The Impenitent Confession of Guzmán de Alfarache Judith A. Whitenack,1985 *Conflicts of Discourse* Peter William Evans,1990 **The Quest for Certainty in Early Modern Europe** Barbara Fuchs,Mercedes García-Arenal,2020-01-29 This interdisciplinary collection explores how the early modern pursuit of knowledge in very different spheres from Inquisitional investigations to biblical polemics to popular healing was conditioned by a shared desire for certainty and how epistemological crises produced by the religious upheavals of early modern Europe were also linked to the development of new scientific methods Questions of representation became newly fraught as the production of knowledge increasingly challenged established orthodoxies The volume focuses on the social and institutional dimensions of

inquiry in light of political and cultural challenges while also foregrounding the Hispanic world which has often been left out of histories of scepticism and modernity. Featuring essays by historians and literary scholars from Europe and the United States, *The Quest for Certainty in Early Modern Europe* reconstructs the complexity of early modern epistemological debates across the disciplines in a variety of cultural, social and intellectual locales.

Latin American Writers on Gay and

Lesbian Themes David William Foster, 1994-11-07. Gay and lesbian themes in Latin American literature have been largely ignored. This reference fills this gap by providing more than a hundred alphabetically arranged entries for Latin American authors who have treated gay or lesbian material in their works. Each entry explores the significance of gay and lesbian themes in a particular author's writings and closes with a bibliography of primary and secondary sources. The figures included have a professed gay identity or have written on gay or lesbian themes in either a positive or negative way or have authored works in which a gay sensibility can be identified. The volume pays particular attention to the difficulty of ascribing North American critical perspectives to Latin American authors and studies these authors within the larger context of Latin American culture. The book includes entries for men and women and for authors from Latin American countries as well as Latino writers from the United States. The entries are written by roughly 60 expert contributors from Latin America, the U.S. and Europe.

Encyclopedia of Gay Histories and Cultures George Haggerty, 2013-11-05. First Published in 2000. A rich heritage that needs to be documented. Beginning in 1869 when the study of homosexuality can be said to have begun with the establishment of sexology, this encyclopedia offers accounts of the most important international developments in an area that now occupies a critical place in many fields of academic endeavor. It covers a long history and a dynamic and ever changing present while opening up the academic profession to new scholarship and new ways of thinking. A groundbreaking new approach. While gays and lesbians have shared many aspects of life, their histories and cultures developed in profoundly different ways. To reflect this crucial fact, the encyclopedia has been prepared in two separate volumes assuring that both histories receive full unbiased attention and that a broad range of human experience is covered. Written for and by a wide range of people. Intended as a reference for students and scholars in all fields as well as for the general public, the encyclopedia is written in user friendly language. At the same time it maintains a high level of scholarship that incorporates both passion and objectivity. It is written by some of the most famous names in the field as well as new scholars whose research continues to advance gender studies into the future.

Objects of Culture in the Literature of Imperial Spain

Mary Barnard, Frederick A. de Armas, 2013-03-14. Collecting and displaying finely crafted objects was a mark of character among the royals and aristocrats in Early Modern Spain; it ranked with extravagant hospitality as a sign of nobility and with virtue as a token of princely power. *Objects of Culture in the Literature of Imperial Spain* explores how the writers of the period shared the same impulse to collect, arrange and display objects though in imagined settings as literary artefacts. These essays examine a variety of cultural objects described or alluded to in books from the Golden Age of Spanish literature.

including clothing paintings tapestries playing cards monuments materials of war and even enchanted bronze heads The contributors emphasize how literature preserved and transformed objects to endow them with new meaning for aesthetic social religious and political purposes whether to perpetuate certain habits of thought and belief or to challenge accepted social and moral norms **Papiros de Babel** Pedro López-Adorno,1991 This provocative anthology contains representative works by over fifty Puerto Rican poets who have been residents of New York City With critical introductions declarations by the authors on the subject of their work and poetic credos critical and biographical notes and bibliographies **La**
