Longman Writer Brief Edition The 6th Edition:

The Longman Writer Judith Nadell, John Langan, Eliza A. Comodromos, 2005-04 One of the most successful writing texts on the market this all in one rhetoric reader and handbook organized around the patterns of development contains everything students need for courses in freshman composition Created by the authors of the best selling Longman Reader the text draws on decades of teaching experience to integrate the best of the product and process approaches to writing Its particular strengths include an emphasis on the reading writing connection a focus on invention and revision more attention to the fact that patterns blend in actual writing and an abundance of class tested activities and assignments more than 350 in all

Revision Alice Horning, Anne Becker, 2006-05-22 Explores the wide range of scholarship on revision while bringing new light to bear on enduring questions in composition and rhetoric

Vernacular Eloquence Peter Elbow, 2012-01-13 Since the publication of his groundbreaking books *Writing Without Teachers* and *Writing with Power* Peter Elbow has revolutionized how people think about writing Now in *Vernacular Eloquence* he makes a vital new contribution to both practice and theory The core idea is simple we can enlist virtues from the language activity most people find easiest speaking for the language activity most people find hardest writing Speech with its spontaneity naturalness of expression and fluidity of thought has many overlooked linguistic and rhetorical merits Through several easy to employ techniques writers can marshal this wisdom of the tongue to produce stronger clearer more natural writing This simple idea it turns out has deep repercussions Our culture of literacy Elbow argues functions as though it were a plot against the spoken voice the human body vernacular language and those without privilege making it harder than necessary to write with comfort or power Giving speech a central role in writing overturns many empty preconceptions It causes readers to think critically about the relationship between speech writing and our notion of literacy Developing the political implications behind Elbow's previous books *Vernacular Eloquence* makes a compelling case that strengthening writing and democratizing it go hand in hand

Writing Effective Course

Assignments Elia Shabani Mligo, 2017-05-11 Non degree and undergraduate students are both inexperienced essay writers who need close guidance to become effective writers One of the puzzles which they encounter at the college and university after reporting for studies is the course assignments offered to them by their lecturers which demand them to be critical thinkers and argumentative essay writers In most colleges and universities lecturers provide to students broad questions to answer in the form of essays either in group or individual assignments How should they turn the broad assignment questions provided to them by their lecturers into specific researchable topics for essays How should they handle literature in order to obtain valuable information to answer the provided question How should they construct an informed and convincing argument using the collected information as evidence This book concerns these and other related questions With its clear illustrations the book is designed to be a self study guide and to offer solutions to many struggling students in colleges and universities At the same time the book can be helpful for lecturers to instruct their students how to write effective course assignments in their respective courses The teaching, practice, and literature of shorthand.
