advice I could think of and I hope that it can help some other couple through the tough road ahead *How to Love Your Marriage* Eve Eschner Hogan, 2006-04-28 Keeping the love in your marriage requires skills that most of us have not been taught in school or at home Many people think that the secret to marriage is FINDING the love of your life Of greater importance is KEEPING the love in your life from that moment on This book's premise is that love like self esteem doesn't go away it just gets blocked by negative experiences comments and beliefs that make the love difficult to feel When we learn how to remove those obstacles to let go of the past to move beyond our egos to the heart of the matter and align our actions with our goals we can reawaken the love and keep our marriage growing HOW TO LOVE YOUR MARRIAGE provides Methods for solving problems and being your own best relationship advisor Empowering How to steps to take even if your partner is not willing to take them with you Simple Love Tips that you can use immediately The EROS formula for creating powerful loving relationships Tools for managing your emotions and those of your spouse An understanding of self esteem's impact on a relationship and a relationship's impact on self esteem Self directed exercises and questions *Cross-Border Marriages* Nicole Constable, 2010-08-03 Illuminating how international marriages are negotiated arranged and experienced Cross Border Marriages is the first book to chart marital migrations involving women and men of diverse national ethnic and class backgrounds The migrations studied here cross geographical borders of provinces rural urban borders within nation states and international boundaries including those of China Japan South Korea India Vietnam the Philippines the United States and Canada Looking at assumptions about the connection between international marriages and poverty opportunism and women's mobility the book draws attention to ideas about global patterns of inequality that are thought to pressure poor women to emigrate to richer countries while simultaneously suggesting the limitations of such views Breaking from studies that regard the international bride as a victim of circumstance and the mechanisms of international marriage as traffic in commodified women these essays challenge any simple idea of global hypergamy and present a nuanced understanding where a variety of factors not the least of which is desire come into play Indeed most contemporary marriage scapes involve women who relocate in order to marry rarely is it the men But Nicole Constable and the volume contributors demonstrate that contrary to popular belief these brides are not necessarily poor nor do they categorically marry men who are above them on the socioeconomic ladder Although often women may appear to be moving up from a less developed country to a more developed one they do not necessarily move higher on the chain of economic resources Complicating these and other assumptions about international marriages the essays in this volume draw from interviews and rich ethnographic materials to examine women's and men's agency their motivations for marriage and the importance of familial pressures and obligations cultural imaginings fantasies and desires in addition to personal and economic factors Border crossing marriages are significant for what they reveal about the intersection of local and global processes in the everyday lives of women and men whose marital opportunities variably yield both rich possibilities and bitter disappointments **Long Distance**
