* indicates that Voegelin integrated the approaches of Lebensphilosophie into what Georg Misch called the philosophical combination of anthropology and history which characterized contemporary trends within the discourse of the Geisteswissenschaften and finally resulted in a theoretical paradigm of philosophical anthropology Jürgen Gebhardt and Barry Cooper provide access to this brilliant study with their two part introduction The first part considers *On the Form of the American Mind* in the context of methodological debates ongoing in Germany at the time Voegelin was writing the book the second describes Voegelin's American experience and compares his work with similar studies written during the post World War I period [Selected Correspondence 1950-1984](#) Eric Voegelin, 2007 Voegelin's Munich years while not without controversy can be seen as the most successful time in his life as well as his most creative and prolific as a political philosopher During that time Voegelin worked on volume IV of *Order and History* and the letters written to successive directors of the Louisiana State University Press as well as to friends and colleagues give a vivid account of the changing nature of this seminal project Voegelin's letters written between 1969 and 1984 provide compelling evidence of the intellectual vigor that characterized his work throughout his life and continued virtually undiminished until the last weeks before his death Voegelin's realism his sharp wit and his superbly developed sense of irony remain evident in the correspondence throughout all these years *The Historical Mind* Justin D. Garrison, Ryan R. Holston, 2020-05-01 America is increasingly defined not only by routine disregard for its fundamental laws but also by the decadent character of its political leaders and citizens widespread consumerism and self indulgent behavior cultural hedonism and anarchy the coarsening of moral and political discourse and a reckless interventionism in international relations In *The Historical Mind* various scholars argue that America's problems are rooted in its people's refusal to heed the lessons of historical experience and to adopt constitutional checks or self imposed restraints on their cultural moral and political lives Drawing inspiration from the humanism of Irving Babbitt and Claes G. Ryn the contributors offer a timely and provocative assessment of the American present and contend that only a humanistic order guided by the wisdom of historical consciousness has genuine promise for facilitating fresh thinking about the renewal of American culture morality and politics

The Theory of Governance and Other Miscellaneous Papers, 1921-1938 Eric Voegelin, 2003 This first of two volumes of Voegelin's miscellaneous papers brings together crucial writings published for the first time from the early formative period of this scholar's thought The book begins with Voegelin's dissertation on sociological method completed under the direction of Othmar Spann and Hans Kelsen at the University of Vienna in 1922 It reveals an intimate knowledge of the writings of Georg Simmel and a skillful use of insights gained from Edmund Husserl's *Logical Investigations* and *Ideas* The dissertation and other smaller pieces written at this time addresses problems that remained of great importance to Voegelin throughout his life the relation of insight to language the structure of the human being and the human's spiritual

center They disclose both Voegelin s theoretical reference points during these early years including the thought of Henri Bergson Othmar Spann Georg Simmel and Edmund Husserl as well the young scholar s remarkably independent approach to theoretical problems Moreover this volume includes a work that is fundamental to an understanding of Voegelin s theoretical development his extended study on the theory of governance written between 1930 and 1932 It follows the issues that confront political society to their roots in the soul and in the soul s relationship to the ground of being The Theory of Governance and Other Miscellaneous Papers presents a meditative exegetic study of texts from Augustine Descartes and Husserl early examples of the meditations that became central to Voegelin s later work Other essays included in this volume such as Theory of Law and Political Theory as Human Science develop these theoretical insights and refine Voegelin s methodological tools This volume will be of interest to all scholars of the work of Eric Voegelin and of the refoundation of political philosophy in the twentieth century in general

Teaching in an Age of Ideology John von Heyking, Lee Trepanier, 2013 This volume explores the role of some of the most prominent twentieth century philosophers and political thinkers as teachers It examines how these teachers conveyed truth to their students against the ideological influences found in the university and society Philosophers from Edmund Husserl and Hannah Arendt to political thinkers like Eric Voegelin and Leo Strauss and their students such as Ellis Sandoz Stanley Rosen and Harvey Mansfield are in this volume as teachers who analyze denounce and attempt to transcend ideology for a more authentic way of thinking What the reader will discover is that teaching is not merely a matter of holding concepts together but a way of existing or living in the world The thinkers in this volume represent this form of teaching as the philosophical search for truth in a world deformed by ideology
