Packer, Donald Wiseman, 2017-05-02 *The Complete Topical Guide to the Bible* provides Scripture references definitions and cross references

for the study of the Bible by topic The topical approach differs significantly from the lexical approach of a concordance and a topical guide is an essential supplement to a concordance While a concordance is limited to the connection of biblical passages in which the same word appears the topical approach identifies and connects all of the underlying concepts related to a topic A concordance would not yield John 3 16 for a study of grace because the word grace does not appear in the verse but The Complete Topical Guide to the Bible includes John 3 16 for grace because it s an essential verse on the topic The topics in this resource include biblical doctrinal and historical subjects and they are organized into nine major categories God Jesus Christ the Holy Spirit creation humanity sin and salvation God s people the life of the believer and the last things In addition to the great themes of the biblical message practical issues of Christian living are also included **Seeking God?**
