Naming Of Names The Search For Order In The World Of Plants:

The Naming of Names Anna Pavord, 2005-11-29 Presents the history of how plants were grouped ordered and named for both pharmaceutical and practical purposes to make sense of the natural world **Plants, People and Practices** Jay Sanderson, 2017-05-18 Article 14 Protection Independent of Measures Regulating Production Certification and Marketing

Shakespeare's Plants and Gardens: A Dictionary Vivian Thomas, Nicki Faircloth, 2014-02-27 Shakespeare lived when knowledge of plants and their uses was a given but also at a time of unique interest in plants and gardens His lifetime saw the beginning of scientific interest in plants the first large scale plant introductions from outside the country since Roman times and the beginning of gardening as a leisure activity Shakespeare's works show that he engaged with this new world to illuminate so many facets of his plays and poems This dictionary offers a complete companion to Shakespeare's references to landscape plants and gardens including both formal and rural settings It covers plants and flowers gardening terms and the activities that Shakespeare included within both cultivated and uncultivated landscapes as well as encompassing garden imagery in relation to politics the state and personal lives Each alphabetical entry offers a definition and overview of the term discussed in its historical context followed by a guided tour of its use in Shakespeare's works and finally an extensive bibliography including primary and secondary sources books and articles **The Automaton in English Renaissance**

Literature Wendy Beth Hyman, 2016-03-23 The Automaton in English Renaissance Literature features original essays exploring the automaton from animated statue to anthropomorphized machine in the poetry prose and drama of England in the 16th and 17th centuries Addressing the history and significance of the living machine in early modern literature the collection places literary automata of the period within their larger aesthetic historical philosophical and scientific contexts While no single theory or perspective conscribes the volume taken as a whole the collection helps correct an assumption that frequently emerges from a post Enlightenment perspective that these animated beings are by definition exemplars of the new science or that they point necessarily to man's triumphant relationship to technology On the contrary automata in the sixteenth and seventeenth centuries seem only partly and sporadically to function as embodiments of an emerging mechanistic or materialist worldview Renaissance automata were just as likely not to confirm for viewers a hypothesis about the man machine Instead these essays show automata were often a source of wonder suggestive of magic proof of the uncannily animating effect of poetry indeed just as likely to unsettle the divide between man and divinity as that between man and matter Names and Naming in Early Modern Germany Marjorie Elizabeth Plummer, Joel F.

Harrington, 2019-06-01 Throughout the many political and social upheavals of the early modern era names were words to conjure by articulating significant historical trends and helping individuals and societies make sense of often dramatic periods of change Centered on onomastics the study of names in the German speaking lands this volume gathering leading scholars across multiple disciplines explores the dynamics and impact of naming and renaming processes in a variety of

contexts social artistic literary theological and scientific in order to enhance our understanding of individual and collective experiences The Western Herbal Tradition Graeme Tobyn, Alison Denham, Midge Whitelegg, 2016-02-21 Presenting a valuable new angle for your phytotherapy practice this book traces the uses of 27 vital plants through 2000 years of history From Dioscorides and Trotula to the great Renaissance folios and up to present day this book demonstrates how traditional usage can be transmuted into your current practice The Western Herbal Tradition E-Book Graeme Tobyn, Alison Denham, Margaret Whitelegg, 2010-11-12 The Western Herbal Tradition provides a comprehensive and critical exploration of the use of plant medicines through 2000 years of history from Dioscorides to the present day It follows each of the 27 herbs through a wide range of key sources from European Arabic and American traditions including Greek Roman and Renaissance texts A rich discussion of the historical texts is balanced with current application and research The herbs have been selected on the basis of common use by practising herbalists Each illustrated monograph contains Species identification and botanical description A study of the characterisation and medicinal use of the plants consistently drawn from featured herbals which includes the authors own translations from the Latin Assessment of past and current texts in the transmission of herbal knowledge Consideration of traditional therapeutics including humoral and physiomedical approaches Suggestions towards a modern experiential approach through Goethean methodology Current evidence on pharmacological constituents Review of evidence on safety Recommendations for internal and external uses prescribing and dosage Excellent illustrations accompany each monograph to aid learning First book to cover broader historical perspective and discussions of issues surrounding each herb Written by leading experts who are well known in the field Includes some monographs of which there is little material already available The bibliographic evidence provided could support applications for registration of Herbal Medicinal Products under the provisions of the Traditional Herbal Medicinal Product Directive An excellent valuable resource for everyone interested in herbal medicine Reading Green in Early Modern England Leah Knight, 2016-04-08 Green in early modern England did not mean what it does today but what did it mean Unveiling various versions and interpretations of green this book offers a cultural history of a color that illuminates the distinctive valences greenness possessed in early modern culture While treating green as a panacea for anything from sore eyes to sick minds early moderns also perceived verdure as responsive to their verse sympathetic to their sufferings and endowed with surprising powers of animation Author Leah Knight explores the physical and figurative potentials of green as they were understood in Renaissance England including some that foreshadow our paradoxical dependence on and sacrifice of the green world Ranging across contexts from early modern optics and olfaction to horticulture and herbal health care this study explores a host of human encounters with the green world both the impressions we make upon it and those it leaves with us The first two chapters consider the value placed on two ways of taking green into early modern bodies and minds by seeing it and breathing it in while the next two address the manipulation of greenery by Orphic poets and medicinal herbalists as well as grafters and graffiti artists A

final chapter suggests that early modern modes of treating green wounds might point toward a new kind of intertextual ecology of reading and writing Reading Green in Early Modern England mines many pages from the period not literally but tropically metaphorically green that cultivate a variety of unexpected meanings of green and the atmosphere and powers it exuded in the early modern world *Earth Magick* Cheralyn Darcey,2025-09-03 A beautiful treasury of nature based spells from a popular expert this guide explores the healing power of flowers herbs and trees Explore the magical qualities and healing power of plants with this beautiful collection of spells Plants have the ability to heal comfort and nourish and hold ancient energies that have been used to create magic spells throughout time Tap into this magical power to facilitate change and find the support and inspiration you seek In addition to spells for everything from protection love and relationships to self care and modern life the collection also features guidance on spellcasting and spell crafting including how to write and cast your own spells

Descriptions, Translations and the Caribbean Rosanna Masiola,Renato Tomei,2016-10-12 This book offers a new perspective on the role played by colonial descriptions and translation of Caribbean plants in representations of Caribbean culture Through thorough examination of Caribbean phytonyms in lexicography colonization history songs and translation studies the authors argue that the Westernisation of vernacular phytonyms while systematizing the nomenclature blurred and erased the cultural tradition of Caribbean plants and medicinal herbs Means of transmission and preservation of this oral culture was in the plantation songs and herb vendor songs Musical creativity is a powerful form of resistance as in the case of Reggae music and the rise of Rastafarians and Bob Marley s untranslatable lyrics This book will be of interest to scholars of Caribbean studies and to linguists interested in pushing the current Eurocentric boundaries of translation studies

Animals, Plants and Afterimages Valérie Bienvenue,Nicholas Chare,2022-03-11 The sixth mass extinction or Anthropocene extinction is one of the most pervasive issues of our time Animals Plants and Afterimages brings together leading scholars in the humanities and life sciences to explore how extinct species are represented in art and visual culture with a special emphasis on museums Engaging with celebrated cases of vanished species such as the quagga and the thylacine as well as less well known examples of animals and plants these essays explore how representations of recent and ancient extinctions help advance scientific understanding and speak to contemporary ecological and environmental concerns

Huntia ,2005 **Retailing and the Language of Goods, 1550-1820** Nancy Cox,2016-03-03 In this book the author explores the various meanings assigned to goods sold retail from 1550 to 1820 and how their labels were understood The first half of the book focuses on these labels and on mercantile language more broadly how it was used in trade and how lexicographers and others approached what for them were new vocabularies In the second half the author turns to the goods themselves and their relationships with terms such as luxury choice and love terms that were used as descriptors in marketing goods The language of objects is a subject of ongoing interest and the study of consumables opens up new ways of looking at the everyday language of the early modern period as well as the experiences of trade and consumption for both
