Nature Has No Borders Nationals And Conservation Association:

Protected Areas and the Regional Planning Imperative in North America James Gordon Nelson, Lucy M. Sportza, 2003
Based on a workshop on Regional Approaches to Parks and Protected Areas in North America held at Tijuana Mexico March 1999 p xv

Transboundary Policy Challenges in the Pacific Border Regions of North America Donald K. Alper, John Chadwick Day, James Loucky, 2008 Transboundary Policy Challenges responds to a growing interest in borderlands environmental policy by highlighting significant transboundary research and practices being undertaken within and across the Pacific border regions of North America Growing concern about the seriousness of environmental problems particularly in high growth border areas coupled with the rising awareness of the complexities entailed in wise development decisions has spurred recognition that new realities require new responses Critical for effective environmental protection restoration and education is a sharing of understanding and effort across borders Transboundary Policy Challenges advances transborder environmental research and discusses sensible policy directions with particular focus on critical areas of international concern and engagement land and water use planning regional growth management trade and transportation corridors environmental education and travel and tourism Contributors to the volume represent a range of disciplines as well as institutions in Canada the United States and Mexico

Political Culture and Public Policy in Canada and the United States John C. Pierce, 2000 This text focuses on the shared Pacific West political arena of Washington State and the province of British Columbia but has many implications for comparison drawn at the national level Using multiple methodologies the book reports the results of investigative differences in the two countries including political cultures and public preferences in three major areas of public policy native claims immigration and forest resource management

Ski Trails and Wildlife Eric Burr, 2008-05-08 Snow sports are usually the first step to learning about snow country wildlife which is only as safe as knowledgeable people want it to be Unfortunately knowledge is too often lacking and skiing is perceived as detrimental too wildlife Reality is that skiing in all its many forms from ski lift resorts to far flung Scandinavian style ski touring holds the keys to wildlife conservation and restoration No amount of litigation can change this basic fact of life although the Mineral King Case from the Supreme Court of the United States certainly changed the legal landscape for all environmental litigation Mineral King s near miss at becoming another ski lift avalanche disaster area preceded Early Winters another almost ski lift area which shares the honor of being a Supreme Court case and is the last chapter of this book Olympic National Park is the other ski history explored so that the National Parks are given equal emphasis with America s National Forests and Canada s Crown Lands An extensive bibliography also includes many electronically available sources The language is not technical and no prior experience with either skiing or wildlife is presumed The book is primarily written for both skiing and wildlife enthusiasts who may not know much about each other It is intended as a peace offering to hopefully prevent future ski wars and unnecessary trips through the legal system That effort could be better spent restoring

wildlife and the life support system of our circumpolar boreal forest Boise National Forest (N.F), Silver Creek Integrated Resource Project ,2000 **Economic Development and Environmental Protection** Thomas Michael Power,2015-05-20

This text takes issue with the notion that economic well being of people derives only from quantitatively expanding commercial business activity It argues that economic qualities flow from the natural and social environment and that they are public not private in character **An Assessment of Ecosystem Components in the Interior Columbia Basin and Portions of the Klamath and Great Basins** ,1997 **General Technical Report PNW-GTR** ,1999 *Characterization and Assessment of Economic Systems in the Interior Columbia Basin* David L. Fluharty,2000 **Park Science** ,1994

Journal of Borderlands Studies ,1996 **Transfrontier Conservation in Africa** Maano Ramutsindela,2007

Transfrontier conservation is a global concept which encompasses the protection of biodiversity spanning the borders of two or more countries in ways that support local economic development international relations and peace Nowhere is this more relevant but highly debatable than in Africa which is home to a third of the world s terrestrial biodiversity while at the same time hosting its poorest nations This is one of the first books to account for the emergence of transfrontier conservation in Africa against international experiences in bioregional planning The roles of the state and local populations are analysed as well as the ecological socio economic and political implications Activism across Borders since 1870 Daniel Laqua,2023-08-10

From the Occupy protests to the Black Lives Matter movement and school strikes for climate action the twenty first century has been rife with activism Although very different from one another each of these movements has created alliances across borders with activists stressing that their concerns are not confined to individual nation states In this book Daniel Laqua shows that global efforts of this kind are not a recent phenomenon and that as long as there have been borders activists have sought to cross them Activism Across Borders since 1870 explores how individuals groups and organisations have fostered bonds in their quest for political and social change and considers the impact of national and ideological boundaries on their efforts Focusing on Europe but with a global outlook the book acknowledges the importance of imperial and postcolonial settings for groups and individuals that expressed far reaching ambitions From feminism and socialism to anti war campaigns and green politics this book approaches transnational activism with an emphasis on four features connectedness ambivalence transience and marginality In doing so it demonstrates the intertwined nature of different movements problematizes transnational action discusses the temporary nature of some alliances and shows how transnationalism has been used by those marginalized at the national level With a broad chronological perspective and thematic chapters it provides historical context clarifies terms and concepts and offers an alternative history of modern Europe through the lens of activists movements and campaigns The Great New Wilderness Debate J. Baird Callicott,Michael P. Nelson,1998

The Great New Wilderness Debate is an expansive wide ranging collection that addresses the pivotal environmental issues of the modern era This eclectic volume on the varied constructions of wilderness reveals the

recent controversies that surround those conceptions and the gulf between those who argue for wilderness preservation and those who argue for wise use J Baird Callicott and Michael P Nelson have selected thirty nine essays that provide historical context range broadly across the issues and set forth the positions of the debate Beginning with such well known authors as Ralph Waldo Emerson Henry David Thoreau John Muir and Aldo Leopold the collection moves forward to the contemporary debate and presents seminal works by a number of the most distinguished scholars in environmental history and environmental philosophy The Great New Wilderness Debate also includes essays by conservation biologists cultural geographers environmental activists and contemporary writers on the environment

American Forestry ,1920 Park and Cemetery and Landscape Gardening ,1916 Modern Cemetery ,1916 Unique Environmentalism Gunnar Grendstad,Per Selle,Kristin Stromsnes,Oystein Bortne,2006-11-28 their collective action The more unique the case the more we need to study it not only to understand the case itself but also to understand the structure and limits of environmentalism in general We hope that we have been able to show the value of this research strategy The way we have organized our study is different from the Routes study 2003 This study emphasizes the importance of different environmental cultures and of political conjunctures in a single country of which different environmental groups take advantage We are not arguing against the fact that branches of environmentalism have features in common across countries e g animal rights and antinuclear movements However we would not go as far as the Routes study We argue that looking at political conjunctures even if important does not tell the whole story Researchers need to understand the broader context in which political conjunctures and environmental culture operate

The Carpathians: Integrating Nature and Society Towards Sustainability Jacek Kozak,Katarzyna Ostapowicz,Andrzej Bytnerowicz,Bartłomiej Wyżga,2013-04-15 The book includes a broad spectrum of perspectives from different scientific disciplines both the natural and social sciences as well as practical knowledge It gives a new insight into the Carpathian mountain region

Strengthening national capacities of producer organizations - Oman Food and Agriculture Organization of the United Nations,2022-06-13 This document presents the main finding of this project in the Oman to support the strengthening of producer organizations in agriculture and fisheries The results of this work provide a basis for the formulation of a national plan of action that reflects the needs of smallholder farmers and fishers to ultimately contribute to their empowerment Part 1 provides an overview of the various existing forms of collective action and the institutional framework regulating them Part 2 describes the objectives methodology and components of the project implemented by FAO highlighting the results obtained for the three target groups of the project the Omani Agricultural Association the Aflaj and the Coastal Women
