American Arabesque Jacob Rama Berman, 2012-06-11 Part of the American Literatures Initiative Series American Arabesque examines representations of Arabs Islam and the Near East in nineteenth century American culture arguing that these representations play a significant role in the development of American national identity over the century revealing largely unexplored exchanges between these two cultural traditions that will alter how we understand them today Moving from the period of America s engagement in the Barbary Wars through the Holy Land travel mania in the years of Jacksonian expansion and into the writings of romantics such as Edgar Allen Poe the book argues that not only were Arabs and Muslims prominently featured in nineteenth century literature but that the differences writers established between figures such as Moors Bedouins Turks and Orientals provide proof of the transnational scope of domestic racial politics Drawing on both English and Arabic language sources Berman contends that the fluidity and instability of the term Arab as it appears in captivity narratives travel narratives imaginative literature and ethnic literature simultaneously instantiate and undermine definitions of the American nation and American citizenship

Journeys of the Slave Narrative in the Early Americas Nicole N. Aljoe, Ian Finseth, 2014-11-14 Focusing on slave narratives from the Atlantic world of the eighteenth and early nineteenth centuries this interdisciplinary collection of essays suggests the importance even the necessity of looking beyond the iconic and ubiquitous works of Olaudah Equiano Frederick Douglass and Harriet Jacobs In granting sustained critical attention to writers such as Briton Hammon

Omar Ibn Said Juan Francisco Manzano Nat Turner and Venture Smith among others this book makes a crucial contribution not only to scholarship on the slave narrative but also to our understanding of early African American and Black Atlantic literature The essays explore the social and cultural contexts the aesthetic and rhetorical techniques and the political and ideological features of these noncanonical texts By concentrating on earlier slave narratives not only from the United States but from the Caribbean South America and Latin America as well the volume highlights the inherent transnationality of the genre illuminating its complex cultural origins and global circulation *Tennyson and the Fabrication of Englishness* M. Sherwood, 2013-03-05 Through an examination of Tennyson's domestic poetry his portrayals of England and the English in their changing nineteenth century context this book demonstrates that many of his representations were fabrications more idealized than real which played a vital part in the country's developing identity and sense of its place in the world

Travels into Print Innes M. Keighren, Charles W. J. Withers, Bill Bell, 2015-05-11 In eighteenth and nineteenth century Britain books of travel and exploration were much more than simply the printed experiences of intrepid authors They were works of both artistry and industry products of the complex and often contested relationships between authors and editors publishers and printers These books captivated the reading public and played a vital role in creating new geographical truths In an age of global wonder and of expanding empires there was no publisher more renowned for its travel books than the House of John Murray Drawing on detailed examination of the John Murray Archive of manuscripts images and the firm's correspondence with its many authors a list that included such illustrious explorers and scientists as Charles Darwin and

Charles Lyell and literary giants like Jane Austen Lord Byron and Sir Walter Scott *Travels into Print* considers how journeys of exploration became published accounts and how travelers sought to demonstrate the faithfulness of their written testimony and to secure their personal credibility This fascinating study in historical geography and book history takes modern readers on a journey into the nature of exploration the production of authority in published travel narratives and the creation of geographical authorship a journey bound together by the unifying force of a world leading publisher

criminality it attracted thousands of male recruits whose venturing acquired a global dimension as piratical activity spread across the oceans and seas of the world At the same time piracy affected the lives of women in varied ways Adopting a fresh approach to the subject this study explores the relationships and contacts between women and pirates during a prolonged period of intense and shifting enterprise Drawing on a wide body of evidence and based on English and Anglo American patterns of activity it argues that the support of female receivers and maintainers was vital to the persistence of piracy around the British Isles at least until the early seventeenth century The emergence of long distance and globalized predation had far reaching consequences for female agency Within colonial America women continued to play a role in networks of support for mixed groups of pirates and sea rovers at the same time such groups of predators established contacts with women of varied backgrounds in the Caribbean and the Indian Ocean As such female agency formed part of the economic and social infrastructure which supported maritime enterprise of contested legality But it co existed with the victimisation of women by pirates including the Barbary corsairs As this study demonstrates the interplay between agency and victimhood was manifest in a campaign of petitioning which challenged male perceptions of women s status as victims Against this background the book also examines the role of a small number of women pirates including the lives of Mary Read and Ann Bonny while addressing the broader issue of limited female recruitment into piracy JOHN C APPLEBY is Senior Lecturer in History at Liverpool Hope University
