behavior in corporations classrooms and individuals Using dozens of fascinating real life examples Elizabeth Svoboda  
explains how our genes compel us to do good for others how going through suffering is linked to altruism and how acting  
heroic can greatly improve your mental health She also reveals the concrete things we can do to encourage our most heroic  
selves to step forward It's a common misconception that heroes are heroic just because they're innately predisposed to be  
that way Svoboda shows why it's not simply a matter of biological hardwiring and how anyone can be a hero if they're
