Long Term Care Economic Issues And Policy Solutions:

Long-Term Care: Economic Issues and Policy Solutions Roland Eisen, Frank A. Sloan, 2012-10-23 Ensuring long term care LTC is one of the most urgent problems in health care today Demographic trends are expected to lead to a higher proportion of old and very old people in the global population As a result an increased proportion of global income will be devoted to LTC services With this in mind Long term Care Economic Issues and Policy Solutions aims to address the following important objectives to provide a detailed analysis of the arrangements and institutions designed to protect the disabled and dependent elderly people in various countries and to try to evaluate their respective merits to discuss the projections of future costs of protection for dependent elderly and to assess the impact of improvements in disability free life expectancy on the future cost of care and choices between informal and formal care to present empirical research on these decisions with special consideration of primary caregivers and on the substitution between in kind and cash benefits as well as between institutional or formal care and home or informal care to analyze different theoretical approaches in modeling decisions referring to LTC services to be provided both within and between generations With its mix of empirical theoretical and policy related contributions Long term Care Economic Issues and Policy Solutions will be of interest not only to health economists but also to social scientists health insurers and public policy advocates

Long-Term Care: Economic Issues and Policy Solutions Roland Eisen, Frank A. Sloan, 2012-12-06 Ensuring long term care LTC is one of the most urgent problems in health care today Demographic trends are expected to lead to a higher proportion of old and very old people in the global population As a result an increased proportion of global income will be devoted to LTC services With this in mind Long term Care Economic Issues and Policy Solutions aims to address the following important objectives to provide a detailed analysis of the arrangements and institutions designed to protect the disabled and dependent elderly people in various countries and to try to evaluate their respective merits to discuss the projections of future costs of protection for dependent elderly and to assess the impact of improvements in disability free life expectancy on the future cost of care and choices between informal and formal care to present empirical research on these decisions with special consideration of primary caregivers and on the substitution between in kind and cash benefits as well as between institutional or formal care and home or informal care to analyze different theoretical approaches in modeling decisions referring to LTC services to be provided both within and between generations With its mix of empirical theoretical and policy related contributions Long term Care Economic Issues and Policy Solutions will be of interest not only to health economists but also to social scientists health insurers and public policy advocates

Financing Long-Term Care in Europe J. Costa-Font, C. Courbage, 2011-11-08 Forecasts predict that those in need of long term care in Europe will double in the next 50 years This book offers a full understanding of the institutional responses and mechanisms in place to finance old age and provides analysis of demand and supply factors underpinning the development of financial instruments to cover long term care in Europe

[Nordic Economic Policy Review](#) ,2013 [Cross](#)

Atlantic Exchange to Advance Long-Term Care Svetla Tsoleva, 2006 **Economics of Spend-down to Medicaid** Edward C. Norton, 1999 **Handbook of Health Economics** A.J. Culyer, J.P. Newhouse, 2000-07-19

What new theories and evidence and policies have shaped health economics in the 21st century? Editors Mark Pauly, Thomas McGuire, and Pedro Pita Barros assemble the expertise of leading authorities in this survey of substantive issues. In 16 chapters they cover recent developments in health economics from medical spending growth to the demand for health care, the markets for pharmaceutical products, the medical workforce, and equity in health and health care. Its global perspective, including an emphasis on low and middle income countries, will result in the same high citations that made Volume 1 (2000) a foundational text. Presents coherent summaries of major subjects and methodologies, marking important advances and revisions. Serves as a frequently used non-journal reference. Introduces non-economists to the best research in health economics.

Dilemmas of the Welfare Mix Ugo Ascoli, Costanzo Ranci, 2013-04-17

The 1990s will be remembered in Europe as the period in which privatization assumed significant proportions in the field of welfare policies. In an age of crisis for the welfare state and increased demand of care services, there is now a widespread opinion that future welfare systems will see more and more space occupied by private and nonprofit organizations taking the direct responsibility of providing services and meeting the needs of the clients. A welfare mix is emerging as a system in which government, private, and nonprofit organizations operate in place of the state monopoly. Nonprofit organizations, in particular, have obtained formal recognition as partners of public authorities and professional groups in policy making. An increasing interdependence between state, private, and third sector organizations will characterize next years in all post-industrial societies. Through research in the field of social care in six European countries (France, Germany, Italy, Norway, Spain, and the U.K.), the authors highlight the role of nonprofit and commercial organizations in the new welfare mix systems and main social and institutional effects of such new order. This volume in the Nonprofit and Civil Society Studies series is the first attempt to bridge the relevant gap existing between the literature on the welfare state and studies on the nonprofit sector.

Journal of Human Services Abstracts, 1984

Improving Healthcare David Hyman, 2007-04-21

Improving Healthcare: A Dose of Competition systematically examines the American health care system from a competition-oriented perspective. The volume surveys the performance of each major sector of the health care system and identifies impediments to more effective competition. Improving Healthcare examines such issues as competition v. regulation, public and private sector approaches to health care financing, cross-subsidies, licensure, provider market concentration, financial and clinical integration, payment for performance, quality, pharmacy benefit managers, direct-to-consumer advertising of pharmaceuticals, certificates of need, mandates, unionization, the significance of organizational status, nonprofit v. for-profit, and the role of antitrust and consumer protection in health care. It offers concrete recommendations to improve the quality and cost effectiveness of the American health care marketplace.

Projecting the Impact of Demographic Change on the Demand for and Delivery of Healthcare in Ireland, **Health, the Medical**

Profession, and Regulation Peter Zweifel, 2012-12-06 Health The Medical Profession and Regulation presents new evidence concerning health and the environment inequality of health in many countries and the compatibility of different quality of life measurements along with new solutions to problems of health policy The book is grouped into three sections Section I comprising six papers looks into the determinants of people's health Section II consists of three papers and deals with the supply side of the market for health care services Finally Section III contains three contributions devoted to health regulation The intended market for this volume includes but is not limited to health economists policy makers insurers and governmental advisors who need to stay abreast of the latest developments in health services research worldwide

Regulation of Health: Case Studies of Sweden and Switzerland Peter Zweifel, Carl Hampus Lyttkens, Lars Söderström, 2012-12-06 Health care arguably is the single most regulated industry in industrial countries and possibly in newly industrialized and developing countries as well But what exactly is being regulated what are the instruments used and what are the effects and side effects of such regulation Regulation of Health Case Studies of Sweden and Switzerland seeks to resolve problems in answering these key questions regarding the health care sector in two countries Sweden and Switzerland The volume contains a series of studies that compare the regulation of health and health care in these two apparently very similar countries in considerable detail The contributing teams acquired a great deal of knowledge about health regulation in both countries they also derived comparative predictions when regulation differs using actual observations to check whether these predictions are borne out These comparisons are based on the conditions prevailing in the mid nineties *Pflegebedürftigkeit und Pflegesicherung in ausgewählten Ländern* Roland Eisen, Hans-Christian Mager, 2013-07-29 Der Band enth lt die wichtigsten Ergebnisse des von der Volkswagen Stiftung finanzierten und ber
