Purchase of Service Contracting in Human Services Peter M. Kettner, Lawrence L. Martin, 1987-05 Purchase of service contracting POSC has changed the way that human services are structured and delivered in the United States Most private companies now have contracts with the government and many public social service professionals have responsibility for contracts However few human service professionals have had any formal education or training in the philosophy concepts issues and technology involved This book presents a basic conceptual framework and step by step guide for POSC system design and practice Proceedings of the National Institute on Purchase of Service Contracting Kenneth R. Wedel, Arthur J. Katz, Ann Weick, 1978 **The Tools of Government** Odus V. Elliott, 2002-02-22 The new tools of public action have come to rely heavily on third parties private businesses nonprofit organisations and other levels of government for their operation The Tools of Government is a comprehensive guide to the operation of these tools and to the management accountability policy and theoretical issues they pose The Challenge of Public-private Partnerships Graeme A. Shick, Lawrence Martin, 2019-12-10 In the last 35 years governments around the globe have increasingly contracted with nonprofit and for profit entities designed to provide a portion of the public sector s portfolio of goods and services This trend can be traced to a variety of factors including perceived or actual economic efficiencies in outsourcing goods and services values concerning the role and size of government in society and the financial and organizational constraints of many government entities In the United States child welfare services adopted a pro contracting approach early and a variety of other human services have followed suit including mental health care job training homeless services and others Although there is strong evidence to suggest that human service contracting is growing over time scholarship continues to lag on topics related to human service contract management policy implementation and innovation performance based contracting and evaluation This new volume in the Public Solutions Handbook series is the first volume length treatment of human services contracting issues integrating both policy and practice and exploring a broad range of issues that includes the fields of history growth innovations results and outcomes best practices and the future of government human service contracting Chapters in this book examine specific human service contracts both in the U S and abroad geared to practitioners in the public sector from local government service contractors to municipal employees as well as MPA students and those enrolled in courses on intergovernmental relations and nonprofit management Review of the United States Postal Service's Contracting the Procurement Policies United States. Demone, Margaret Gibelman, 2013-11-09 No reader of professional journals agency reports or the daily press needs to be told that Professors Gibelman and Demone have assembled a volume of contributions to a very lively debate The two words highlighted privatization and contracting sum up the prescriptions of many for social service reform and the anxieties of others who question the new strategies The pace and scale of developments over the past 2 decades sometimes allows us to forget that the subject has a long history Privatization may be thought of as involving public turnover to the private sector of responsibility for services it has been delivering Or it may be the public sector arranging for the private sector to take on new services that the public wishes to encourage or for which it accepts responsibility The transaction usually involves public funds The historical story however is not one of public temporal primacy *Purchase of Service Contracting* Barbara Jean Peat, 1997
