Napoleon And Hitler:

Napoleon and Hitler Desmond Seward, 1988 How British Intelligence Plotted to Read Hitler's Mind James Parris, 2021-06-01 In the darkest days of the Second World War as Europe fell under Nazi domination and Britain faced invasion Louis de Wohl a 36 year old refugee from Germany made a curious offer to British Intelligence Based on the widely held belief that Hitler's every action was guided by his horoscope de Wohl claimed he could reveal precisely what advice the Führer's astrologers were giving him Rather than dismissing de Wohl out of hand as a crank senior intelligence officers and chiefs of staff of the three armed services took him at his word De Wohl was made an army captain and quartered in the Grosvenor House Hotel from where his one man Psychological Research Bureau passed astrological readings and assessments to the War Office before his deployment to the United States by the highly secret Special Operations Executive on a propaganda mission Was it possible that Military and Naval intelligence officers could take the ancient and arcane practice of astrology seriously Was de Wohl genuine or merely a charlatan Did his astrological readings contribute to the downfall of Hitler and Nazi Germany In *How British Intelligence Plotted to Read Hitler's Mind* the first fulllength study of Louis de Wohl James Parris examines the evidence including material from MI5 Military and Naval Intelligence files at the National Archives and reaches remarkable conclusions about this bizarre aspect of the Second World War

Rethinking History, Dictatorship and War Claus-Christian Szejnmann,2011-11-03 The main focus of this book is to analyse and explain rather than merely narrate developments of modern war The volume will present up to date and genuinely original scholarship that has not been previously published This collection deals with three of the most important themes of historical studies the way history is or ought to be written the nature of dictatorships and the nature of wars The primary focus is on modern Europe and two defining experiences in the first half of the twentieth century namely the First and Second World Wars and totalitarian dictatorships Both remain issues of intense debates and with ever widening ramifications It provides a unique overview of the current state of research on three important themes that are of great interest to scholars and students Each essay and a substantial introduction summarises complex findings approaching the topic from a variety of perspectives 19th

and 20th century history national and regional history comparative history cartography and biographical intellectual structural social and military history thus challenging traditional interpretations and methodologies and addressing unresolved questions The book brings together a mix of established and younger experts thinking critically about these major themes and writing accessible and stimulating pieces that challenge existing interpretations and suggest ways the subjects are changing The contributors tackle big issues and dare to come up with bold explanations

Essays in Biography Carl Rollyson, 2005 *Essays in Biography* is a play on words conveying Carl Rollyson's attempt to explore the nature of biography in pieces about the history of the genre and in portrayals of biographers Plutarch Leon Edel and W A Swanberg literary figures Lillian Hellman Jack London philosophers and critics Leo Strauss and Hippolyte Taine political figures Winston Churchill and Napoleon and artists Rembrandt and Rubens An essay in biography Rollyson argues is an effort to comprehend a life that is inherently incomplete and subject to revision Many of the facts about a biographical subject's life that are blandly presented in reference books have been discovered by biographers at great cost to their reputations With the history of biography as a censored genre in mind he encourages readers of biography to look critically at the biographies they read no matter whether those biographies are book length narratives or short encyclopedia entries Many of the pairings in *Essays in Biography* are meant to evoke Plutarch's presentation of parallel lives The biographical essay Rollyson concludes is a unique form of knowledge one that modern critics have devalued by trying to separate the creator from his creation
