Napoleons Surgeon:

A Surgeon in Napoleon's Grande Armée Calum Johnson, 2024-05-30 Pierre Fran ois Percy was Surgeon in Chief of Napoleon s Grande Arm e This is the first English translation of Baron Percy s notebooks containing his interesting revealing and informative testimony of the Revolutionary and Napoleonic campaigns in which he played an active role as the most senior surgeon in the French Army from 1799 1807 In his journal Percy writes intimately about his life on campaign He recounts his experiences across Europe particularly in Switzerland Helvetia Germany and Poland The journal shows Percy s delight at seeing his surgeons recognized for their work at Eylau and his notes express his shock at the brazen corruption of military officials and the indiscriminate pillaging to which the French army frequently resorted He recounts his audiences with Napoleon during which his pleas for more resources and a more professional military surgical corps frequently fell on deaf ears Details that may have seemed trivial to Percy s contemporaries about food accommodation dress and transport now offer a vital insight into the persistent struggles and occasional pleasures of those who followed Napoleon on his quest to conquer Europe Percy documents his experiences of some of the major battles of the period namely Jena Eylau and Friedland As a surgeon he witnessed the enormous scale of devastation wrought by these significant battles so often glorified in the historiography as tactical successes His descriptions are meticulous and personal injuries are described scientifically their stark details offering a vivid and horrifying picture of the aftermath of the fighting Percy s singular position living with the soldiers and sharing in their poor conditions while also being aware of the administrative decisions that governed and often negatively impacted their lives makes for an account that is simultaneously fascinating for the general reader and invaluable for scholars of military and surgical history Baron Larrey, Surgeon General to Napoleon's Armies Joseph A. Daly, 1929

Wellington's Lieutenant Napoleon's Gaoler Gareth Glover,2005-04-19 The Author wrote numerous letters home from the campaigns that he fought with Wellington in the Peninsular when he was commanding his Regiment He was therefore in a senior position and privy to secrets of the war He is often caustic regarding his superiors including The Iron Duke himself He packs his letters with interesting descriptions of the life and his surroundings Once Waterloo was won and Napoleon defeated and captive Bingham was selected to accompany him on his journey on HMS Northumberland to final exile at St Helena There he remained with his captive until relieved by another officer Sir Pine Coffin in 1818 The diary for this period is full of fascinating descriptions of the deposed Emperor and the habits of him and his staff

Napoleon's Polish Troops Otto von Pivka,2012-03-20 In 1795 the kingdom of Poland fell prey to her stronger neighbours Russia Prussia and Austria Following the death of the king of Poland in 1798 his kingdom was divided among these three neighbouring powers France

became increasingly involved and protested at Poland's treatment offering refuge for Polish exiles On 11 October 1796 the Polish Legion was formed in the French army by General Dombrowski and Napoleon This book covers the uniforms dress organisation and equipment of the infantry artillery and cavalry of Napoleon's Polish Troops Among the cavalry units covered are the Chasseurs and Lancers This title also provides a summary of the Polish divisions campaigns in Spain Russia and within Poland itself *Railway Surgeon*, 1895 **Surgeons at War** Matthew Kaufman, 2000-11-30 Kaufman examines the training and status of British military surgeons during the late 18th and 19th centuries Their management of the sick and wounded during the wars with France leading up to and including the Peninsular War is also described He concludes with an analysis of the medical problems associated with the Crimean War Using important contemporary texts Kaufman describes the personalities who served in the British Army Medical Department during the late 18th and 19th centuries when diseases caused a much higher mortality than injuries sustained in battle Many military surgeons were only poorly trained and the management of the sick and wounded only gradually improved over this period despite significant advances in medicine surgery and hygiene Government spending cuts after the Peninsular War greatly depleted the medical service of the army so that by the time of the Crimean War it was unable to cope with a European style war Deficiencies were recognized and in the case of the medical services this led to the establishment of the Army Medical School in 1860 This analysis should be of particular interest to serving military medical officers and to historians and other researchers interested in the management of 18th and 19th century armies in times of peace and war **Interesting Particulars of Napoleon's Deportation ... to St. Helena, Etc** Napoleon I (Emperor of the French), 1816 **The Art of Warfare in the Age of Napoleon** Gunther E. Rothenberg, 1980 Some 12 years ago it was estimated that well over 300 000 works existed on this period and since then several thousand more have appeared Therefore it might be reasonably argued that there is little room for another volume Nonetheless this vast outpouring of literature has usually dealt with major leaders specific battles or campaigns and with certain branches of the service Moreover at least in English the literature tends to concentrate primarily on the French or British armies There appears to be a lack of works combining a description of the major changes and trends in the art of war especially at the cutting edge of events with a discussion of the French military establishment and the armies of the major opponents British as well as continental And while this book is only a brief survey I do believe that it may serve as a contribution towards filling this gap in our historical knowledge of military institutions and fighting men **The Effects Of Infectious Disease On Napoleon's Russian Campaign** LCDR Brian M. Allen USN, 2015-11-06 This paper will discuss the effects of infectious disease on Napoleon's forces during the Russian campaign of 1812 In short it will argue that the primary reason Napoleon failed to defeat the Russian army was because his forces were decimated by disease specifically typhus dysentery and diphtheria It will also demonstrate the effect of disease and illness on Napoleon's judgement and decision making process This subject infectious disease and the military has great implications for military planners in the future The

recent Gulf war and its related Gulf War Illness is just one example The United States has lost more men to disease during war than any other cause hence it is critical that today s and tomorrow s military leaders are aware of the dangers The scope of this paper is bounded by the Russian campaign timeframe but it will concentrate on the march to Moscow specifically the events that occurred upon entering Polish and Russian territory Also there were two major battles fought prior to reaching the gates of Moscow which this paper will show were the two decisive points in the campaign These battles occurred at Smolensk and Borodino and they illustrate key instances where Napoleon s leadership judgment and decision making come into question not only by historians and authors but by several of Napoleon s own generals The Russians were outnumbered in the summer of 1812 and were forced to play at fight and retreat game with Napoleon s army This was not well received by the Russian people who were suffering at the hands of the French invaders but it was just about the only sound course of action the Russians could pursue The situation turned itself around however when Napoleon reached Moscow and stayed there until an orderly and safe retreat was nearly impossible At this time the Russian winter was upon them and they had neither the will nor the supplies to return to France *Napoleon's Captivity in Relation to Sir Hudson Lowe* Robert Cooper Seaton,1903
