## **Nafta Now The Changing Political Economy Of North America:**

NAFTA Now! Brenda M. McPhail, 1995 This collection of nine essays includes works by noted authorities in the fields of academia business and government They analyze the agreement and its political economic and socio cultural effects Each author draws on a unique background with authors coming from the United States Mexico and Canada The collection includes views from both supporters and critics of the agreement The NAFTA has provoked much debate and raised many difficult questions While there are no easy answers to these questions these engaging essays provide us with a coherent and comprehensive perspective to help the reader become better informed Co published with the Harvard Center for International Studies Contributors Brenda McPhail Sidney Weintraub Virginia Druhe Remi L Wrona Neil Nevitte Miguel Basanez Elaine Bernard Mildred A Schwartz Christopher Gutierrez Daniel Duke McVey **Western Hemisphere Trade Integration** Richard G. Lipsey, Patricio Meller, 2016-07-27 What is the Latin America LA perception of NAFTA Is NAFTA the route to western hemisphere integration What should be the relationship between NAFTA and the other LA trade arrangements more specifically the relation between NAFTA and MERCOSUR What can LA learn from Canada with respect to having a close trade partnership with the United States This book provides a Latin American and a Canadian view of western hemisphere integration There are suggestions in order to achieve a convergence in both perceptions **Scholars, Missionaries, and Counter-Imperialists** Andrew C. Holman, Brian Payne, 2022-03-13 For more than half a century the field of Canadian Studies has attracted North American scholars of the highest caliber to examine Canada its distinctive social makeup its fascinating colonial and postcolonial history its intriguing literature its political structure and its changing place in the world Scholars Missionaries and Counter Imperialists The American Review of Canadian Studies 1971 2021 traces the birth and growth of that field by reproducing 15 exemplary articles published in the pages of that journal from its establishment until the present day For five decades the American Review of Canadian Studies ARCS acted as a bellwether for the field revealing its strengths projecting new directions and inquiries and reflecting the changing topics and methods that scholars used to study Canada This book captures the history of that field in one robust volume Carefully selected by the co editors of ARCS the chapters in this edited volume are prefaced by an introductory essay that assesses the accomplishments of the field and brief chapter introductions that place them into context *Free Traders* Malcolm Fairbrother, 2020 Today s global economy was largely established by political events and decisions in the 1980s and 90s when scores of nations opened up their economies to the forces of globalization In *Free Traders* Malcolm Fairbrother argues that politicians embrace of globalization was much less motivated by public preferences than by the agendas of businesspeople and other elites Drawing on over one hundred interviews with decision makers and analyses of archival materials from Canada Mexico and the U S Fairbrother tells the story of how each country negotiated and ratified two agreements that substantially opened and integrated their economies the 1989 Canada U S and trilateral 1994 North

American Free Trade Agreement Contrary to what many commentators believe these agreements like free trade elsewhere were based less on mainstream neoclassical economics than on the informal self serving economic ideas of business While the stakes in the globalization debate remain high Free Traders uses a comparative historical approach to sharpen our understanding of how globalization arose in the past to provide us with clearer trajectory for how it will develop in the future

**NAFTA and GATT** Joan Nordquist,1996 Human Values and Beliefs Ronald F. Inglehart,Miguel Basanez,Alejandro Moreno,1998-05-18 Provides a wealth of information about values and beliefs of people all over the world **Military Review** ,2002 *The Political Economy of American Trade Policy* Anne O. Krueger,2007-12-01 Exploring the political and economic determinants of trade protection this study provides a wealth of information on key American industries and documents the process of seeking and conferring protection Eight analytical histories of the automobile steel semiconductor lumber wheat and textile and apparel industries demonstrate that trade barriers rarely have unequivocal benefits and may be counterproductive They show that criteria for awarding protection do not take into account the interests of consumers or other industries and that political influence and an organized lobby are major sources of protection Based on these findings a final essay suggests that current policy fails to consider adequately economic efficiency the public good and indirect negative effects This volume will interest scholars in economics business and public policy who deal with trade issues Freeing Trade in North America Greg Anderson,2020-03-02 Conceived in an era of rapid post Cold War economic liberalization the North American Free Trade Agreement NAFTA signed in 1994 brought together Canada Mexico and the United States with the aim of creating a regional trade bloc that eliminated the friction and costs of trade between the three nations Without an overarching institutional framework NAFTA never sought to attain the levels of integration achieved by the European Union for many it was a missed opportunity and never quite fulfilled its potential as a single market And under Donald Trump s administration a trilateral trade agreement has become increasingly precarious Freeing Trade in North America explains the theory behind the politics and economics of trade in North America offering an accessible and concise analysis of the key provisions shortcomings and past revision efforts of the governments involved At a time of increasing protectionism and heightened awareness of trading relationships the book highlights the lessons to be learned from the fraught history of one of the largest trade blocs in the world *The Political Economy of International Trade* Ken Heydon,2019-11-12 With protectionist sentiment and economic nationalism on the rise international trade and how it is governed is at the heart of some of the most important contemporary economic and political debates Comprehensive and clear this book skilfully outlines and analyses the dynamics of trade in the 21st century Ken Heydon examines three broad themes the nature and distribution of the gains from trade the institutional and governance framework of the international trade system and the contentious practical issues confronting policy makers across the world He considers pressing contemporary debates surrounding issues ranging from agriculture and food security to the links between trade and environment protection core

labour standards and intellectual property rights He demonstrates the importance of a change of mindset in terms of how we see trade policy it should not be simply a question of international negotiation but also a key component of sound domestic economic management In short we need to put commerce in context Drawing on the author's experience as a policy practitioner trade policy analyst and teacher the volume is informed by an extensive analysis of the literature and by relevant case studies It is designed for students and scholars of international political economy and trade policy trade officials and the general public Aanwinsten van de Centrale Bibliotheek (Queteletfonds) Bibliothèque centrale (Fonds Quetelet),1999

**The American University Journal of Gender & the Law**,1997 **The Last American Diplomat** George W.

Liebmman,2012-01-27 Can John D Negroponte be described as The Last American Diplomat In a career spanning 50 years of unprecedented American global power he was the last of a dying breed of patrician diplomats devoted to public service a self effacing and ultimate insider whose prime duty was to advise guide and warn a bulwark of traditional diplomatic realism against ideologue excess Negroponte served as US ambassador to Honduras Mexico the Philippines and Iraq he was US Permanent Representative to the UN Director of National Intelligence and Deputy Secretary of State to George W Bush His was a high flying and seemingly conventional career but one full of surprises Negroponte opposed Kissinger in Vietnam supported a proxy war but opposed direct American military action against Marxists in Central America facing bitter Congress opposition in the process He swam against the floodtide of George W Bush's neocon dominated administration warning against the Iraq war as a possible new Vietnam and criticising aspects of Bush's War on Terror He disconcerted the administration by arguing that the re establishment of Iraq would take as long as five years And he was influential in international social and economic policy working for the successful re settlement of millions of refugees in Southeast Asia following the Vietnam War issuing early warnings about the scourge of AIDS in Africa and successfully launching the North American Free Trade Agreement NAFTA George W Liebmann's incisive account is based on personal and shared experience but it is no hagiography beyond the author's discussions with Negroponte this book is deeply researched in US state papers and includes interviews with leading actors It will provide fascinating reading for anyone interested in the inside story of American diplomacy showing personal and policy struggles and the underlying fissures present even in the world's last remaining superpower **The New Politics of Inequality in Latin America** Douglas A. Chalmers,Carlos M.

Vilas,Katherine Hite,Scott B. Martin,Kerianne Piester,Monique Segarra,1997-01-30 Against a broader backdrop of globalization and worldwide moves toward political democracy The New Politics of Inequality in Latin America examines the unfolding relationships among social change equity and the democratic representation of the poor in Latin America Recent Latin American governments have turned away from redistributive policies at the same time popular political and social organizations have been generally weakened inequality has increased and the gap between rich and poor has grown Hanging in the balance is the consolidation and the quality of new or would be democracies this volume suggests that governments

must find not just short term programmes to alleviate poverty but long term means to ensure the effective integration of the poor into political life The New Politics of Inequality in Latin America bridges the intellectual chasm between on the one hand studies of grassroots politics and on the other explorations of elite politics and formal institution building It will be of interest to students and scholars of contemporary Latin American politics and society and more generally in the vicissitudes of democracy and citizenship in the late twentieth century global system      **Neoliberal Mercantilism and North American**

**Free Trade** Malcolm Henry Fairbrother,2006      **Just a Number** Anne-Marie Mooney Cotter,2016-04-22 Whilst workers organizations and third party analysts around the world commonly cite age as the most prevalent form of discrimination in the workplace age discrimination has not had the same high profile as discrimination on grounds of sex or race This book allows readers to better understand the issue of ageism and inequality It examines the primary role of legislation and court process in combating age discrimination at both national and international levels Including the role of NAFTA and the EU in this respect it also provides a detailed examination of the relationship between age issues and the law and will be an important resource for those involved in age discrimination and elder rights      *International Political Economy* Peu

Ghosh,2023-12-01 This book is a comprehensive introduction to the theories and recent debates on international political economy IPE It illustrates the theoretical ideas of the discipline and provides an in depth understanding of regional and global political economy The book focusses on the functioning of states and the economy within the perspective of world politics It explores the theories realism liberalism liberal interdependence hegemonic stability and dependency vis vis the contemporary global economic and political scenario It provides a historical overview of the developments in the field and study of IPE institutions such as the International Monetary Fund World Bank and World Trade Organization the effects of globalization the movement of capital and the contested relationship between human development and democracy The book examines the effects of neoliberal policies on the functioning of states and highlights the challenges and dilemmas of prioritizing development especially for developing countries The author also looks at regional formations like the EU NAFTA ASEAN SAARC APEC and BRICS and their contributions to political and economic cooperation and trade The book will be useful to the students researchers and faculty working in the fields of political economy international relations economics political science and development studies      **The Global Political Economy and Post-1989 Change** E.

Ashworth,2000-08-03 This book examines the effect of post Soviet transitions on current problem solving trends with regards to world capitalism The fall of Soviet communism left liberal capitalism as the dominant blueprint from which to construct economic development policies Using Central Europe as an example it is shown that the application of the Western liberal capitalist model has not been without its difficulties This book endeavours to place the changes to the global political economy since 1989 in a theoretical and historical context      *Post-NAFTA North America* I. Morales,2008-04-09 The author argues that in the post 9 11 era North America is evolving from a primarily economic space to a strategic securitized one and

that NAFTA has been used by the US as a regulatory framework for dealing with the pressures of globalization that have emerged in the post Cold War era      **Race Matters** Anne-Marie Mooney Cotter, 2016-05-23 Exploring the key legal issues in combating race discrimination Race Matters provides readers with a detailed understanding of the issue of inequality At its heart is an aim to increase the likelihood of achieving racial equality at both the national and international levels in so doing it examines the primary role of legislation and its impact on the court process It also discusses the two most important trade agreements of our day the North American Free Trade Agreement and the European Union Treaty in a historical and compelling analysis of racial discrimination By providing a detailed examination of the relationship between race and the law the book will be an important resource for those concerned with equality
