Naturally . . . South Texas Roland H. Wauer, 2001-08-15 The Golden Crescent of South Texas a fifteen county region along and inland from the middle Gulf Coast is often called the Crossroads because of its natural diversity Located in the heart of the Gulf Coast Prairie and Marshes the area also encompasses the trailing edges of the South Texas Plains Post Oak Savannah and Blackland Prairie This confluence of ecological zones makes it a wonderful place for birding and for observing the changing face of nature especially during seasonal transitions In this book Ro Wauer describes a typical year in the natural life of South Texas Using selected entries from his weekly column in the Victoria Advocate newspaper he discusses numerous topics for each month from the first appearance of butterflies in January to alligators making a comeback in July to the Christmas bird count in December His observations are filled with intriguing natural history lore from what sounds mockingbirds will imitate almost any noise in their neighborhood to how armadillos swim by inflating themselves to increase their buoyancy

Traveling the Shore of the Spanish Sea Geoff Winningham, 2010-02-15 In a work of sweeping breadth and beauty Geoff Winningham has created a profusely illustrated contemplative travel journal that showcases his talent as both a photographer and a writer and reveals his affection and respect for the two countries he calls home In 2003 photographer Geoff Winningham saw for the first time both the southern coast of Veracruz with its volcanoes rain forests and steep mountains and the Texas coast near High Island where the land seems to stretch endlessly covered by a sea of salt grass He decided that these two visually striking areas could be the beginning and end points of a photographic study that would also engage the two cultures in which he had lived for twenty years the U S and Mexico Now seven years and more than a hundred trips later Traveling the Shore of the Spanish Sea The Gulf Coast of Texas and Mexico is the result In this beautifully illustrated and engagingly written book Winningham also considers the role that the Gulf of Mexico played in the discovery and exploration of the New World Winningham s journey begins east of High Island in Port Arthur where the images suggest a cautionary tale relating to the oil industry and the land

It ends twelve hundred miles down the coast at the end of an old stone road in tropical terrain of almost indescribable beauty overlooking the sea In between more than two hundred photographs include natural landscapes ranging from unspoiled to completely despoiled roadside architecture and signage and images of people Winningham met As he attempts to come to terms with the disturbing changes he witnessed to the coastal environment the book also contains elements of a poignant personal lament for what is being lost Traveling the Shore of the Spanish Sea The Gulf Coast of Texas and Mexico will delight and enchant readers with its deeply felt personal narrative and the power and beauty of its images **Annual Meeting**

Nelson,2002-11-01 The dramatic desert landscapes of the Big Bend country along the Texas Mexico border reminded historian Walter Prescott Webb of an earth wreck in which a great section of country was shaken down turned over blown up and set on fire By contrast naturalist Aldo Leopold considered the region a mountainous paradise in which even the wild Mexican parrots had no greater concern than whether this new day which creeps slowly over the canyons is bluer or goldier than its predecessors or less so Whether it impresses people as God s country or as the devil s playground the Big Bend typically evokes strong responses from almost everyone who lives or visits there In this anthology of nature writing Barney Nelson gathers nearly sixty literary perspectives on the landscape and life of the Big Bend region broadly defined as Trans Pecos Texas and northern Chihuahua Mexico In addition to Leopold and Webb the collection includes such well known writers as Edward Abbey Mary Austin Roy Bedichek and Frederick Olmsted as well as a wide range of voices that includes explorers trappers cowboys ranch wives curanderos college presidents scientists locals tourists historians avisadores and

waitresses Following a personal introduction by Barney Nelson the pieces are grouped thematically to highlight the distinctive ways in which writers have responded to the Big Bend
