Nalogovye Prestupleniia:

Law and Legal System of the Russian Federation - Sixth Edition Peter B. Maggs, Olga Schwartz, William Burnham, 2015-01-01 This book is a detailed treatment of the Russian legal system written especially for English speaking law students and lawyers While it is designed primarily as a casebook extended discussions of the law numerous citations to original Russian sources and detailed suggestions for finding these sources on the Internet also make it useful as a reference for scholars specializing in Russian studies and for lawyers who know Russian but not Russian law The authors have decades of experience following the Russian legal system with one concentrating on human rights court procedure and criminal law and procedure the other on civil commercial and tax law Chapters cover key aspects of the Russian legal system including sources of law the judicial system the legal profession constitutional law individual rights civil and commercial law civil procedure private international law foreign investment law criminal procedure administrative law and tax law The book covers major changes in Russian law since the previous edition was published including more reliance on judicial precedent increasing the independence of criminal investigators from prosecutors dealing with abuse of the legal system by corrupt officials to steal businesses from their rightful owners and closing loopholes in the tax system The new edition also chronicles the continuing struggle of the European Court of Human Rights and activist Russian lawyers to push Russian law toward international standards

Building Justice in Post-transition Europe Kay Eileen Goodall, Margaret S. Malloch, Bill Munro, 2013 Since democracies are relatively new in Eastern Europe and little has been written much can be learned from looking at the distinctive developments in both legal transitions and the process of criminalization This book brings together recent work from researchers and academics engaged in theory policy and practice and offers a significant contribution to the study of transition in the fields of criminology law philosophy and political science and a critical analysis of future directions in criminalisation in the emerging democratic states of Eastern Europe *Michigan Journal of International Law*, 2006
