

# NATURAL RIGHTS

The term 'natural rights' is used to refer to those rights that belong to human beings due to their nature. Such rights do not depend on the laws or customs of any particular culture or government. They are meant to be universal, fundamental, and inalienable.

## JOHN LOCKE

In his Two Treatises of Government, Locke argued that the state of nature has a law that governs it.

According to this law:

"no one ought to harm another in his life, health, liberty, or possessions (Locke, 1689). These natural rights also serve to limit the legitimate authority of the state."

## EXAMPLES

- 1 Right to life
- 2 Right to liberty
- 3 Right to own property
- 4 Freedom of thought
- 5 Freedom of speech
- 6 Right to have a family
