# Napoleon And The British

**John Goldworth Alger**

## **Napoleon And The British:**

*Napoleon and British Song, 1797-1822* Oskar Cox Jensen, 2015-10-12 This study offers a radical reassessment of a crucial period of political and cultural history By looking at some 400 songs many of which are made available to hear and at their writers singers and audiences it questions both our relationship with song and ordinary Britons relationship with Napoleon the war and the idea of Britain itself *Napoleon's British Visitors and Captives, 1801-1815* John Goldworth Alger, 1904

**Fighting the British** Bernard Wilkin, René Wilkin, 2018-01-30 A fascinating look at the Napoleonic Wars from French soldiers and officers points of view based on hundreds of their letters memoirs and reports The British army during the Napoleonic Wars is often studied using English sources and the British view of their French opponents has been covered in exhaustive detail However the French view of the British has been less often studied and is frequently misunderstood This book based on hundreds of letters memoirs and reports of French officers and soldiers of the Napoleonic armies adds to the existing literature by exploring the British army from the French side of the battle line Each chapter looks at a specific campaign involving the French and the British Extensive quotes from the French soldiers who were there are complemented by detailed notes describing the context of the war and the career of the eyewitness Throughout the emphasis is on the voices of the lower ranks the conscripts and the noncommissioned and junior officers They describe in their own words the full range of warfare during the period not only land battles but battles at sea including the Nile and Trafalgar and accounts of captivity in England are covered This original and revealing material gives a fascinating insight into the attitudes and concerns of the French soldiers of the period and their views about their British enemy **Napoleon's British Visitors and Captives, 1801-1815** John Goldworth Alger, 2025-03-29 Napoleon s British Visitors and Captives 1801 1815 by John Goldworth Alger offers a fascinating glimpse into the complex relationship between Britain and France during the Napoleonic Era This historical account explores the experiences of British citizens who found themselves in France whether by choice or circumstance during a period of intense conflict and shifting Anglo French relations Based on meticulous research Alger s work sheds light on the lives of prisoners of war and other British subjects caught within Napoleon s reach It examines their challenges adaptations and interactions with French society This volume presents a detailed portrait of a unique historical moment in the 19th century revealing the personal stories behind the grand sweep of history A valuable resource for anyone interested in European history the Napoleonic Wars and the lives of Britons abroad This work has been selected by scholars as being culturally important and is part of the knowledge base of civilization as we know it This work is in the public domain in the United States of America and possibly other nations Within the United States you may freely copy and distribute this work as no entity individual or corporate has a copyright on the body of the work Scholars believe and we concur that this work is important enough to be preserved reproduced and made generally available to the public We appreciate your support of the preservation process and thank you for being an important part of keeping this knowledge

alive and relevant      **Resisting Napoleon** Mark Philp, 2016-12-05 The long war with Revolutionary France had a fundamental impact on British political culture The most dramatic example of this is the mass mobilisation of the British people in response to French invasion threats throughout the last years of the century but most spectacularly in the period 1803-5 after the collapse of the Peace of Amiens and the massing of an invasion fleet by Napoleon The preparations for the threatened invasion had many dimensions including military and naval mobilization the development of defensive earthworks and fortifications on the British Coast the surveillance and monitoring of radicals identified with the French cause the incitement of loyalist sentiment through caricature newspapers tracts and broadsides and loyalist songs and the construction of Napoleon as the prime enemy of British interests Although aspects of these issues have been studied this book is the first time that they have been brought together systematically By bringing together historians of Britain and France to examine the dynamics of the military conflict between the two nations in this period this book measures its impact on their domestic political cultures and its effect on their perceptions of each other In so doing it will encourage scholars to further examine aspects of popular mobilisation which have hitherto been largely ignored such as the resurgence of loyalism in 1803 and to see their contributions in the light of the dual contexts of domestic political conflict and their war with each other By allowing scholars to focus their attention on this period of heightened tension the book contributes both new detail to our understanding of the period and a better overall understanding of the complex place which each nation came to occupy in the consciousness of the other      Napoleon in British Culture James Gregory, 2024-12-12 This book studies British cultural engagement with Napoleon Bonaparte from his 1815 surrender and time in British custody until the return of his remains to France in 1840 Adopting a chronological approach James Gregory studies the British use of Bonaparte in various spheres covering political dramatic literary and visual culture and popular entertainment over a 25 year period Gregory acknowledges not only canonical literary treatments but also appearances of the figure in novels anecdotes travelling shows and private collections in order to analyse contemporary fascination with Napoleon Centring on key themes such as responses to Napoleon's presence on British territory and later reactions to his death Gregory also takes into account the influence of factors such as geography and gender in order to craft a comprehensive picture of cultural engagement with Napoleon in the period 1815-40 Covering factors including the role of commemoration the impact of Peterloo and Queen Caroline's death and the rise of Romanticism this book demonstrates how truly pervasive the myth of Napoleon became in 19th century Britain      The British Army Against Napoleon Robert Burnham, Ron McGuigan, 2010-08-09 Despite the bewildering number of tomes devoted to the Napoleonic wars much basic data has been hitherto unavailable to anyone other than the most ardent scholars McGuigan and Burnham have collected a tremendous treasure trove of information in a readily accessible form Other books may tell you how many regiments were sent on the expedition to Hanover in 1805 but *The British Army against Napoleon* will tell you where every single regiment in the British army was stationed who were their

honorary colonels and give you a list of all the barracks in Britain with the number of men they were designed to hold Where else will you find not just the pay of different ranked officers but the amount of income tax they paid as well as all the other deductions and stoppages that reduced their actual receipts to a fraction of their nominal and generally quite low pay Or pension charts for widows There are tables that list all the recipients of the honours and awards issued casualties in action and disease seniority of officers of the numerous expeditions and campaigns a matter not just of curiosity but of major significance for the date of rank of an officer determined who commanded the force and all of its sub units The material in these tables has been collected from countless primary sources and official publications such as the Army List London Gazette Wellington s Dispatches regimental histories artillery manuals and handbooks *Napoleon and the British* Stuart Semmel,2004 What did Napoleon Bonaparte mean to the British people This engaging book reconstructs the role that the French leader played in the British political cultural and religious imagination in the early nineteenth century Denounced by many as a tyrant or monster Napoleon nevertheless had sympathizers in Britain Stuart Semmel explores the ways in which the British used Napoleon to think about their own history identity and destiny Many attacked Napoleon but worried that the British national character might not be adequate for the task of defeating him Others radicals and reformers used the Napoleonic example to criticize the British constitution After his surrender to British forces the imperial captive was portrayed by some as an Everyman whose treatment at the hands of authorities served as a test of the liberties of the British people themselves Semmel mines a wide array of sources from political pamphlets and astrological almanacs to caricatures and sonnets The book uncovers a host of neglected journalists and pamphleteers casts canonical Romantic writers in a new light and reveals surprising corners of late Hanoverian politics and culture **BOOK JACKET** **Napoleon in British Culture** James Gregory,2024-12-12 This book studies British cultural engagement with Napoleon Bonaparte from his 1815 surrender and time in British custody until the return of his remains to France in 1840 Adopting a chronological approach James Gregory studies the British use of Bonaparte in various spheres covering political dramatic literary and visual culture and popular entertainment over a 25 year period Gregory acknowledges not only canonical literary treatments but also appearances of the figure in novels anecdotes travelling shows and private collections in order to analyse contemporary fascination with Napoleon Centring on key themes such as responses to Napoleon s presence on British territory and later reactions to his death Gregory also takes into account the influence of factors such as geography and gender in order to craft a comprehensive picture of cultural engagement with Napoleon in the period 1815 40 Covering factors including the role of commemoration the impact of Peterloo and Queen Caroline s death and the rise of Romanticism this book demonstrates how truly pervasive the myth of Napoleon became in 19th century Britain British Strategy in the Napoleonic War, 1803-15 Christopher David Hall,1992 Collects together the best articles by key historians literary critics and anthropologists on the cultures of colonialism in the British Empire in the nineteenth and twentieth centuries A substantial introduction by the

distinguished historian Professor Catherine Hall discusses new approaches to the history of empire and establishes a narrative frame through which to read the essays which follow The volume is clearly divided into three sections theoretical emphasising concepts and approaches the colonisers at home focusing on how empire was lived in Britain and away the attempt to construct new cultures through which the colonisers defined themselves and others in varied colonial sites A useful guide to recent scholarship on the culture of imperialism

**Napoleon's British Visitors and Captives, 1801-1815**  
 John Goldworth Alger, 1904      *Napoleon and British Song, 1797-1822* Oskar Cox Jensen, 2015-10-12 This study offers a radical reassessment of a crucial period of political and cultural history By looking at some 400 songs many of which are made available to hear and at their writers singers and audiences it questions both our relationship with song and ordinary Britons relationship with Napoleon the war and the idea of Britain itself

*Britain and the Defeat of Napoleon, 1807-1815*  
 Rory Muir, 1996 This account of the final years of Britain's long war against Revolutionary and Napoleonic France places the conflict in a new and wholly modern perspective Rory Muir looks beyond the purely military aspects of the struggle to show how the entire British nation played a part in the victory His book provides a total assessment of how politicians the press the crown civilians soldiers and commanders together defeated France Beginning in 1807 when all of continental Europe was under Napoleon's control the author traces the course of the war throughout the Spanish uprising of 1808 the campaigns of the Duke of Wellington and Sir John Moore in Portugal and Spain and the crossing of the Pyrenees by the British army to the invasion of southern France and the defeat of Napoleon at the Battle of Waterloo Muir sets Britain's military operations on the Iberian Peninsula within the context of the wider European conflict and examines how diplomatic financial military and political considerations combined to shape policies and priorities Just as political factors influenced strategic military decisions Muir contends fluctuations of the war affected British political decisions The book is based on a comprehensive investigation of primary and secondary sources and on a thorough examination of the vast archives left by the Duke of Wellington Muir offers vivid new insights into the personalities of Canning Castlereagh Perceval Lord Wellesley Wellington and the Prince Regent along with fresh information on the financial background of Britain's campaigns This vigorous narrative account will appeal to general readers and military enthusiasts as well as to students of early nineteenth century British politics and military history

*Titan* William R. Nester, 2016-05-31 When the leaders of the French Revolution executed Louis XVI and Marie Antoinette in 1793 they sent a chilling message to the hereditary ruling orders in Europe Believing that monarchy anywhere presented a threat to democratic rule in France the leaders of the revolution declared war on European aristocracies including those of Great Britain For more than twenty years thereafter France and England waged a protracted war that ended in British victory In *Titan* William R Nester offers a deeply informed and thoroughly fascinating narrative of how England accomplished this remarkable feat Between 1789 and 1815 British leaders devised funded and led seven coalitions against the revolutionary and Napoleonic governments of France In each enterprise statesmen and generals

searched for order amid a complex welter of bureaucratic political economic psychological technological and international forces Nester combines biographies of great men the likes of William Pitt Horatio Nelson and Arthur Wellesley with an explanation of the critical decisions they made in Britain's struggle for power and his own keen analysis of the forces that operated beyond their control Their efforts would eventually crush France and Napoleon and establish a system of European power relations that prevented a world war for nearly a century The interplay of individuals and events the importance of conjunctures and contingency the significance of Britain's island character and resources all come into play in Nester's exploration of the art of British military diplomacy The result is a comprehensive and insightful account of the endeavors of statesmen and generals to master the art of power in a complex battle for empire      *The life of Napoleon I* John Holland Rose,1902      *The Life of Napoleon I* John Holland Rose,1902      **Britain's Rise to Global Superpower in the Age of Napoleon** William Nester,2020-12-14 The first study to explore all Britain's key land and sea campaigns from 1793 to 1815 and the two military geniuses who vanquished France The art of power consists of getting what one wants That is never more challenging than when a nation is at war Britain fought a nearly nonstop war against first revolutionary then Napoleonic France from 1793 to 1815 During those twenty two years the government formed financed and led seven coalitions against France The French inflicted humiliating defeats on the first five Eventually Britain and its allies prevailed not once but twice by vanquishing Napoleon temporarily in 1814 and definitively in 1815 French revolutionaries had created a new form of warfare which Napoleon perfected Never before had a government mobilized so much of a realm's manpower industry finance and patriotism nor under Napoleon wielded it more effectively and ruthlessly to pulverize and conquer one's enemies Britain struggled up a blood soaked learning curve to master this new form of warfare With time the British made the most of their natural strategic and economic advantages Britons were relatively secure and prosperous in their island realm British merchants manufacturers and financiers dominated global markets The Royal Navy not only ruled the waves that lapped against the nation's shores but those plowed by international commerce around the world Yet even with those assets victory was not inevitable Two military geniuses are the most vital reasons why Britain and its allies vanquished France when and how they did General Arthur Wellesley the Duke of Wellington and Admiral Horatio Nelson respectively mastered warfare on land and at sea Of the hundreds of books on the era none before has explored all of Britain's land and sea campaigns from the first in 1793 to the last in 1815 This vividly written meticulously researched book lets readers experience each level of war from the debates over grand strategy in London to the horrors of combat engulfing soldiers and sailors in distant lands and seas Haunting voices of participants echo from two centuries ago culled from speeches diaries and letters Britain's Rise to Global Superpower in the Age of Napoleon reveals how decisively or disastrously the British army and navy wielded the art of military power during the Age of Revolution and Napoleon      **Defending British India Against Napoleon** Amita Das,Aditya Das,2016 A study of how Napoleon's very real and very serious threat to British India was countered      **British**
