The Commission's report looks at drugs and their regulation: opiates, cocaine, marijuana, stimulants, and hallucinogens; drug law enforcement; characteristics of drug users and abusers; and the need to strengthen law enforcement. Specifically, the Commission recommends that enforcement and related staff of the Bureau of Customs be materially increased; that enforcement staff of the Bureau of Narcotics also be increased; and that States adopt a model drug abuse control act similar to the Federal Drug Abuse Control Amendments of 1965. In addition, the Commission recommends that recordkeeping provisions of the 1965 amendments be changed to require that records be segregated or kept in a manner that enables them to be promptly identified and inspected. Drugs and Policing Brian K. Payne, Randy R. Gainey, 2005. This book fills a void in the literature by examining from a scientific perspective the official police response to drugs: drug use, abuse, and dealing; and how the different levels of police agencies process drug cases. Current drug texts simply do not address the drug problem from a criminal justice or criminological perspective in a clear, consistent fashion. At the beginning of each chapter, a series of critical thinking questions is provided. Throughout each chapter, a series of tables, figures, and charts are used to illustrate themes considered. With these items, critical thinking questions are included below each respective item. The text also makes use of Internet technology inasmuch as students are referred to recommended Internet sites throughout each chapter. Many of these Internet sites deal with pharmacological and biological aspects of drug use. Three unique pedagogical features of the book will help students learn various drug-related issues. First, a box insert titled "In the Streets" appears in each chapter that includes a discussion about some aspects of drug use related to the chapter's focus. A second box titled "Tabloid Justice" also appears in each chapter.

discussing a particular celebrity's battles with drug abuse as it was considered in the press. A third box, Drugs and Research, in each chapter highlights a specific drug study that should be of interest to students. This book will appeal to a number of criminal justice, criminology, and sociology program courses on drug abuse. Professionals interested in learning more about the criminal justice response to the drug problem, as well as police academies, may also find the book useful.
