## **Nabis Bonnard Vuillard And Their Circle:**

**The Nabis** Claire Frèches-Thory, Antoine Terrasse, 1990 Inspired by contemporary Symbolist theory and the art of Paul Gauguin the Nabis set out to revolutionize traditional aesthetics turning their talents to painting printmaking posters book illustration textiles furniture and theatre design Their common aim was to make art part of everyday life

**The Nabis and Intimate Modernism** Katherine M. Kuenzli, 2017-07-05 Providing a fresh perspective on an important but underappreciated group of late nineteenth century French painters this is the first book to provide an in depth account of the Nabis practice of the decorative and its significance for twentieth century modernism Over the course of the ten years that define the Nabi movement 1890 1900 its principal artists included Edouard Vuillard Pierre Bonnard Maurice Denis Paul Sérus and Paul Ranson The author reconstructs the Nabis relationship to Impressionism mass culture literary Symbolism Art Nouveau Wagnerianism and a revolutionary artistic tradition in order to show how their painterly practice emerges out of the pressing questions defining modernism around 1900 She shows that the Nabis were engaged nonetheless with issues that are always at stake in accounts of nineteenth century modernist painting issues such as the relationship of high and low art of individual sensibility and collective identity of the public and private spheres The Nabis and Intimate Modernism is a rigorous study of the intellectual and artistic endeavors that inform the Nabis decorative domestic paintings in the 1890s and argues for their centrality to painterly modernism The book ends up not only re positioning the Nabis to occupy a crucial place in modernism's development from 1860 to 1914 but also challenges that narrative to place more emphasis on notions of decoration totality and interiority

**Bonnard and the Nabis** Albert Kostenevitch, 2012-05-08 Pierre Bonnard was the leader of a group of post impressionist painters who called themselves the Nabis from the Hebrew word meaning prophet Bonnard Vuillard Roussel and Denis the most distinguished of the Nabis revolutionized the spirit of decorative techniques during one of the richest periods in the history of French painting Influenced by Odilon Redon and Puvis de Chavanne by popular imagery and Japanese etchings this post impressionist group was above all a close circle of friends who shared the same cultural background and interests An increasing individualism in their art often threatened the group's unity and although tied together by a common philosophy their work clearly diverged This publication lets us compare and put into perspective the artists within this fascinating group The works presented in this collection offer a palette of extraordinary poetic expressions candid in Bonnard ornamental and mysterious in Vuillard gently dream like in Denis grim and almost bitter in Vallotton the author shares with us the lives of these artists to the very source of their creative gifts

**Radical Art and the Formation of the Avant-Garde** David Cottington, 2022-03-08 An authoritative re definition of the social cultural and visual history of the emergence of the avant garde in Paris and London Over the past fifty years the term avant garde has come to shape discussions of European culture and modernity ubiquitously taken for granted but rarely defined This ground breaking book develops an original and searching methodology that fundamentally reconfigures the social cultural and visual context of the

emergence of the artistic avant garde in Paris and London before 1915 bringing the material history of its formation into clearer and more detailed focus than ever before Drawing on a wealth of disciplinary evidence from socio economics to histories of sexuality bohemia consumerism politics and popular culture David Cottington explores the different models of cultural collectivity in and presumed hierarchies between these two focal cities while identifying points of ideological influence and difference between them He reveals the avant garde to be at once complicit with resistant to and a product of the modernizing forces of professionalization challenging the conventional wisdom on this moment of cultural formation and offering the means to reset the terms of avant garde studies     The Nabis and Their Period Charles Chassé,1969

**Beyond the Easel** Gloria Lynn Groom,Nicholas Watkins,Jennifer Paoletti,Thérèse Barruel,Metropolitan Museum of Art (New York, N.Y.),2001-01-01 The Contributions of Artists Pierre Bonnard Edouard Vuillard Maurice Denis and Ker Xavier Roussel to the French avant garde of the 1890s as members of the Nabis are widely recognized What is less known about these artists careers is their extraordinary work in decorative painting work on a large or unusual scale for private interiors This illustrated book focuses on the many decorative works carried out by the four artists between 1890 and 1930 During these years they moved beyond the narrow parameters of easel painting and applied their wholly untraditional aesthetic of decoration to a wide range of works for domestic interiors from wall size ensembles to folding screens The cosmopolitan group of patrons who made this work possible ranged from the avant garde circle of La Revue Blanche to prominent members of the French establishment An examination of their role and tastes is another fascinating feature of this publication The book and accompanying exhibition reunite paintings that have long been dispersed introducing contemporary viewers to a group of bold and evocative works which had a wide ranging though little recognized influence on modern art As the book s authors argue the aesthetic embodied by these works indeed helped set the stage for the large non narrative paintings by artists as diverse as Rothko and Lichtenstein that came to dominate the avant garde after World War II BOOK JACKET Title Summary field provided by Blackwell North America Inc All Rights Reserved     Nature's Experiments and the Search for Symbolist Form Allison Morehead,2017-02-27 This provocative study argues that some of the most inventive artwork of the 1890s was strongly influenced by the methods of experimental science and ultimately foreshadowed twentieth century modernist practices Looking at avant garde figures such as Maurice Denis douard Vuillard August Strindberg and Edvard Munch Allison Morehead considers the conjunction of art making and experimentalism to illuminate how artists echoed the spirit of an increasingly explorative scientific culture in their work and processes She shows how the concept of nature s experiments the belief that the study of pathologies led to an understanding of scientific truths above all about the human mind and body extended from the scientific realm into the world of art underpinned artists solutions to the problem of symbolist form and provided a ready made methodology for fin de si cle truth seekers By using experimental methods to transform symbolist theories into visual form these artists broke from naturalist modes and interrogated concepts

such as deformation automatism the arabesque and madness to create modern works that were radically and usefully strange Focusing on the scientific psychological and experimental tactics of symbolism Nature's Experiments and the Search for Symbolist Form demystifies the avant garde value of experimentation and reveals new and important insights into a foundational period for the development of European modernism *Medievalism in Technology Old and New* Karl Fugelso, Carol L. Robinson, 2008 Medievalism examined in a variety of genres from fairy tales to today's computer games As medievalism is refracted through new media it is often radically transformed Yet it inevitably retains at least some common denominators with more traditional responses to the middle ages This latest volume of Studies in Medievalism explores this phenomenon with a special section on computer games examining digital echoes of the medieval past in subjects ranging from the sovereign ethics of empire in Star Wars to gender identity in on line role playing Medievalism in more conventional venues is also addressed ranging from early French fairy tales to nineteenth century neo Byzantine murals Great innovation and extraordinary continuity are thus juxtaposed not only within each article but also across the volume as a whole in yet further testimony to the exceptional flexibility and enduring relevance of medievalism CONTRIBUTORS ALICIA C MONTTOYA ALBERT D PIONKE GRETCHEN KREHLING MCKAY CHENE HEADY BRUCE C BRASINGTON STEFANO MENGOSZI CAROL L ROBINSON OLIVER M TRAXEL AMY S KAUFMAN BRENT MOBERLY KEVIN MOBERLY LAURYN S MAYER

**The Poster** Ruth E. Iskin, 2014-10-07 The Poster Art Advertising Design and Collecting 1860s 1900s is a cultural history that situates the poster at the crossroads of art design advertising and collecting Though international in scope the book focuses especially on France and England Ruth E Iskin argues that the avant garde poster and the original art print played an important role in the development of a modernist language of art in the 1890s as well as in the adaptation of art to an era of mass media She moreover contends that this new form of visual communication fundamentally redefined relations between word and image poster designers embedded words within the graphic rather than using images to illustrate a text Posters had to function as effective advertising in the hectic environment of the urban street Even though initially commissioned as advertisements they were soon coveted by collectors Iskin introduces readers to the late nineteenth century iconophile a new type of collector curator archivist who discovered in poster collecting an ephemeral archaeology of modernity Bridging the separation between the fields of art design advertising and collecting Iskin's insightful study proposes that the poster played a constitutive role in the modern culture of spectacle This stunningly illustrated book will appeal to art historians and students of visual culture as well as social and cultural history media design and advertising *The Red Count* Laird M. Easton, 2006-01-25 A richly contextualized portrait of a key Weimar figure who deserves to be better known Easton is a lively writer Martin Jay University of California Berkeley Provocative and original The Red Count should be welcomed by a growing number of cultural historians interested in reassessing the politics of European modernism and in current debates about the trajectory of German political culture and cultural politics in the decades before the rise of fascism Kevin Repp Yale

University A major addition to understanding the cultural contributions Germany made to the modernist impulse especially in the years before 1914 Kessler s numerous activities as delineated by the author attest to the cosmopolitanism of many within Germany s urban liberal elite The Red Count is extremely well written Easton s prose is fluid colorful and eminently readable Marion Deshmukh George Mason University

**Moving Modernism** Nell Andrew, 2020-03-11 The emergence of modern dance and the early history of cinema ran concurrent with the European avant garde s development of pictorial abstraction in the first decades of the 20th century However many assume that modernist abstraction resulted from a century of natural autonomous evolution to painting styles and tastes In *Moving Modernism* author Nell Andrew challenges this assumption By examining dance and film created during this period she argues that performative modes of art created the link between bodily movement and movement depicted in modernist paintings In a seeming paradox dance and film durational arts involving real bodies in space participated in the development of abstract art With archival material collected in North America and Europe *Moving Modernism* resurfaces lost performances identifies working methods and establishes the circles of aesthetic influence and reception for avant garde dance pioneers and experimental film makers from the turn of the century to the interwar period Reexamining the motivation that fueled the emergence of abstraction Andrew claims that painters sought meaning not only in the material and formal picture but also in temporal and sensorial experience Andrew looks at major figures and intellectual movements including Lo e Fuller and Symbolism Valentine de Saint Point and the Cubo Futurist and neo Symbolist movements and early cinematic abstraction from Edison and the Lumi res to Hans Richter and Marcel Duchamp Close examinations of each figure show that theatrical display embodied self projection and kinesthetic desire are not

necessarily in opposition to pictorial abstraction in fact they expand our understanding of the urges that created modern art

In Search of the Holy Grail Veronica Ortenberg, 2006-01-01 This book surveys the influence of the middle ages and of medieval attitudes and values on later periods and on the modern world Many artistic political and literary movements have drawn inspiration and sought their roots in the thousand years between 500 and 1500 AD Medieval Christianity and its rich legacy has been the essential background to European culture as a whole Gothic architecture and chivalry were two keys to Romanticism while nationalists including the Nazis looked back to the middle ages to find emerging signs of national character In literature few myths have been as durable or popular as those of King Arthur stretching from the Dark Ages to Hollywood In Search of the Holy Grail is a vivid account of how later ages learnt about and interpreted the middle ages
