Narratives Of Greater Mexico Essays On Chicano Literary History Genre And Borders Cmas History:

Narratives of Greater Mexico Héctor Calderón, 2004 Once relegated to the borders of literature neither Mexican nor truly American Chicana o writers have always been in the vanguard of change articulating the multicultural ethnicities shifting identities border realities and even postmodern anxieties and hostilities that already characterize the twenty first century Indeed it is Chicana o writers very in between ness that makes them authentic spokespersons for an America that is becoming increasingly Mexican Latin American and for a Mexico that is ever more Americanized In this pioneering study Hector Calder n looks at seven Chicana and Chicano writers whose narratives constitute what he terms an American Mexican literature Drawing on the concept of Greater Mexican culture first articulated by Americo Paredes Calder n explores how the works of Paredes Rudolfo Anaya Tomás Rivera Oscar Zeta Acosta Cherr e Moraga Rolando Hinojosa and Sandra Cisneros derive from Mexican literary traditions and genres that reach all the way back to the colonial era His readings cover a wide span of time 1892 2001 from the invention of the Spanish Southwest in the nineteenth century to the Am rica Mexicana that is currently emerging on both sides of the border In addition to his own readings of the works Calder n also includes the writers perspectives on their place in American Mexican literature through excerpts from their personal papers and interviews correspondence and e mail exchanges he conducted with most of them

How Myth Became History John Emory Dean, 2016-03-17 The book explores how border subjects have been created and disputed in cultural narratives of the Texas Mexico border comparing and analyzing Mexican Mexican American and Anglo literary representations of the border Provided by publisher *The Cambridge History of the American Novel* Leonard Cassuto, 2011-03-24 An authoritative and lively account of the development of the genre by leading experts in the field *Warring Genealogies* Joo Ok

Kim, 2022-06-24 *Warring Genealogies* examines the racial legacies of the Korean War through Chicano a cultural production and U S archives of white supremacy *Publications of the Modern Language Association of America*, 2005

Latinos and Nationhood Nicolás Kanellos, 2023-10-03 Spanning from the early nineteenth century to today this intellectual history examines the work of Latino writers who explored the major philosophic and political themes of their day including the meaning and implementation of democracy their democratic and cultural rights under U S dominion their growing sense of nationhood and the challenges of slavery and disenfranchisement of women in a democratic republic that had yet to realize its ideals Over the course of two centuries these Latino or Hispanic intellectuals were natural born citizens of the United States immigrants or political refugees Many of these intellectuals whether citizens or not strove to embrace and enliven such democratic principles as freedom of speech and of the press the protection of minorities in the Bill of Rights and in subsequent laws and the protection of linguistic and property rights among many others guaranteed by treaties when the United States incorporated their homelands into the Union The first six chapters present the work of lesser known historical figures most of whom have been consistently ignored by Anglo and Euro centric history and whose works have been widely

inaccessible until recently who were revolutionaries editors of magazines and newspapers and speechmakers who influenced the development of a Latino consciousness The last three chapters deal with three foundational figures of the Chicano Movement the last two of whom either subverted the concept of nationhood or went beyond it to embrace internationalism in an outreach to humanity as a whole Latinos and Nationhood sheds new light on the biographies of Felix Varela Jos Alvarez de Toledo y Dubois Francisco Ramirez Tom s Rivera Rolando Hinojosa Smith and Gloria E Anzald a among others *The Hispanic American Historical Review* James Alexander Robertson,2005 Includes Bibliographical section *Annual Bibliography of English Language and Literature* Modern Humanities Research Association,2004 Includes both books and articles **Latin American Research Review** ,2005 An interdisciplinary journal that publishes original research and surveys of current research on Latin America and the Caribbean **American Book Publishing Record** ,2005 MLA International Bibliography of Books and Articles on the Modern Languages and Literatures ,2006 **Iberoamericana** ,2007

Bridges, Borders, and Breaks William Orchard,Yolanda Padilla,2018-10-26 This volume reassesses the field of Chicana o literary studies in light of the rise of Latina o studies the recovery of a large body of early literature by Mexican Americans and the transnational turn in American studies The chapters reveal how Chicana o defines a literary critical sensibility as well as a political one and show how this view can yield new insights about the status of Mexican Americans the legacies of colonialism and the ongoing prospects for social justice Chicana o literary representations emerge as significant examples of the local that interrogate globalization s attempts to erase difference They also highlight how Chicana o literary studies interests in racial justice and the minority experience have produced important intersections with new disciplines while also retaining a distinctive character The recalibration of Chicana o literary studies in light of these shifts raises important methodological and disciplinary questions which these chapters address as they introduce the new tools required for the study of Chicana o literature at this critical juncture **Historia** Louis Gerard Mendoza,2001 The nature of ethnic identity has been a major issue in the Mexican American community for decades now *Historia The Literary Making of Chicana and Chicano History* makes a superb contribution to the multidisciplinary exploration of ways Mexican Americans have chosen to present their past through both factual and fictional narratives Whereas history has offered frameworks for interpreting generational changes in the understanding of identity literature has been particularly rich in exploring themes of power and domination and of intragroup complexities Louis Gerard Mendoza argues in this innovative look at historical and imaginative literatures and their role in the formation of ethnic identity Focusing on late twentieth century literature and history by American writers of Mexican descent Mendoza examines how style purpose and context function to facilitate or constrain the understanding of the past By juxtaposing the literary and the historical he provides new insight on culture agency and experience Mendoza accepts as his starting point the generational model posited by historian Mario Garc a then contrasts for each generation the nuances and contradictions offered by one or more Chicana o creative writers Other historians whose

works are centrally considered include Juan Gomez Qui ones Rodolfo Alvarez Ricardo Romo David Montejano and Carlos Mu oz while the literary writers featured include Jovita Gonz lez Alejandro Morales Sara Estela Ram rez Teresa Paloma Acosta Oscar Zeta Acosta and Am rico Paredes Mendoza argues that history is the narrative battleground upon which literature is based the writing and rewriting of Chicano history thus becomes an important subtext of Chicana o literature However he contends that most Chicana o historical narratives are integrated uncritically into literary analysis to establish background resulting in the invocation of the histories as representations of the real Libraries Borderlands scholars and those interested in the broad issues of cultural studies will want to own Mendoza s innovative book which instead of insisting on the strict separation of the two genres of history and literature seeks ways to integrate them through the new critical analysis
