N E Thing Co The Ubiquitous Concept:

McLuhan in Space Richard Cavell, 2002-01-01 Demonstrates how McLuhan extended insights derived from advances in physics and artistic experimentation into a theory of acoustic space which he then used to challenge the assumptions of visual space that had been produced through print culture **N.E. Thing Co** Derek Knight, Iain Baxter &, N.E. Thing Company, Ingrid Baxter, Oakville Galleries, 1995-01-01 **Engendering an avant-garde** Leah Modigliani, 2018-04-06 Engendering an avant garde is the first book to comprehensively examine the origins of Vancouver photo conceptualism in its regional context between 1968 and 1990 Employing discourse analysis of texts written by and about artists feminist critique and settler colonial theory the book discusses the historical transition from artists creation of defeatured landscapes between 1968 71 to their cinematographic photographs of the late 1970s and the backlash against such work by other artists in the late 1980s It is the first study to provide a structural account for why the group remains all male It accomplishes this by demonstrating that the importation of a European discourse of avant garde activity which assumed masculine social privilege and public activity effectively excluded women artists from membership **Documentary Protocols (1967-1975)** Vincent Bonin, Michèle Thériault, 2010 Documentary protocols 1967 1975 is the third part of a major project that also included two exhibitions Documentary protocols I and Documentary protocols II presented at the Gallery in 2007 and 2008 This was conceived and developed by Vincent Bonin The publication Documentary protocols 1967 1975 constitutes an exercise in the critical examination of the nature of curatorial work and research at the Gallery It is an attempt to grasp and describe the paradigm of self determination in Canadian art that emerged in the mid 1960s and the rupture that occurred in the mid 1970s between certain aesthetic positions and political objectives P 6 **Handbook of Research on the Impact of Fandom in Society and Consumerism** Wang, Cheng Lu, 2019-10-25 Fans of specific sports teams television series and video games to name a few often create subcultures in which to discuss and celebrate their loyalty and enthusiasm for a particular object or person Due to their strong emotional attachments members of these fandoms are often quick to voluntarily invest their time money and energy into a related product or brand thereby creating a group of faithful and passionate consumers that play a significant role in multiple domains of contemporary culture The Handbook of Research on the Impact of Fandom in Society and Consumerism is an essential reference source that examines the cultural and economic effects of the fandom phenomenon through a multidisciplinary lens and shapes an understanding of the impact of fandom on brand building Featuring coverage on a wide range of topics such as religiosity cosplay and event marketing this publication is ideally designed for marketers managers advertisers brand managers consumer behavior analysts product developers psychologists entertainment managers event coordinators political scientists anthropologists academicians researchers and students seeking current studies on the global impact of this particularly devoted community **PhotoGraphic Encounters** William F. Garrett-Petts, Donald Lawrence, Kamloops Art Gallery, 2000-10 Literacy is broadly understood to refer to the ability to read

and write But the term is heavily value laden and is often used to elevate print at the expense of other forms of communication In *PhotoGraphic Encounters* the authors challenge this reductive notion of literacy and propose instead an integrated span of literacies reaching across disciplinary boundaries to discover a text that draws upon both the visual and the verbal *PhotoGraphic Encounters* discusses Canadian writers like Margaret Atwood George Bowering Robert Kroetsch and Daphne Marlatt and Canadian artists like Fred Douglas Ernie Kroeger Brenda Pelkey and Michael Snow then looks at the cross fertilization of visual and verbal processes in their works The authors present a new narrative practice one that fully engages lived experience The vernacular they argue is vital to our participation as readers and viewers of high art Making the connection between the vernacular and high culture creates an enabling moment in artistic production and reception and in teaching learning and talking about art and literature *PhotoGraphic Encounters* offers a compelling perspective on questions of literacy in a postmodern culture Artists writers scholars and critics alike will want this volume in their libraries Includes more than 120 B W photographs 20 colour plates index bibliography
