 President, 1967 *The American Disease* David F. Musto, 1999 The American Disease is a classic study of the development

 Bulletin on Narcotics , 1979 *Drug Addiction: Crime Or Disease?* Joint Committee of the American Bar Association and
 the American Medical Association on Narcotic Drugs, 1961 *Drug Addiction I* , 2013-11-27 This volume addresses the
 general problem of drug addiction from several points of view which are in some ways quite unique and different from other
 areas of pharmacology Drug addiction is closely associated with criminal behavior One of the great and noble edifices of
 civilization is the philosophic and ethical view that man is perfectible and some believe that this can be achieved by providing
 the appropriate circumstance or environment in which man can mature and be educated Some have postulated that drug
 abuse is a consequence of an inadequate or pathologic set of socializing experiences or is a consequence of basic conflicts
 between the values and accepted patterns of behavior of a subculture and that of a larger culture The degree to which man is
 malleable and perfectible by social forces is not known nor do we know the true desirability of socializing individuals to the
 extent that their behavior does not deviate from social norms Some deviancy is essential for innovation and creativity and at
 times there may be difficulties in determining whether an innovator or creator is exhibiting sociopathic behavior or not This
 aspect of drug addiction is inherently a matter of social values and ethics **Report on Drug Addiction in California**
