**Symbols of Freemasonry and the Greater Mysteries of Antiquity** Jirah Dewey Buck, 1910      *Self and Symbolism in the Poetry of Michelangelo, John Donne and Agrippa D'Aubigne* A.B. Altizer, 2012-12-06 Alienation ecstasy death rebirth in the poetry of Michelangelo Donne and d Aubigne these archetypal themes make possible the ultimate formulation of new poetic symbolizations of self and world As their poetry evolves from a primarily rhetorical towards a fully symbolic mode images of loss of self in ecstasy or in alienation of death and rebirth recur with increasing frequency and intensity Whether the context is love poetry or religious poetry the basic problem remains the same love is the link between the two kinds of poetry And love is indeed a problem for these three poets since it involves the self in relation to the other the other being either God or another human being Increasingly the work of each poet centers on a need to analyze or abolish the gulf separating subject and object self and other The dominant mode of most of the three poets work is neither rhetorical nor symbolic but expressive This transitional mode reveals the individual poet s most urgent concerns and conflicts his sense of self in Its most isolated or burdensome affirmative or struggling state Under lying most of their poems is a profound self consciousness a heightened awareness of self as a powerful separate entity with a corresponding objectification of all reality outside of self The Renaissance in general is a time of increasing individualism and 1 self consciousness      Baudelaire and Nature F. W. Leakey, 1969      **Symbols** Raymond Firth, 2011 This book first published in 1973 offers a broad survey of the study of symbolic ideas and behaviour The study of symbolism is popular nowadays and anthropologists have made substantial contributions to it Raymond Firth has long been internationally known for his field research in the Solomons and Malaysia and for his theoretical work on kinship economics and religion Here from a new angle he has produced a broad survey of the study of symbolic ideas and behaviour Professor Firth examines definitions of symbol He traces the history of scientific inquiry into the symbolism of religious cults mythology and dreams back into the eighteenth century He compares some modern approaches to symbolism in art literature and philosophy with those in social anthropology He then cites examples in anthropological treatment of symbolic material from cultures of varying sophistication Finally he offers dispassionate analyses of symbols used in contemporary Western situations from hair styles to the use and abuse of national flags from cults of Black Jesus to the Eucharistic rite In all this Professor Firth combines social and political topicality with a scholarly and provocative theoretical inquiry      *Sex As Symbol* Ph. D. Alvin Kuhn, 2005-12-01 There is a fell quality to the mating urge that gives it the force of a natural and unimpeachable authority which appears for a time to sweep away every obstacle and override the obstructing power of every consideration whether of advantage or injury It carries a virtual cosmic sanction with it from Love and Hate How does gender and the sex drive manifest itself across human cultures How is the dual nature of humanity male and female spiritual and physical animal and divine expressed in the tangible world Alvin Boyd Kuhn a prominent proponent of the early 20th century doctrine of theosophy which sought to find the universal truths that underlie all human religions here explores the hidden connections across cultures that unify rites and customs found around the globe
