Names Words And Graves Early Medieval Settlement:

Names, words, and graves, 1979 Names, Words, and Graves University of Leeds, 1979 *Early Medieval Settlements* Helena Hamerow, 2004 This is an overview and synthesis of the extensive and rapidly growing body of archaeological evidence for early medieval buildings settlements farming craft production and trade among the rural communities of north west Europe **Social Identity in Early Medieval Britain** William O. Frazer, Andrew Tyrell, 2001-01-01 Social identity is a concept of increasing importance in the social sciences Here the concept is applied to the often atheoretical realm of medieval studies Each contributor focuses on a particular topic of early medieval identity ethnicity national identity social location subjectivity personhood political organization kinship the body gender age proximity regionality memory and ideological systems The result is a pioneering vision of medieval social identity and a challenge to some of the received general wisdoms about this period **Names, Words, and Graves** University of Leeds, 1979

Local, regional and ethnic identities in early medieval cemeteries in Bavaria (Premio Ottone d'Assia e Riccardo Francovich 2008) Susanne Hakenbeck, 2011-03-01 Tema conduttore dell'opera lo studio dell'etnicità altomedievale condotto attraverso l'analisi di un gruppo di cimiteri nella pianura alluvionale di Monaco di Baviera e l'esame dello sviluppo della pratica funeraria in un periodo che va dal V al VII secolo d.C. Iniziate come un atto ibrido di pratiche tardo romane e barbariche quando nel secolo successivo le comunità politiche tribali si consolidarono le modalità di sepoltura presero le distanze dalle loro origini romane divenendo apertamente barbare Lo studio delle sepolture diviene per l'Autore un pretesto per una più ampia riflessione sul concetto di identità e sui rapporti fra cultura materiale ed etnia Contiene il riassunto del volume in italiano *Cemeteries and Society in Merovingian Gaul* Guy Halsall, 2010 Bundeling van de zeven belangrijkste essays over de sociale interpretatie van de Merovingische begraafplaatsen archeologie **The Barbarian Conversion** Richard A. Fletcher, 1999 An investigation of the process by which large parts of Europe accepted the Christian faith between the fourth and the fourteenth centuries and of some of the cultural consequences that flowed therefrom In a work of splendid scholarship that reflects both a firm mastery of difficult sources and a keen intuition one of Britain's foremost medievalists tells the story of the Christianization of Europe It is a very large story for conversion encompassed much more than religious belief With it came enormous cultural change Latin literacy and books Roman notions of law and property and the concept of town life as well as new tastes in food drink and dress Whether from faith or by force from self interest or by revelation conversion had an immense impact that is with us even today **Culture and Religion in Merovingian Gaul, A.D. 481-751** Yitzhak Hen, 2023-09-29 Although often depicted as a barbaric and uncivilised society in the full pejorative meaning of these words Merovingian Gaul was clearly a Christian society and a direct continuation of the Roman civilisation in terms of social standards morals and culture Using insights provided by social history archaeology palaeography and anthropology this book studies the problem of Christianisation in early Medieval Gaul from a cultural point of view While exploiting a huge

range of primary and secondary material Dr Hen does not confine himself to a functional analysis of various cultural and religious activities in Merovingian Gaul but goes on to assess the consequences and implications of such activities for the people themselves and for the subsequent developments in the Carolingian period

Worcestershire Anglo-Saxon Charter Bounds Della Hooke, 1990 The county of Worcestershire finally formed before the Conquest around the burh of Worcester is exceptionally rich in charter material The charters contain an unusual amount of valuable topographical detail in descriptions of location in comments on the appurtenances of an estate and especially within the boundary clauses which accompany many of the grants or leases From this very full body of texts Dr Hooke has been able to identify features which have enabled her to reconstruct the landscape of Anglo Saxon Worcestershire to a remarkable degree Della Hooke is widely known for her pioneer work on Anglo Saxon charters through which she has been able to reconstruct the Worcestershire landscape as it was almost a thousand years ago The county part of the Anglo Saxon kingdom of the Hwicce responds particularly well to her techniques It is exceptionally rich in Anglo Saxon charters and the physical features of the county which has remained largely agricultural are relatively easy to identify Careful study of the charter evidence throws light on the history of settlement and land use and shows that many features of the medieval county for instance the rich arable lands of the Vale of Evesham and the wooded landscapes of Malvern and Wyre were already present in Anglo Saxon Worcestershire The book presents all the topographical detail in the charters together with all the estate boundaries each charter is individually mapped and the charter's landmarks located The result is the first such study for any county providing valuable and readily available data for historians and students of land use DELLA HOOKE is Research Fellow in the School of Geography University of Birmingham She is a council member of the Council for Name Studies in Great Britain and Ireland and of the English Place Name Society and editor of *Landscape History* the journal of the Society for Landscape Studies Her published work relates to her long standing interest in the use of Anglo Saxon charters to trace the evolution of regional landscape
