Lontologie De Nietzsche

Tziovani Georgakis, Paul J. Ennis

L'ontologie De Nietzsche:

L'ontologie manquée de Michel Foucault Béatrice Han, 1998 Que se passe-t-il si l'on traite Foucault en philosophe Si plutôt que de reprendre la perspective des sciences sociales l'on soumet son oeuvre à une lecture purement philosophique Peut-on découvrir sous les prises de position contrastées et parfois provocantes de l'auteur la continuité si protéiforme soit-elle d'un même projet philosophique Ce projet il existe C'est celui d'une histoire d'élucidation de l'articulation de l'archéologie la genalogie permet de retracer l'histoire transcendante des conditions de possibilité du vrai et de ses effets subjectivants sur les individus Mais si Foucault entend effectivement nouer un dialogue avec la tradition philosophique occidentale en quoi consiste son apport personnel et quelle est sa fonction philosophique

Nietzsche, Epistemology, and Philosophy of Science B.E. Babich, 2013-03-09 Nietzsche Epistemology and Philosophy of Science is the second volume of a collection on Nietzsche and the Sciences featuring essays addressing truth epistemology and the philosophy of science with a substantial representation of analytically schooled Nietzsche scholars This collection offers a dynamic articulation of the differing strengths of Anglo American analytic and contemporary European approaches to philosophy with translations from European specialists notably Carl Friedrich von Weizsäcker Paul Valadier and Walther Ch Zimmerli This broad collection also features a preface by Alasdair MacIntyre Contributions explore Nietzsche's contributions to the philosophy of language and epistemology and include essays on the social history of truth and the historical and cultural analyses of Serres and Baudrillard as well as new contributions to the philosophy of science including theological and hermeneutical approaches history of science the philosophy of medicine cognitive science and technology *Lectures de l'ontologie fondamentale* Jacques Taminiaux, 1989

Nietzsche's Philosophy of Science Babette E. Babich, 1994-01-11

Financial Crimes and Existential Philosophy Michel Dion, 2013-10-21 The aim of this book is to deepen our understanding of financial crimes as phenomena It uses concepts of existential philosophies that are relevant to dissecting the phenomenon of financial crimes With the help of these concepts the book makes clear what the impact of financial crimes is on the way a human being defines himself or the way he focuses on a given notion of humankind The book unveils how the growth of financial crimes has contributed to the increase of the anthropological gap and how the phenomenon of financial crimes now distorts the way we understand humankind Using the existential philosophies of Kierkegaard Nietzsche Jaspers Buber Heidegger and Marcel the book sheds light on how these philosophies can help to better perceive and describe financial crimes Next it looks at prevention strategies from an organizational perspective using concepts of Sartre Gadamer and Tillich The book provides readers with existential principles that will help them be more efficient when they have to design and implement prevention strategies against corporate crime *Poststructuralism and Critical Theory's Second Generation* Alan D. Schrift, 2014-09-11 Poststructuralism and Critical Theory's Second Generation analyses the major themes and developments in a period that brought continental philosophy to the forefront of scholarship in a variety of humanities and social science disciplines and

that set the agenda for philosophical thought on the continent and elsewhere from the 1960s to the present Focusing on the years 1960-1984 the volume examines the major figures associated with poststructuralism and the second generation of critical theory the two dominant movements that emerged in the 1960s Althusser Foucault Deleuze Derrida Lyotard Irigaray and Habermas Influential thinkers such as Serres Bourdieu and Rorty who are not easily placed in standard histories of the period are also covered Beyond this thematic essays engage with issues as diverse as the Nietzschean legacy the linguistic turn in continental thinking the phenomenological inheritance of Gadamer and Ricoeur the influence of psychoanalysis the emergence of feminist thought and a philosophy of sexual difference the renewal of the critical theory tradition and the importation of continental philosophy into literary theory *Historical Dictionary of Nietzscheanism* Carol

Diethe, 2013-12-19 Few philosophers have been as popular prolific and controversial as Friedrich Nietzsche who has left his imprint not only on philosophy but on all the arts Whether it is his concept of the *Übermensch* or his nihilistic view of the world Nietzsche's writings have aroused enormous interest as well as anathema in scholars for centuries This third edition of *Historical Dictionary of Nietzscheanism* covers the history of this philosophy through a chronology an introductory essay appendixes and an extensive bibliography The dictionary section has over 400 hundred cross referenced entries on his major writings his contemporaries and his successors This book is an excellent access point for students researchers and anyone wanting to know more about Friedrich Nietzsche The Wild Pig Timothy J. Williams, 2014-09-01 We are in Algeria in a small nameless village a battered village The war stretching from the mountains to the sea cannot alter the beauty of land and sky the light falling on the graveyard the silence of a proud and impoverished people Ceaselessly on foot and on horseback the narrator travels about a land to which he is rapidly becoming attached During his excursions through a landscape that stimulates and fascinates him he gives way to an anguished meditation on fate questioning himself about good and evil the degradation and corruption of men the absurdity of war Day by day his sense of observation grows more acute and to keep from giving in to the interior panic that threatens him he studies attentively his fellow soldiers the inhabitants especially the women and among them the beautiful and affecting Kheira As he feels within him the upwelling of a primordial wildness he chooses to bury himself in solitude But will he be able to avoid confronting the wild beast in its lair adapted from the cover of the original Gallimard edition **Nietzsche & the Metaphysics of the Tragic** Nuno Nabais, 2006-11-13 This book is a concise and historicized analysis of the development of Nietzsche's thought on the subject of tragedy

Heidegger in the Twenty-First Century Tziovannis Georgakis, Paul J. Ennis, 2015-03-02 The current volume is comparative and interdisciplinary and it provides a reflection on what thinking might become after Heidegger's philosophy Its aim is to critically expand the current field of research by presenting unfamiliar and uncharted avenues that will guide and carry the Heidegger scholarship into the twenty first century By doing so it addresses fundamental questions in the Heideggerian scholarship including its problems restraints and future direction It also engages and broadens the

increasingly disparate approaches to Heidegger's work whether those approaches are traditional in their employment of phenomenology and hermeneutics or whether they apply to Heidegger's thinking in new and surprising ways. The first section of the volume emphasizes the importance of methodology for the future of Heidegger studies while the second section examines the historical ethical and vocal poetical in Heidegger's thought and draws conclusions relevant to the Heidegger scholar of today. The final section demonstrates Heidegger's appeal to a variety of other discourses besides philosophy and the way his thinking could be creatively approached, utilized and implemented in our century. Contributions come from cutting edge scholars such as Babette E. Babich, Dermot Moran, François Raffoul and Trish Glazebrook. **Sur**

l'ontologie grise de Descartes Jean-Luc Marion, 1993. L'interprétation des *Regulae ad Directionem Ingenii* soulève un problème spécifique. La plupart des critiques ont tenté de le comprendre à partir de la problématique du *Discours de 1637* où il y a d'évidentes impasses puisque les concepts originaux des *Regulae* disparaissent dans le moment postérieur qu'ils ont rendu pourtant possible. Il restait une voie : déterminer les *Regulae* comme un dialogue avec un interlocuteur jamais nommé avec lequel la pensée du jeune Descartes à l'aurore d'elle-même devait s'expliquer pour devenir cartésienne. Cet interlocuteur, c'est Aristote. En retrouvant les textes aristotéliciens qu'interrogent chacune des *Regulae*, on dégage une polémique. Elle contribue déjà à éclairer le point de départ de la doctrine cartésienne de la science. Mais il y a plus : l'épistémologie ne s'établit pas en réfutant une autre épistémologie mais en recusant l'ontologie d'Aristote. Descartes conquiert donc avec son épistémologie rien moins qu'une ontologie grise parce qu'elle ne s'avoue pas comme telle.

Heidegger and French Philosophy Tom Rockmore, 2002-09-11. Martin Heidegger's impact on contemporary thought is important and controversial. However, in France the influence of this German philosopher is such that contemporary French thought cannot be properly understood without reference to Heidegger and his extraordinary influence. Tom Rockmore examines the reception of Heidegger's thought in France. He argues that in the period after the Second World War, due to the peculiar nature of the humanist French philosophical tradition, Heidegger became the master thinker of French philosophy. Perhaps most importantly, he contends that this reception, first as philosophical anthropology and later as postmetaphysical humanism, is systematically mistaken. **Economic Life Beyond Economists** Abderrazak Belabes, 2024-08-12.

Through an examination of the work of great scholars from fields including philosophy, literature, philology, semiology, quantum physics, history and anthropology, this book argues that building on the contribution of non-economists can open new areas of reflection in economics beyond the usual schools of thought. The purpose of the book is twofold. First, it offers a critique and discussion of the limits of contemporary economic discourse, both mainstream and self-styled alternative theories. The central theme on which the book is built is that the discipline of economics fails to examine the nature of social reality in a systematic way. This prompts the economists to become fully aware of the methodology on which they base their representation, analysis and argumentation in a way that economists currently are not. Second, the book proposes alternative

ways of thinking that can help readers of economics to overcome the current limitations of their discipline This means going beyond various dominant dualities orthodox heterodox micro macro epistemology ontology because it is not a question of doing the economy differently but of overcoming the economy as a representation of the world that strives to submit everything to its realm Thus the book does not simply propose a broader conceptual framework than that portrayed by mainstream economists or those who propose an alternative approach but raises questions that do not usually come from the minds of economists at all The book will be of particular interest to readers of economic methodology and pluralism philosophers of science and other social scientists interested in methodological issues *Gilles Deleuze and Metaphysics* Alain Beaulieu, Edward Kazarian, Julia Sushytska, 2014-12-24 Deleuze remains indifferent to the ambient pathos related to the end of metaphysics and compares the undertakings of destruction overcoming and deconstruction of metaphysics with the gestures of murderers He considers himself a pure metaphysician which is rather unique in the contemporary philosophical landscape What are we to make of this and similar claims What do they mean in light of the effort made during the last several centuries to overcome overturn destroy or deconstruct metaphysics If we consider Deleuze's work more closely might find him engaging in the kind of thinking that is commonly referred to as metaphysical And if Deleuze is indeed a metaphysician does this undercut the many insightful contributions of the twentieth century philosophers who dedicate their thought to bringing down Western metaphysical tradition Or does it suggest that there is a sense of metaphysics that should nevertheless be preserved These and similar questions are addressed in this volume by a series of international scholars The goal of the book is to critically engage an aspect of Deleuze's thought that for the most part has been neglected and to understand better his immanent metaphysics It also seeks to explore the consequences of such an engagement

L'ontologie de Nietzsche Pierre Boudot, 1971-01-01 T00:00:00+01:00 Cet ouvrage est une r dition num rique d un livre paru au XXe si cle d sormais indisponible dans son format d origine **Instituting Thought** Roberto Esposito, 2021-08-20 This new book by the Italian philosopher Roberto Esposito addresses the profound crisis of contemporary politics and examines some of the philosophical approaches that have been used to try to understand and go beyond this crisis Two approaches have been particularly influential one indebted to the thought of Martin Heidegger the other indebted to Gilles Deleuze While opposed in their political thrust and orientation both approaches remain trapped within the political ontology that has framed our conceptual language for some time In order to move beyond this political ontology Esposito turns to a third approach that he characterizes as instituting thought Indebted to the work of the French political philosopher Claude Lefort this third approach recognizes that the road to reconstructing a productive relation between ontology and politics one that is both realistic and innovative lies in instituting praxis Building on this insight Esposito conceptualizes social being as neither univocal nor plurivocal but as cross cut by the dual semantics of political conflict This new book by one of the most original European philosophers writing today will be of great interest to students and scholars in philosophy social and

political theory and the humanities generally **Hegel, Marx and the Contemporary World** Kaveh Boiveiri, Emmanuel Chaput, 2016-06-22 This book is the result of a three day conference held in April 2014 at the University of Montreal Canada discussing the relevance of the work of Hegel and Marx in today s world particularly with regard to the ecological economic political and anthropological crisis facing humanity Accordingly the book an exploration of the specific nature of the crisis we face both in our everyday lives and in the realm of theory However if indeed the necessity of a proper critique Kritikos is intimately linked to a state of crisis Krisis the conceptual frame necessary to produce such a critique may itself be in crisis Among the vast number of critical oppositions to contemporary capitalism what are the keys available to understand the present forms of human conditions alienation and exploitation Controversies and divisions among the different tendencies within the critical tradition tend to highlight the point that there is also a theoretical crisis which prevents a proper diagnosis of the actual crisis and prevents in turn a proper plan of action from being established Looking back to Marx and Hegel allowed a return if not to the sources at least to two unavoidable influences among the various critical approaches to capitalism Be it with or against Hegel and or Marx the criticisms of modernity post modernity and capitalism cannot neglect the shadows of these thinkers Both Marx s and Hegel s philosophical sociological and political enterprises must be linked historically to the will to diagnose and solve what they saw as the most important crises of their own time from in Hegel s case the spiritual crisis which followed the advent of modernity and its accompanying turmoil to the social and political crisis caused by capitalism and the advent of a new industrial society in Marx s case Both intellectual ventures are at every turn haunted by the notion of crisis This book will appeal to anyone interested in Hegel s and Marx s philosophical and political theories Not only does it provide the historical context necessary to understand properly the relation between Marx and Hegel but it also places the relevance of their teachings for the contemporary reader in perspective **National Union Catalog** ,1968 *Gilles Deleuze* Constantin V. Boundas, 2009-02-15 Gilles Deleuze The Intensive Reduction brings together eighteen essays written by an internationally acclaimed team of scholars to provide a comprehensive overview of the work of Gilles Deleuze one of the most important and influential European thinkers of the twentieth century Each essay addresses a central issue in Deleuze s philosophy and that of his regular co author Felix Guattari that remains to this day controversial and unsettled Since Deleuze s death in 1994 the technical aspects of his philosophy have been largely neglected These essays address that gap in the existing scholarship by focusing on his contribution to philosophy Each contributor advances the discussion of a contested point in the philosophy of Deleuze to shed new light on as yet poorly understood problems and to stimulate new and vigorous exchanges regarding his relationship to philosophy schizoanalysis his aesthetic ethical and political thought Together the essays in this volume make an invaluable contribution to our understanding of Deleuze s philosophy
