Narcotic Culture A History Of Drugs In China:

Narcotic Culture Frank Dikötter, Lars Peter Laamann, Xun Zhou, 2004 China was turned into a nation of opium addicts by the pernicious forces of imperialist trade This study systematically questions this assertion on the basis of abundant archives from China Europe and the US showing that opium had few harmful effects on either health or longevity

Narcotic Culture Frank Dikötter, Lars Laamann, Zhou Xun, 2006-10 Narcotic Culture Frank Dikötter, Lars Laamann, Zhou Xun, 2004-04-16 To this day the perception persists that China was a civilization defeated by imperialist Britain's most desirable trade commodity opium a drug that turned the Chinese into cadaverous addicts in the iron grip of dependence Britain in an effort to reverse the damage caused by opium addiction launched its own version of the war on drugs which lasted roughly sixty years from 1880 to World War II and the beginning of Chinese communism But as *Narcotic Culture* brilliantly shows the real scandal in Chinese history was not the expansion of the drug trade by Britain in the early nineteenth century but rather the failure of the British to grasp the consequences of prohibition In a stunning historical reversal Frank Dikötter Lars Laamann and Zhou Xun tell this different story of the relationship between opium and the Chinese They reveal that opium actually had few harmful effects on either health or longevity in fact it was prepared and appreciated in highly complex rituals with inbuilt constraints preventing excessive use Opium was even used as a medicinal panacea in China before the availability of aspirin and penicillin But as a result of the British effort to eradicate opium the Chinese turned from the relatively benign use of that drug to heroin morphine cocaine and countless other psychoactive substances *Narcotic Culture* provides abundant evidence that the transition from a tolerated opium culture to a system of prohibition produced a cure that was far worse than the disease Delving into a history of drugs and their abuses *Narcotic Culture* is part revisionist history of imperial and twentieth century Britain and part sobering portrait of the dangers of prohibition **Narcotic Culture** Frank Dikötter, Xun Zhou, Lars Peter Laamann, 2002 **The Oxford Handbook of Global Drug History** Paul Gootenberg, 2022 This landmark collection of essays by thirty five historians working on a global scale brings together the latest knowledge and perspectives about the long origins and transformations of today's illicit drugs such as cannabis heroin and cocaine *Histories of Drug Trafficking in Twentieth-Century Mexico* Wil G. Pansters, Benjamin T. Smith, 2024-11-15 This work brings together a new generation of drug historians and new historical sources to uncover the history of the drug trade and its regulations While the US and Mexican governments developed anti drug discourses and policies which criminalized both high profile traffickers and small time addicts these authorities also employed the criminals and cash connected to the drug trade to pursue more pressing political concerns The politics socioeconomic relations and criminal justice system of modern Mexico have been shaped by these public and covert policies as well as by subnational histories of drug production and trafficking The essays in this study explore this complicated narrative and provide insight into Mexico's history and the wider contemporary global drug trade **Prohibitions and Psychoactive Substances in**

History, Culture and Theory Susannah Wilson, 2019-05-16 This volume is a new contribution to the dynamic scholarly discussion of the control and regulation of psychoactive substances in culture and society Offering new critical reflections on the reasons prohibitions have historically arisen the book analyses prohibitions as ambivalent and tenuous interactions between the users of psychoactive substances and regulators of their use This original collection of essays engages with contemporary debates concerning addiction intoxication and drug regulation and will be of interest to scholars in the arts humanities and social sciences interested in narratives of prohibition and their social and cultural meanings *Opium's Orphans* P. E. Caquet, 2022-07-06 Upending all we know about the war on drugs a history of the anti narcotics movement s origins evolution and questionable effectiveness *Opium's Orphans* is the first full history of drug prohibition and the war on drugs A no holds barred but balanced account it shows that drug suppression was born of historical accident not rational design The war on drugs did not originate in Europe or the United States and even less with President Nixon but in China Two Opium Wars followed by Western attempts to atone for them gave birth to an anti narcotics order that has come to span the globe But has the war on drugs succeeded As opioid deaths and cartel violence run rampant contestation becomes more vocal and marijuana is slated for legalization *Opium's Orphans* proposes that it is time to go back to the drawing board

Innocent Bystanders Philip Keefer, Norman Loayza, 2010-03-24 This book presents evidence that drug policies impose high costs on poor transit and producer countries It argues that in the face of great uncertainty about the benefits of alternative drug policies those with lower social costs should receive greater emphasis *Power and Illicit Drugs in the Global South* Maziyar Ghiabi, 2020-04-28 More than a hundred years have passed since the adoption of the first prohibitionist laws on drugs Increasingly the edifice of international drug control and laws is vacillating under pressures of reform Scholarship on drugs history and policy has had a tendency to look at the issue mostly in the Western hemisphere of the globe or to privilege Western narratives of drugs and drugs policy This volume instead turns this approach upside down and makes an intellectual attempt to redefine the subject of drugs in the Global South Opium heroin cannabis hashish methamphetamines and khat are among the drugs discussed in the contributions to the volume which spans from Sub Saharan Africa to Southeast Asia including the Middle East North Africa Latin America and the Indian Subcontinent The volume also makes a powerful case for an interdisciplinary approach to the study of drugs by juxtaposing the work of historians political scientists geographers anthropologists and criminologists Ultimately this edited volume is a rich and diverse collection of new case studies which opens up venues for further research This book was originally published as a special issue of *Third World Quarterly* [Drug smuggler nation](#) Stephen Snelders, 2021-02-09 Why did the international drug regulatory regime of the twentieth century fail to stop an explosive increase in trade and consumption of illegal drugs This study investigates the histories of smugglers and criminal entrepreneurs in the Netherlands who succeeded in turning the country into the so called Colombia of Europe or the international drug supermarket Increasing state regulations and

interventions led to the proliferation of a hydra of small anarchic groups and networks ideally suited to circumvent the enforcement of regulation Networks of smugglers and suppliers of heroin cocaine cannabis XTC and other drugs were organized without a strict formal hierarchy and based on personal relations and cultural affinities rather than on institutional arrangements These networks created a thriving underground industry of illegal synthetic drug laboratories and indoor cannabis cultivation in the Netherlands itself Their operations were made possible and developed because of the deep historical social and cultural embeddedness of criminal anarchy in Dutch society Using examples from the rich history of drug smuggling Drug smuggler nation investigates the deeper and hidden grounds of the illegal drug trade and its effects on our drug policies

Habit Forming Elizabeth Kelly Gray, 2023 Habitual drug use in the United States is at least as old as the nation itself Habit Forming traces the history of unregulated drug use and dependency before 1914 when the Harrison Narcotic Tax Act limited sales of opiates and cocaine under US law Many Americans used opiates and other drugs medically and became addicted Some tried Hasheesh Candy injected morphine or visited opium dens but neither use nor addiction was linked to crime due to the dearth of restrictive laws After the Civil War American presses published extensively about domestic addiction Later in the nineteenth century many used cocaine and heroin as medicine As addiction became a major public health issue commentators typically sympathized with white middle class drug users while criticizing such use by poor or working class people and people of color When habituation was associated with middle class morphine users few advocated for restricted drug access By the 1910s as use was increasingly associated with poor young men support for regulations increased In outlawing users access to habit forming drugs at the national level a public health problem became a larger legal and social problem one with an enduring influence on American drug laws and their enforcement

Making China Modern Klaus Mühlhahn, 2019-01-14 Thoughtful probing a worthy successor to the famous histories of Fairbank and Spence that will be read by all students and scholars of modern China William C Kirby coauthor of Can China Lead It is tempting to attribute the rise of China to Deng Xiaoping and to recent changes in economic policy But China has a long history of creative adaptation In the eighteenth century the Qing Empire dominated a third of the world's population Then as the Opium Wars and the Taiping Rebellion ripped the country apart China found itself verging on free fall More recently after Mao China managed a surprising recovery rapidly undergoing profound economic and social change A dynamic story of crisis and recovery failure and triumph Making China Modern explores the versatility and resourcefulness that guaranteed China's survival powered its rise and will determine its future Chronicles reforms revolutions and wars through the lens of institutions often rebutting Western impressions New Yorker A remarkable accomplishment Unlike an earlier generation of scholarship Making China Modern does not treat China's contemporary transformation as a postscript It accepts China as a major and active player in the world places China at the center of an interconnected and global network of engagement links domestic politics to international dynamics and seeks to approach China on its own terms Wen hsin Yeh author of Shanghai

Splendor *Intoxicating Manchuria* Norman Smith, 2012-08-28 *Intoxicating Manchuria* reveals how the powerful alcohol and opium industries in Northeast China were altered by warlord rule Japanese occupation political conflict and a vigorous anti intoxicant movement Through the lens of the Chinese media s depictions of alcohol and opium Norman Smith examines how intoxicants and addiction were understood in this society the role the Japanese occupation of Manchuria played in the portrayal of intoxicants and the efforts made to reduce opium and alcohol consumption This is the first English language book length study to focus on alcohol use in modern China and the first dealing with intoxicant restrictions in the region

Drug Control and Human Rights in International Law Richard Lines, 2017-06-29 This book explores how international drug control law should be interpreted within the context of international human rights law **Food and Environment in Early and Medieval China** E. N. Anderson, 2014-11-04 Chinese food is one of the most recognizable and widely consumed cuisines in the world Almost no town on earth is without a Chinese restaurant of some kind and Chinese canned frozen and preserved foods are available in shops from Nairobi to Quito But the particulars of Chinese cuisine vary widely from place to place as its major ingredients and techniques have been adapted to local agriculture and taste profiles To trace the roots of Chinese foodways one must look back to traditional food systems before the early days of globalization *Food and Environment in Early and Medieval China* traces the development of the food systems that coincided with China s emergence as an empire Before extensive trade and cultural exchange with Europe was established Chinese farmers and agriculturalists developed systems that used resources in sustainable and efficient ways permitting intensive and productive techniques to survive over millennia Fields gardens semiwild lands managed forests and specialized agricultural landscapes all became part of an integrated network that produced maximum nutrients with minimal input though not without some environmental cost E N Anderson examines premodern China s vast active network of trade and contact such as the routes from Central Asia to Eurasia and the slow introduction of Western foods and medicines under the Mongol Empire Bringing together a number of new findings from archaeology history and field studies of environmental management *Food and Environment in Early and Medieval China* provides an updated picture of language relationships cultural innovations and intercultural exchanges *The Age of Openness* Frank Dikötter, 2008-10-08 Accessible to general readers and full of

valuable insights for specialists *China before Mao* presents a fresh way of approaching the country s modern history and shows that in politics society culture and the economy China was at its most diverse on the eve of World War II BOOK JACKET *Drugs, Alcohol and Addiction in the Long Nineteenth Century* Daniel Malleck, 2020-01-24 This collection captures key themes and issues in the broad history of addiction and vice in the Anglo American world Focusing on the long nineteenth century the volumes consider how scientific social and cultural experiences with drugs alcohol addiction gambling and prostitution varied around the world What might be considered vice or addiction could be interpreted in various ways through various lenses and such activities were interpreted differently depending upon the observer the medical practitioner

the evangelical missionary the thrill seeking bon vivant and the concerned government commissioner to name but a few For example opium addiction in middle class households resulting from medical treatment was judged much differently than Chinese opium smoking by those in poverty or poor living conditions in North American work camps on the west coast or on the streets of Soho This collection will assemble key documents representing both the official and general view of these various activities providing readers with a cross section of interpretations and a solid grounding in the material that shaped policy change cultural interpretation and social action

China Inc. Ted C. Fishman, 2012-12-11 What will happen when China can manufacture nearly everything that the United States and Europe can at one third the cost It s a ground shaking question and when it comes to the West s future economic health not everyone will want to hear the answer The burgeoning output of China s vast low cost factories and the swelling appetite of its 1.3 billion consumers both of which are driven by infusions of foreign capital and technological know how are rapidly altering global commerce So are China s newfound freedoms national ambitions and growing prestige In CHINA INC veteran journalist and former commodities trader Ted Fishman shows that economics is just where the story begins Fishman paints a vivid picture of how the mega trends radiating out of China are shaping the day to day lives of people everywhere Drawing on hundreds of interviews with Chinese European and American workers managers and executives Fishman also tells how China will force all of us to make big changes in how we think about ourselves as consumers workers citizens and even as parents The result is a richly engaging work of penetrating reportage and analysis

When Good Drugs Go Bad Dan Malleck, 2015-07-15 Throughout the 1800s opium and cocaine could be easily obtained to treat a range of ailments in Canada Dependency when it occurred was considered a matter of personal vice Near the end of the century attitudes shifted and access to drugs became more restricted How did this happen Dan Malleck examines the conditions that led to Canada s current drug laws Drawing on newspaper accounts medical and pharmacy journals professional association files asylum documents physicians case books and pharmacy records Malleck demonstrates how a number of social economic and cultural forces converged in the early 1900s to influence lawmakers and criminalize addiction His research exposes how social concerns about drug addiction had less to do with the long pipe and shadowy den than with lobbying by medical professionals a growing pharmaceutical industry and concern about the morality and future of the nation
