Named God And The Question Of Being A Trinitarian Theo Ontology:

The Named God and the Question of Being Stanley J. Grenz, 2005-11 In this book Stanley Grenz examines the long standing trajectory of thought that has equated the concept of being with the God of the Bible and thus claimed that the ontological category of being is the guiding concept by which God should be understood Grenz extends the engagement between Christian theology and the Western philosophical tradition and focuses the discussion on the importance of naming particularly given that the Christian God is both named and triune In doing so he organizes the book into three parts forming an overarching story of the interplay between the named character of God and the question of being First he analyzes the history of the philosophical concept of Being then he shifts the focus to an exegesis of the I Am texts and finally he moves to a renewed conversation between theology and ontological philosophy by means of the divine name Trinitarian Theology

Keith S. Whitfield, 2018-10-01 In Trinitarian Theology contributors Bruce Ware Malcon B Yarnell III Matthew Y Emerson and Luke Stamps discuss theological methods for forming the doctrine of the Trinity and the the implications in applying that doctrine to complementarianism

The Trinitarian Theology of Stanley J. Grenz Jason S. Sexton, 2013-09-12 Exploring one of the most controversial figures in recent evangelical theology this book thoroughly examines core features of Stanley J Grenz s Trinitarian vision

Tetragrammaton: Western Christians and the Hebrew Name of God Robert J. Wilkinson, 2015-02-04 The Christian Reception of the Hebrew name of God has not previously been described in such detail and over such an extended period This work places that varied reception within the context of early Jewish and Christian texts Patristic Studies Jewish Christian relationships Mediaeval thought the Renaissance and Reformation the History of Printing and the development of Christian Hebraism The contribution of notions of the Tetragrammaton to orthodox doctrines and debates is exposed as is the contribution its study made to non orthodox imaginative constructs and theologies Gnostic Kabbalistic Hermetic and magical texts are given equally detailed consideration There emerge from this sustained and detailed examination several recurring themes concerning the difficulty of naming God his being and his providence

Toward a Priestly Christology Adriani Milli Rodrigues, 2018-11-02 Toward a Priestly Christology is a constructive theology on the person and work of Christ from the standpoint of a systematic thinking about his priesthood This priesthood is usually discussed in biblical scholarship on the Christology of Hebrews and also explored in historical or systematic theology with its connections with soteriology and ecclesiology However there is a scarcity of studies that attempt to systematize this topic in its basic components and their ontological foundations in order to provide conceptual clarity for a constructive discussion of the priestly Christology in systematic theology The book makes a contribution to this discussion by engaging firstly with the main models of Christ s priesthood in Christian theology and then with a theological reading of the letter to the Hebrews In both steps the author conceptually articulates the priesthood in terms of need agent actions and goal Then he observes the conceptual articulation from the macro hermeneutical point of view of ontology especially noticing how

assumptions on time and space impact the internal logic of Christ's priesthood. By using existing models of this priesthood as heuristic tools for systematic thinking, the work attempts to push Christian theology toward a more dynamic understanding of Christ's priesthood, especially regarding the relationship between the ascended Christ and our Christian life. *Jesus in Trinitarian Perspective* Fred R. Sanders, Klaus Dieter Issler, 2007. Jesus in Trinitarian Perspective studies the person of Jesus on Earth as well as how He is the eternal second person of the Trinity. **The Anointed Church** Gregory J.

Liston, 2015-09-01. Over recent decades, Spirit Christology has utilized a pneumatological perspective to gain significant insight into the person and life of Christ. The Anointed Church extends this work, providing the first constructive and systematic ecclesiology developed through the approach of a Third Article Theology. Arguing that the Spirit's immanent identity is reprised on a series of expanding stages Christologically, soteriologically, and most pertinently here ecclesologically, Liston concludes the Church can be characterized as existing in any and all relationships where, by the Spirit, the love of Christ is offered and returned. *The Cambridge Companion to Evangelical Theology* Timothy Larsen, Daniel J. Treier, 2007-04-12. Evangelicalism, a vibrant and growing expression of historic Christian orthodoxy, is already one of the largest and most geographically diverse global religious movements. This Companion, first published in 2007, offers an articulation of evangelical theology that is both faithful to historic evangelical convictions and in dialogue with contemporary intellectual contexts and concerns. In addition to original and creative essays on central Christian doctrines such as Christ, the Trinity, and Justification, it breaks new ground by offering evangelical reflections on issues such as gender, race, culture, and world religions. This volume also moves beyond the confines of Anglo-American perspectives to offer separate essays exploring evangelical theology in African, Asian, and Latin American contexts. The contributors to this volume form an unrivalled list of many of today's most eminent evangelical theologians and important emerging voices. **The Imago Dei**

John T. Swann, 2017-07-07. The creation of humankind in the Image of God is perhaps the most foundational tenet of theological anthropology, yet it is rarely understood in the fullness of what it represents. Too often, focus is placed on the divine image as a condition. A study of the Scriptures suggests that it is better understood not as a condition but rather as a commission of humanity to a role, specifically a priestly role. This book delves into the recognition that the Image of God is nothing less than a divine commission over all of humanity to serve as priests within the temple of creation. It examines not only the creation of humankind as a priesthood in the opening chapters of Genesis but also the echoes of this anthropological interpretation throughout the Scriptures and the resulting ramifications for future biblical and theological studies.

Embodied Souls, Ensouled Bodies Marc Cortez, 2011-10-20. The book explores the relationship between Christology and theological anthropology through the lens provided by the theology of Karl Barth and the mind-body discussion in contemporary philosophy of mind. It thus comprises two major sections. The first develops an understanding of Karl Barth's theological anthropology, focusing on three major facets: 1. the centrality of Jesus Christ for any real understanding of human

persons 2 the resources that such a christologically determined view of human nature has for engaging in interdisciplinary discourse and 3 the ontological implications of this approach for understanding the mind body relationship The second part draws on this theological foundation to consider the implications that Christological anthropology has for analyzing and assessing several prominent ways of explaining the mind body relationship Specifically it interacts with two broad categories of theories nonreductive forms of physicalism and holistic forms of dualism After providing a basic summary of each the book applies the insights gained from Barth s anthropology to ascertain the extent to which the two approaches may be considered christologically adequate

The Tradition of the Gospel Christians Andrey Puzynin, 2011-01-01 The Tradition of the Gospel Christians explores the post Soviet tradition of evangelical Christians originating from the ministry of the Victorian revivalist preacher Lord Radstock in St Petersburg in the 1870s In an effort to resolve the current evangelical crises of theology and identity this study provides an analysis of the tradition s history reflecting on its restorationist tradition the contours and vectors of its theology and its practice of biblical interpretation The historical analysis reveals that the major causes of the crises of identity and theology pertain to the socio political upheavals which in turn led the tradition to develop strategies to maintain relevance in its changed contexts The socio political shifts were also responsible for the lack of emphasis on research and scholarship which contributed to a difficulty in finding the necessary resources and intellectual virtues to deal with the collapse of the Soviet Union Building on the discoveries of the historical analysis Andrei P Puzynin offers a new historical and theological paradigm by reconstructing the self identifying narrative and theological framework in critical dialogue with recent developments in Anglo American evangelicalism and postliberalism Following the trajectory of the evangelical tradition in the post Soviet context a trajectory which relies on Western thought the book adopts the narrative theological method of reading the world through the lens of Scripture The self identifying narrative of the community is reconstructed through a theological reading of the previous identity constructions in the light of recent discussions on Christ and the powers The result of this study helpfully explains the dynamics of Eastern evangelicalism in a traditionally Russian Orthodox setting

Beyond Evangelicalism Steven Knowles, 2016-12-05 A prolific author and thinker Stanley J Grenz was a respected and influential figure not only within evangelicalism but in the wider theological world Amongst the many issues tackled by him it is perhaps his revisioning of evangelical theology in the light of the postmodern challenge that has caused the biggest stir in the theological world Advocating a nonfoundationalist methodology Grenz attempts to re position evangelical theology in line with postmodern concerns This work examines the main traits of postmodern thought that would seem to directly challenge how evangelical theology is traditionally done An examination of the seminal influences on Grenz will be traced in order to understand more fully the position he takes A rigorous critique and assessment of his theological methodology will follow with the conclusion that his work goes beyond evangelicalism This will be the first book length treatment on Grenz s work on theological methodology and therefore will break new ground in this important area of study

Remythologizing Theology Kevin J. Vanhoozer, 2010-01-14 Kevin J Vanhoozer develops a new vision of Christian theism by establishing divine communicative action as the formal and material principle of theology His contribution revisits long standing controversies such as the relations of God's sovereignty to human freedom time to eternity and suffering to love

Creation and New Creation Sean M McDonough, 2016-04-01 In keeping with the Scriptural witness and the theological heritage this remarkable book examines the doctrine of creation alongside new creation The connection between the two creation and new creation has drawn renewed attention in the last several decades but the burden of Sean McDonough's argument is that this emphasis on creation and new creation has been a feature of the doctrine since the beginning whether in the eschatological reading of Genesis 1 that predominated at least until early modern times or the intertwining of the narratives of creation and redemption in thinkers from Irenaeus to Barth Whilst covering the traditional elements of the doctrine McDonough treats the important subject with a special emphasis on how these unfold in the story of what Gunton has called God's creation project

"Too Much to Grasp" Andrea D. Saner, 2015-09-15 Few phrases in Scripture have occasioned as much discussion as has the I am who I am of Exodus 3:14 What does this phrase mean How does it relate to the divine name YHWH Is it an answer to Moses' question v. 13 or an evasion of an answer The trend in late nineteenth and twentieth century scholarly interpretations of this verse was to superimpose later Christian interpretations which built on Greek and Latin translations on the Hebrew text According to such views the text presents an etymology of the divine name that suggests God's active presence with Israel or what God will accomplish for Israel the text does not address the nature or being of God However this trend presents challenges to theological interpretation which seeks to consider critically the value pre-modern Christian readings have for faithful appropriations of Scripture today In *Too Much to Grasp* Exodus 3:13-15 and the Reality of God Andrea Saner argues for an alternative way forward for twenty-first century readings of the passage using Augustine of Hippo as representative of the misunderstood interpretive tradition Read within the literary contexts of the received form of the book of Exodus and the Pentateuch as a whole the literal sense of Exodus 3:13-15 addresses both who God is as well as God's action The I am who I am of v. 14a expresses indefiniteness while God reveals himself as YHWH and offers this name for the Israelites to call upon him God is not exhausted by this revelation but rather remains beyond human comprehension and control

The Crisis of Conversion J. August Higgins, 2024-06-25 This book attempts to identify a central problem within the North American evangelical imagination around the issue of religious experience and its relationship to the basic hermeneutical stance of biblical and theological interpretation The relatively recent emergence of the academic discipline of Christian spirituality offers a new set of methodological insights that may help to mediate the theological impasse between more conservative and progressive perspectives concerning the appropriate role of human experience for evangelical thought and practice Specifically we will explore the experience of religious conversion that lies at the center of evangelical spirituality in critical dialogue with the challenges and opportunities brought about by recent

philosophical discourse and the postmodern turn variously understood **Revisioning, Renewing, Rediscovering the Triune Center** Derek J. Tidball, Brian S. Harris, Dr Jason S Sexton, 2014-11-10 An international cast of theologians come together in this volume to offer essays in tribute to the late Stanley J Grenz one of the leading theologians of his generation Accordingly the volume includes timely explorations in some of the most exciting areas in contemporary theology It is only fitting that these very explorations revolve around the key motifs of Grenz s theology Trinity community eschatology and the key sources from which he drew for theology s construction Scripture tradition culture While engaging key features seen in Grenz s work some of the essays here interact with Grenz s own writings reflecting on his theological journey and his contributions to evangelical theology In these ways this volume highlights the kind of evangelical theology that so many have experienced in recent years and of which Stan Grenz was a leading proponent Revisioning Renewing Rediscovering the Triune Center then makes a significant contribution to discussions in contemporary theology while itself setting out to honor the life and work of an eminent theologian who did so much for evangelical theology C.S. Lewis—On the Christ of a Religious Economy, 3.2 P. H. Brazier, 2014-01-16 C S Lewis On the Christ of a Religious Economy II Knowing Salvation opens with a discussion of the Anscombe Lewis debate the theological issues relating to revelation and reason Christ the Logos This leads into Lewis on the Church the body of Christ and his understanding of religion how is salvation enacted through the churches how do we know we are saved This concludes with for Lewis the question of sufferance and atonement substitution and election deliverance and redemption heaven hell resurrection and eternity Christ s work of salvation on the cross What did Lewis say of humanity in relation to God now Immanuel God with us incarnate crucified resurrected and ascended for humanity What of Lewis s own death and that of his wife What does this tell us about the triune God of Love who is Love This volume forms the second part of the third book in a series of studies on the theology of C S Lewis titled C S Lewis Revelation and the Christ The books are written for academics and students but also crucially for those people ordinary Christians without a theology degree who enjoy and gain sustenance from reading Lewis s work www.cslewisandthechrist.net

Liturgy, Theurgy, and Active Participation Kjetil Kringlebotten, 2023-09-08 Providing a metaphysical grounding for liturgical participation this book argues that active participation in the liturgy must be understood principally as our participation in God s act particularly in the act of Christ and only secondarily as our ritual involvement Utilizing Neoplatonist philosophy Kjetil Kringlebotten proposes that this should be understood in terms of theurgy which is the human participation in divine action which finds its consummation in the incarnation of Christ Without the incarnation all acts will remain extrinsic and imposed but acts can become real and intrinsic precisely because the incarnation makes possible true union with the divine a metaphysical union in distinction without confusion because this union is not extrinsic Through union with Christ as the one common focus of the divine human relation we can have true union with God and may offer true worship In order to make sense of active participation then we need to understand theology in theurgic terms where theurgy

is understood not as a mechanical coercion of God but as a participation in His act in creation and through Christ as the true theurgist the master theurgist Whose work transforms our act and the liturgy Trinitarian Grace and Participation Geordie W. Ziegler, 2017-02-01 Geordie W Ziegler offers an exploration of the concept of grace in the thought of T F Torrance and what it means for understanding the Christian life as participation in Christ s ongoing humanity He clarifies Torrance s claim that Christ s vicarious humanity intensifies rather than lessens the necessity of human response to God in sacrificial and Christ like service Specifically Ziegler demonstrates the centrality of Torrance s concept of grace across the dogmatic spectrum and argues that grace for Torrance is a downward twofold movement from and to the Father through the Son in the Spirit This understanding of grace distinctly defines the Christian life as the gift of sharing in the Son s relation with the Father through the Spirit This project is distinct in that it articulates a Trinitarian approach to grace which spans the entire dogmatic spectrum Part One considers grace as a movement of the Trinity expressed in the economy of salvation Part Two applies this understanding of grace to the human person It traces the way in which human beings through the Holy Spirit participate in Christ s Sonship within the three concentric levels of anthropology ecclesiology and personal formation in Christ
