Explorers Robin Hanbury-Tenison, 2018-10-16 Penetrating biographies written by a group of distinguished travel writers, broadcasters and historians reveal the lives, motives and passions of forty major explorers in history. It has always been mankind's gift or curse to be inquisitive and through the ages people have been driven to explore the limits of the worlds known to them and beyond. Here are the stories of forty of the world's greatest explorers from Europe, America, Asia and Australia. These are men and women who changed our perception of the world through their courageous adventures. Organized thematically, the book opens with the oceanic journeys of five hundred years ago when the great era of recorded exploration began. The following sections look at The Land, Rivers, Polar Ice, Deserts, Life on Earth and New Frontiers. Many of these explorers recounted their journeys in vivid firsthand accounts; others were superb artists or photographers. The book features quotes from their journals and reports and is illustrated with paintings, photographs, engravings and maps so that we can experience their adventures through their own eyes and in their own words. Featured explorers include Christopher Columbus, Vasco da Gama, James Cook, Lewis and Clark, Richard Burton, Samuel de Champlain, David Livingstone, Roald Amundsen, Gertrude Bell, Alexander von Humboldt, Yuri Gagarin and Jacques Yves Cousteau. **A World Explorer: Fridtjof Nansen** Erick Berry, 1969 A biography of a Norwegian explorer, author, scientist and statesman who made many important expeditions to the North Pole. **Nansen** Anna Gertrude Hall, 1965 Biography of arctic explorer and Norwegian statesman Fridtjof Nansen. *Farthest North* Fridtjof Nansen, 2000-05-12 In 1893 Nansen set sail in the Fram, a ship specially designed and built to be frozen into the polar ice cap, withstand its crushing pressures and travel with the sea's drift closer to the North Pole than anyone had ever gone before. Experts said such a ship couldn't be built and that the voyage was tantamount to suicide. This brilliant first person account, originally published in 1897, marks the beginning of the modern age of exploration. Nansen vividly describes the dangerous voyage and his 15 month long dash to the North Pole by sledge. An unforgettable tale and a must read for any armchair explorer. Explorers and Exploration, 2005 Covers the history of exploration from ancient times. **Skiing Heritage Journal**, 2004-03 Skiing Heritage is a quarterly Journal of original, entertaining and informative feature articles on skiing history. Published by the International Skiing History Association, its contents support ISHA's mission to preserve skiing history and to increase awareness of the sport's heritage. **Explorers** DK, 2010-09-20 From the first people to leave Africa to the first to leave the planet, the urge to explore the unknown has driven human progress. *Explorers* tells the story of humanity's explorations, taking the reader into the lives of some of the most intrepid people ever known. Throughout history, exploration has arisen from a wide range of impulses: from trade and the search for lands to colonize, to scientific curiosity and missionary zeal. This book tells the story of explorers of every type, from those chasing glory to those seeking enlightenment. In its pages, readers will meet some of history's most famous trail blazers, people whose courage opened frontiers, turned voids into maps, forged nations, connected cultures and added to humankind's knowledge of the world by leaps and bounds. Each life is captured in context by considering the knowledge of the world in

which the explorers lived the factors that gave rise to their expeditions and the technology available to them at the time Their discoveries and the consequences are also considered in depth and highlighted with beautiful maps photographs and illustrations The tales of the explorers assistants and companions are woven into the overall story along with an examination of the qualities that made them drop everything in pursuit of discovery *"The" Academy*, 1896 **The Explorer's Eye** Annabel Merullo, Fergus Fleming, 2009-03-12 The golden moments of exploration and adventure glorious triumphant perilous and dramatic In the 18th century exploration entered a new dimension explorers were motivated by scientific inquiry rather than greed To this end they were expected to make a full record of everything they encountered and for the first time in history that record was to include pictures as well as words Combining gripping first hand accounts with original images **THE EXPLORER'S EYE** gives an insight into who these people were and what they saw They were a mixed bunch but whatever their training or background they provided a vivid portrait of the unknown In the early days they drew their own pictures later they were equipped with draughtsmen later still they carried cameras and ultimately they were accompanied by film crews The power of their images is matched by that of their journals Here you have Alexander von Humboldt braving the electric eels of South America and Robert Peary explaining his relationships with Eskimos **The Sea in World History** Stephen K. Stein, 2017-04-24 This two volume set documents the essential role of the sea and maritime activity across history from travel and food production to commerce and conquest In all eras water transport has served as the cheapest and most efficient means of moving cargo and people over any significant distance Only relatively recently have railroads and aircraft provided an alternative Most of the world's bulk goods continue to travel primarily by ship over water Even today 95 percent of the cargo that enters and leaves the United States does so by ship Similarly people around the world rely on the sea for food and in recent years the sea has become an important source of oil and other resources with the longterm effects of our continuing efforts to extract resources from the sea further highlighting environmental concerns that range from pollution to the exhaustion of fish stocks This chronologically organized two volume reference addresses the history of the sea beginning with ancient civilizations 4000 to 1000 BCE and ending with the modern era 1945 to the present day Each of the eight chapters is further broken down into sections that focus on specific nations or regions offering detailed descriptions of that area of the world and shorter entries on specific topics individuals and events The book spans maritime history covering major seafaring peoples and nations famous explorers travelers and commanders events battles and wars key technologies including famous ships important processes and ongoing events such as piracy and the slave trade and more Readers will benefit from dozens of primary source documents ranging from ancient Egyptian tales of seafaring to texts by renowned travelers like Marco Polo Zheng He and Ibn Battuta that provide firsthand accounts from the age of discovery as well as accounts of battle from World War I and II and more modern accounts of the sea *A Stand Against Tyranny* Maynard M.
