## **Nature And Imagination The Work Of Odilon Redon:**

*Nature and Imagination* Michael Wilson, Odilon Redon, 1978 In this introduction to Redon's work the illustrations and text have been thoughtfully put together to give a fuller understanding and appreciation of a complicated but entrancing painter book jacket *Beyond the Visible: The Art of Odilon Redon* Jodi Hauptman, 2005 Caught between description and dream the felt and the imagined French artist Odilon Redon whose career bridged the 19th and 20th centuries transformed the natural world into nightmarish visions and bizarre fantasies Closely allied with the Symbolist movement Redon offered his own interpretations of literary biblical and mythological subjects created a universe of strange hybrid creatures and presented landscape in a singular way we see grinning disembodied teeth smiling spiders melancholic floating faces winged chariots unfamiliar plant life and velvety black or colored swirls of atmosphere With a recent gift from the Ian Woodner family The Museum of Modern Art is now the site of the most significant body of the artist's work outside France and this book will showcase the full range of Redon's varied oeuvre charcoal noirs luminous pastels richly textured canvases literary collaborations and experiments in printmaking and will illuminate the hold his particular kind of modernism has had on both 20th century and contemporary artists *Losing Our Heads* Regina Janes, 2005-08 What is the fascination that decollation holds for us as individuals and as a culture Why does the idea make us laugh and the act make us close our eyes *Losing Our Heads* explores in both artistic and cultural contexts the role of the chopped off head It asks why the practice of decapitation was once so widespread why it has diminished but not as scenes from contemporary Iraq show completely disappeared and why we find it so peculiarly repulsive that we use it as a principal marker to separate ourselves from a more barbaric or primitive past Although the topic is grim Regina Janes's treatment and conclusions are neither grisly nor gruesome but continuously instructive about the ironies of humanity's cultural nature Bringing to bear an array of evidence the book argues that the human ability to create meaning from the body motivates the practice of decapitation its diminution the impossibility of its extirpation and its continuing fascination Ranging from antiquity to the late nineteenth century passion for Salom and John the Baptist and from the enlightenment to postcolonial Africa's challenge to the severed head as sign of barbarism *Losing Our Heads* opens new areas of investigation enabling readers to understand the shock of decapitation and to see the value in moving past shock to analysis Written with penetrating wit and featuring striking illustrations it is sure to captivate anyone interested in his or her head **Art Books** Wolfgang M. Freitag, 2013-10-28 First published in 1997 For this second edition of *Art Books A Basic Bibliography of Monographs on Artists* the vast number of new books published since 1985 was surveyed and evaluated This has resulted in the selection of 3 395 additional titles These selections reflective of the increase in the monographic literature on artists during the last ten years are evidence of the activities of a larger number of art historians in more countries worldwide of the increasingly diverse and ambitious exhibition programs of museums whose number has also increased dramatically and also of a lively international art market and the attendant gallery activities The

selections of the first edition have been reviewed errors have been corrected and important new editions and reprints have been noted The second edition contains 278 names of artists not represented in the first edition      **Color, Space, and Creativity** Jack Stewart,2008 This study of Virginia Woolf D H Lawrence Joyce Cary Lawrence Durrell and A S Byatt focuses on color space and creativity in selected novels stories travel texts essays and letters Stewart highlights a nexus of color space and creativity that takes on ontological dimensions in the writing of five writers who are linked by stylistic affinities and correspondingly calibrated sensibilities They engage writing with painting and their acts of attention converge in a zone where color space and creativity sustain the imaginative life world of their characters This study should lead to ongoing reflections on the roles of color and space in modernist and postmodernist texts and direct attention to the subtle and pervasive interactions of literature with painting BOOK JACKET      **Fantastic Creatures in Mythology and Folklore** Juliette Wood,2018-08-23 Drawing on historical sources myth and folklore *Fantastic Creatures in Mythology and Folklore* explores the roles of fantastical beasts particularly the unicorn the mermaid and the dragon in a series of thematic chapters organised according to their legendary dwelling place be this land sea or air Through this original approach Juliette Wood provides the first study of mythical beasts in history from the medieval period to the present day providing new insights into the ways these creatures continue to define our constantly changing relationship to both real and imagined worlds It places particular emphasis on the role of the internet computer games and the cyberspace community and in doing so demonstrates that the core medieval myth surrounding these creatures remains static within the ever increasing arena of mass marketing and the internet This is a vital resource for undergraduates studying fantastic creatures in history literature and media studies      *Biblical Reception*, 5 J. Cheryl Exum,David J. A. Clines,Diane Apostolos-Cappadona,2018-06-28 In this guest edited issue of *Biblical Reception* edited by Diane Apostolos Cappadona contributors examine the reception of the bible in art Most of the contributions focus on biblical women or on encounters with women in the bible The volume is roughly chronological in structure beginning with two pieces on Eve one of which compares representations of Eve with those of the Virgin Mary the other which considers how Eve is presented in Islamic texts and images Following a contribution on Esther and Sarah the volume moves on to consider New Testament texts with notable focus on women at the peripheries of society the woman with the hemorrhage in Mark's gospel and the woman of Samaria Attention is also paid to representations of Mary Magdalene and of Judith and Salome The volume concludes with a piece on apocalyptic imagery and the woman clothed with the sun of Revelation 12 Featuring over 50 high quality color images this volume provides scholarship of the highest level on biblical art      *The Graphic Works of Odilon Redon* Odilon Redon,2013-02-20 A prominent Symbolist and a precursor to the Surrealists Redon transformed common subjects into fantastic images depicting serpents skeletons and monsters with a distinctive style of realism 172 lithographs plus 37 etchings and engravings      **Tony Fomison** Mark Forman,2025-03-13 he wanted to make room at the back of our heads From the introduction by the authorIn a career spanning three decades

Olson,2013-03-05 This volume explores the mutual influences between children s literature and the avant garde Olson places particular focus on fin de si cle Paris where the Avant garde was not unified in thought and there was room for modernism to overlap with children s literature and culture in the Golden Age The ideas explored by artists such as Florence Upton Henri Rousseau Sir William Nicholson Paula Modersohn Becker and Marc Chagall had been disseminated widely in cultural productions for children their work in turn influenced children s culture These artists turned to children s culture as a new way of seeing allied to a contemporary interest in international artistic styles Children s culture also has strong ties to decadence and to the grotesque the latter of which became a distinctively Modernist vision This book visits the qualities of the era that were defined as uniquely childlike the relation of childhood to high and low art and the relation of children s literature to fin de si cle artistic trends Topics of interest include the use of non European figures the Golliwogg approaches to religion and pedagogy to oppression and motherhood to Nature in a post Darwinian world and to vision in art and life Olson s unique focus covers new ground by concentrating not simply on children s literature but on how childhood experiences and culture figure in art

**Potential Images** Dario Gamboni,2002 In Potential Images Dario Gamboni explores ambiguity in modern art considering images that rely to a great degree on a projected or imaginative response from viewers to achieve their effect Ambiguity became increasingly important in late 19th and early 20th century aesthetics as is evidenced in works by such artists as Redon Cezanne Gauguin Ensor and the Nabis Similarly the Cubists subverted traditional representational conventions requiring their viewers to decipher images to extract their full meanings The same device was taken up in the various experiments leading to abstraction For example it was Kandinsky s intention that his work could be interpreted in both figurative and non figurative ways and Duchamp s Readymades suggested the radical conclusion that it is the beholder who makes the picture These invitations to viewers to participate in the process of artistic communication had social and political implications as they accorded artist and beholder symmetrical almost interchangeable roles
