Hunt, Gather, Parent Michaela Leen Douclev, 2022-03-08 An NPR Science Desk correspondent challenges the misleading child rearing practices commonly recommended to parents outlining alternatives grounded in international ancestral traditions that are being used effectively throughout the modern world In *Hunt Gather Parent* Douclev sets out with her three year old daughter in tow to learn and practice parenting strategies from families in three of the world's most venerable communities Maya families in Mexico Inuit families above the Arctic Circle and Hadzabe families in Tanzania She sees that these cultures don't have the same problems with children that Western parents do Most strikingly parents build a relationship with young children that is vastly different from the one many Western parents develop it's built on cooperation instead of control trust instead of fear and personalized needs instead of standardized development milestones

Thirty-Three Ways of Looking at an Elephant Dale Peterson, 2020-10-20 Elephants have captivated the human imagination for as long as they have roamed the earth appearing in writings and cultures from thousands of years ago and still much discussed today In *Thirty Three Ways of Looking at an Elephant* veteran scientific writer Dale Peterson has collected thirty-three essential writings about elephants from across history with geographical perspectives ranging from Africa and Southeast Asia to Europe and the United States An introductory headnote for each selection provides additional context and insights from Peterson's substantial knowledge of elephants and natural history The first section of the anthology *Cultural and Classical Elephants* explores the earliest mentions of elephants in African mythology Hindu theology and Aristotle and other ancient Greek texts *Colonial and Industrial Elephants* finds elephants in the crosshairs of colonial exploitation in accounts pulled from memoirs commoditizing African elephants as a source of ivory novel targets for bloodsport and occasional export for circuses and zoos *Working and Performing Elephants* gives firsthand accounts of the often cruel training methods and treatment inflicted on elephants to achieve submission and obedience As elephants became an object of scientific curiosity in the mid-twentieth century wildlife biologists explored elephant families and kinship behaviors around sex and love language and self-awareness and enhanced communications with sound and smell The pieces featured in *Scientific and Social Elephants* give readers a glimpse into major discoveries in elephant behaviors *Endangered Elephants* points to the future of the elephant whose numbers continue to be ravaged by ivory poachers Peterson concludes

with a section on fictional and literary elephants and ends on a hopeful note with the 1967 essay Dear Elephant Sir which argues for the moral imperative to save elephants as an act of redemption for their systematic abuse and mistreatment at human hands Essential to understanding the history and experience of this beloved and misunderstood creature Thirty Three Ways of Looking at an Elephant is a must for any elephant lover or armchair environmentalist [Trudy's House](#) L.H.
