## **Napoleon III And His Regime An Extravaganza:**

Napoleon III and His Regime David Baguley, 2000-11-01 Referred to in his time as the Pretender and the sphinx of the Tuileries Louis Napol on Bonaparte the nephew of Emperor Napoleon I of France and himself ruler of the Second Empire 1852 1870 so managed the manufacture of his public image and the masking of his private self that he is ultimately unknowable to this day From the mysterious circumstances of his conception in 1807 to the strange events of his downfall in 1870 and death in 1873 he lived loved and reigned in an extraordinary aura of myth and fantasy under the shadow of his more famous uncle Taking a highly innovative approach to this intriguing historical figure David Baguley entertains sources in a m lange of media and forms pictures performances spectacles rituals music fiction poems plays architecture fashion as well as Louis Napol on s own writings to explore how the ruler was represented invented and interpreted by detractors and defenders alike The dynamic process by which the legend of Napoleon III was elaborately fabricated and then vigorously dismantled unfolds under Baguley s hand not chronologically but by generic categories reflecting the author s underlying conviction that history and literary depictments are not as incompatible as is often assumed Baguley examines works by among many others Victor Hugo Karl Marx mile Zola Honor Daumier Jacques Offenbach Gustave Flaubert and Elizabeth Barrett Browning that range from history and biography to romanticized versions of the Emperor s feats to parody caricature and satire With its conspiratorial origins its rising and dramatically falling action its schemes scandals and tragic denouement the Second Empire appears designed to inspire writers and artists Napoleon III Baguley observes could well have been the central character or temperament in a naturalist novel While most historians consider Louis Napol on s coup d tat of December 1851 to be his boldest endeavor Baguley shows in this expansive and eloquent work that his most extravagant venture was to found a second Napoleonic empire and he illustrates not only the power of the name and the image but also the precariousness of the Emperor s reliance upon them For Napoleon III dissimulation was his natural state opportunist or utopian reformer or something in between he must remain one of history s most elusive and controversial figures ever resisting final assessment

**The Final Spectacle** Julia Thoma, 2019-03-18 The book examines military paintings in France in the 1850s and 1860s when the genre experienced a new lease of life It recreates the paintings art historical historical and social context and considers the explosion of military subjects in their own right rather than as a consequence of war reporting The paintings entertainment value effectively communicated political agendas catering to the emerging phenomenon of mass spectatorship and giving rise to innovative compositions The book also looks at the other side of the artistic spectrum proposing that smaller formats adapted the sentimental techniques of military memoirs to focus on the soldiers experiences of warfare and to elicit a critique of war

**The Town of Vichy and the Politics of Identity** Kirrily Freeman, 2022-01-31 This book explores the contours of civic identity in the town of Vichy France Over the course of its history Vichy has been known for three things its thermal spa resort its products especially Vichy water and Vichy

cosmetics and its role in hosting the tat Fran ais France s collaborationist government in the Second World War This last association has become an obsession for the residents of Vichy who feel stigmatized and victimized by the widespread habit of referring to France s wartime government as the Vichy regime This book argues that the stigma victimhood and decline suffered by Vichyssois are best understood by placing Vichy s politics of identity in a broader historical context that considers corporate as well as social and cultural history

**The Judgment of Paris** Ross King,2012-01-11 Another fascinating book by the author of Brunelleschi s Dome and Michelangelo and the Pope s Ceiling a saga of artistic rivalry and cultural upheaval in the decade leading to the birth of Impressionism If there were two men who were absolutely central to artistic life in France in the second half of the nineteenth century they were Edouard Manet and Ernest Meissonier While the former has been labelled the Father of Impressionism and is today a household name the latter has sunk into obscurity It is difficult now to believe that in 1864 when this story begins it was Meissonier who was considered the greatest French artist alive and who received astronomical sums for his work while Manet was derided for his messy paintings of ordinary people and had great difficulty getting any of his work accepted at the all important annual Paris Salon Manet and Meissonier were the Mozart and Salieri of their day one a dangerous challenge to the establishment the other beloved by rulers and the public alike for his painstakingly meticulous oil paintings of historical subjects Out of the fascinating story of their parallel careers Ross King creates a lens through which to view the political tensions that dogged Louis Napoleon during the Second Empire his ignominious downfall and the bloody Paris Commune of 1871 At the same time King paints a wonderfully detailed and vivid portrait of life in an era of radical social change When Manet painted Dejeuner sur l herbe or Olympia he shocked not only with his casual brushstrokes but with his subject matter top hatted white collar workers and their mistresses were not considered suitable subjects for Art Ross King shows how benign as they might seem today these paintings changed the course of history The struggle between Meissonier and Manet to see their paintings achieve pride of place at the Salon was not just about artistic competitiveness it was about how to see the world Full of fantastic tidbits of information and a colourful cast of characters that includes Baudelaire Courbet and Zola with walk on parts for Monet Renoir Degas and Cezanne The Judgment of Paris casts new light on the birth of Impressionism and takes us to the heart of a time in which the modern French identity was being forged

*The Legacy of Empire* Sharon Worley,2018-11-14 The shadow of Napoleon never left the nineteenth century and continued to haunt the histories and wars that followed in curious and circuitous ways The empires of Napoleon I and his nephew Napoleon III set the stage for the pendulum swing of time from revolution to its antithesis empire The Anglo Italian

style developed as a reaction to these empires the widespread devastation caused by power and the monuments it created Lord Byron Percy Bysshe Shelley Margaret Fuller Elizabeth Barrett Browning Harriet Hosmer William Wetmore Story Nathaniel Hawthorne Henry James and Vernon Lee responded to recurring themes in Italian Risorgimento politics and culture in the post Napoleonic era and Second Empire periods Many of them were ex patriots who adopted Italy as their new home Their unique contribution aligns them with a style that is distinguished by the themes of national independence feminism the abolition of slavery and republicanism They perceived their own time in terms of parallel dimensions in which the past and present converged in national histories at home in America and England and in Italy their new ideal state The language of their new nationalism evolved from the chronological study of Ancient Rome up to the Renaissance and the style of both revolution and empire neoclassicism while their perspective was largely shaped by a reactionary contrast between the empires of Napoleon I and III and an ideal state they envisioned for Italy     **Imperial Requiem** Justin C. **Violence and Legitimacy** Volker Sellin, 2017-12-18 Benjamin Constant distinguished two kinds of government unlawful government based on violence and legitimate government based on the general will In Europe monarchy was for over a thousand years considered the natural form of legitimate government The sources of its legitimacy were the dynastic principle religion and the ability to protect against foreign aggression At the end of the eighteenth century the revolutions in America and France called into question the traditional legitimacy of monarchy but Volker Sellin shows that in response to this challenge monarchy opened up new sources of legitimacy by concluding alliances with constitutionalism nationalism and social reform In some cases the age of revolution brought on a new type of leader basing his claim to power on charisma

Hopkins, 2015-05-11 In the second half of the nineteenth century state and municipal governments oversaw the explosive growth of public parks squares and gardens throughout the city of Paris In Planning the Greenspaces of Nineteenth Century Paris Richard S Hopkins skillfully weaves together social and cultural history to argue that the expansion of these greenspaces served as more than simple urban embellishment Rather they provided an essential component of the Second Empire's efforts to transform and revitalize France's capital city and their development continued well into the Third Republic Hopkins brings a new dimension to the study of nineteenth century Parisian urbanism by considering the parks and

squares of Paris from multiple perspectives the reformers who advocated for them the planners who constructed them the workers who maintained them and the neighborhood residents who used them As public areas over which private citizens felt a high degree of ownership these spaces offered a unique opportunity for collaboration between city officials and residents Hopkins examines the national and municipal goals for the greenspaces their intended contributions to public health and the roles of park service employees and neighborhood groups in their ongoing centrality to Parisian life Hopkins's study moves deftly from the aspirations of the political authorities to the ways in which new public spaces contributed to community building and neighborhood identity Drawing on extensive archival research he depicts a greenspace design and development process that illustrates the dynamic relationship between citizens and city
