Monumental Names Galina Oustanova-Stjepanovic,2022-12-30 What stands behind the propensity to remember victims of mass atrocities by their personal names Grounded in ethnographic and archival research with Last Address and Memorial one of the oldest independent archives of Soviet political repressions in Moscow and a winner of the Nobel Peace Prize the book examines a version of archival activism that is centred on various practices of documentation and commemoration of many dead victims of historical violence in Russia to understand what kind of historicity is produced when a single name is added to an endless list What do acts of accumulation of names of the dead affirm when they are concretised in monuments and performance events The key premise is that multimodal inscriptions of names of the dead entail a political aesthetic and conceptual movement between singularity and multitude that honours each dead name yet conveys the scale of a mass atrocity without reducing it to a number Drawing on anthropology history philosophy and aesthetic theory the book yields a new perspective on the politics of archival and historical justice while it critically engages with the debates on relations and distinctions between names and numbers of the dead monumental art and its political effects law and history image and text the specific one and the infinite many *Names of the Dead* Stewart O'Nan,1996 *Cult of the Dead* Kyle Smith,2024-10 A cultural history of how Christianity was born from its martyrs Though it promises eternal life Christianity was forged in death Christianity is built upon the legacies of the apostles and martyrs who chose to die rather than renounce the name of their lord In this innovative cultural history Kyle Smith shows how a devotion to death has shaped Christianity for two thousand years For centuries Christians have cared for their saints curating their deaths as examples of holiness Martyrs stories lurid legends of torture have been told and retold translated and rewritten Martyrs bones are alive in the world relics pulsing with

Remembering the Dead Sentus Francis Dikwe, 2020-01-07 Remembering the dead is a topic which connects various cultures and traditions The reception of the African tradition of ancestorship is a theological enrichment in the ecumenical discussions all over the world In our time the exchange of gifts plays a great role in promoting unity of the Churches Especially the concepts of African theology with the incomparable special position of Jesus Christ as proto ancestor are important for the interconfessional dialogues The veneration of the ancestors in Africa can be a help to begin ecumenical discussions in this regional context on the question of the veneration of the saints According to African tradition the ancestors also have influence on the process of purification Therefore the veneration of the ancestors contributes to providing answers to the ecumenical controversies about the understanding of the eschatological purification

Sentus Francis Dikwe SDS born in 1980 in Morogoro Tanzania ordained priest of the Salvatorian Congregation He attained doctorate in theology 2020 in Munster Germany

The Remembered Dead Sally Minogue, Andrew Palmer, 2018-05-31 The Remembered Dead explores the ways poets of the First World War and later poets writing in the memory of that war address the difficult question of how to remember and commemorate those killed in conflict It looks closely at the way poets struggled to meaningfully represent dying death and the trauma of witness while responding to the pressing need for commemoration The authors pay close attention to specific poems while maintaining a strong awareness of literary and philosophical contexts The poems are discussed in relation to modernism and myth other forms of commemoration such as photographs and memorials and theories of cultural memory There is fresh analysis of canonical poets which at the same time challenges the confines of the canon by integrating discussion of lesser known figures including non combatants and poets of later decades The final chapter reaches beyond the war's centenary in a discussion of one remarkable commemoration of Wilfred Owen

Living with the Dead J. Jeremy Wisniewski, 2023-04-14 This book explores the moral

place of the dead in our lives and in our afterlives It argues that our lives are saturated by the past intentions and values of the dead and that we offer the dead a form of modest immortality by fulfilling our obligations to remember them In the first part of the book the author examines the scope and limits of our obligations to the dead Our obligations to respect the wishes of the dead are more substantial than commonly acknowledged but they can be overridden in a range of cases when they conflict with the vital interests of the living such as in organ donation and wealth inheritance By contrast the author contends that the obligation to remember at least collectively cannot be completely overridden In the second part of the book the author argues that tradition offers the dead a form of modest immortality the dead live on insofar as we enact those intentional states with which they most identified He draws on the Confucian view of ritual to argue that ritual absorption reincarnates the dead in the actions of the living Finally the author defends a Jamesian account of a pluralistic self that is consistent with the view that we have obligations to the individual dead and that the selves of the dead are pragmatic constructions Living with the Dead will appeal to scholars and students interested in the philosophy of death ethics and cross cultural philosophy **The Golden Bough** Sir James George Frazer,1911 **An Everlasting Name** Maoz Azaryahu,2021-03-08

The ever growing interest in cultural memory has generated an impressive body of academic literature on public commemoration but not enough attention has been paid until now to the power and appeal of names to transcend death This book is the first to investigate onymic commemoration as a technology of immortality Bringing together issues as diverse as casualty lists on public display and honorific street names the inquiry expands on the commemorative capacity of an everlasting name as a site of remembrance It explores how notions about names being fame and an afterlife have coalesced into prestigious and time honored commemorative practices and traditions that demonstrate the cultural power of an everlasting name to confer immortality through remembrance By linking ancient traditions and modern practices this book offers a cross cultural analysis of onymic commemoration that is broad in scope and covers a wide time frame encompassing diverse historical periods cultural contexts and geopolitical settings *Public Places* Carl T. Hyden,Theodore F. Sheckels,2016-01-14 This book rhetorically and historically examines the contextual and experiential dimensions of a wide range of public places from memorials to stadiums that are rife with political implications Fourteen public places ranging from the national to local from 9 11 memorials to a baseball park are analyzed The authors investigate the histories of these public spaces examine their designs and discuss their political implications in order to outline their role within the public sphere This book begins with a loose theoretical framework for understanding public places as rhetorically drawn from extant scholarship and concludes with a systematic means of exploring the allocation of power by public places
