Guncrazy America Frank N. Egerton, 2018-10-06 The conclusion of this professor historian emeritus is that our gun culture had its uses in establishing American civilization as slavery did But we came to recognize after a bloody civil war that slavery was a gigantic mistake and now I think it s time to realize that our gun culture was a similarly gigantic mistake though of a different kind And we need to do what we can to minimize its horrible impacts and move on to a more positive development of a humane civilization

Environmental Crime and its Victims Toine Spapens, Rob White, Marieke Kluin, 2016-05-06 Environmental crime is one of the most profitable and fastest growing areas of international criminal activity These types of crime however do not always produce an immediate consequence and the harm may be diffused As such the complexity of victimization in terms of time space impact and who or what is victimized is one of the reasons why governments and the enforcement community have trouble in finding suitable and effective responses This book provides a diverse and provocative array of arguments critiques and recommendations from leading researchers and scholars in the field of green criminology The chapters are divided into three main sections the first part deals with specific characteristics of some of the major types of environmental crime and its perpetrators the second focuses explicitly on the problem of victimization in cases of environmental crime and the third addresses the question of how to tackle this problem Discussing these topics from the point of view of green criminological theory sociology law enforcement community wellbeing environmental activism and victimology this book will be of great interest to all those concerned about crime and the environment

Animals Matter Marc Bekoff, 2007-11-13 Nonhuman animals have many of the same feelings we do They get hurt they suffer they are happy and they take care of each other Marc Bekoff a renowned biologist specializing in animal minds and emotions guides readers from high school age up including older adults who want a basic introduction to the topic in looking at scientific research philosophical ideas and humane values that argue for the ethical and compassionate treatment of animals Citing the latest scientific studies and tackling controversies with conviction he zeroes in on the important questions inviting reader participation with thought experiments and ideas for action Among the questions considered Are some species more valuable or more important than others Do some animals feel pain and suffering and not others Do animals feel emotions Should endangered animals be reintroduced to places where they originally lived Should animals be kept in captivity Are there alternatives to using animals for food clothing cosmetic testing and dissection in the science classroom What can we learn by imagining what it feels like to be a dog or a cat or a mouse or an ant What can we do to make a difference in animals quality of life Bekoff urges us not only to understand and protect animals especially those whose help we want for our research and other human needs but to love and respect them as our fellow beings on this planet that we all want to share in peace

Exploiting the Wilderness Greg L. Warchol, 2017-11 Illegally harvested ivory and

endangered plants mammals reptiles birds and even insects are easily found for sale throughout East and Southern Africa And this is just one part of the multi billion dollar illegal global trade in wildlife Wildlife is an important and even vital asset for both intrinsic and economic reasons Yet it is illegally exploited on a massive scale to the point where some species now risk extinction Exploiting the Wilderness provides a concise overview of this shameful business describing some of the main species being exploited and examining select wildlife whose survival is imperiled due to heavy pressure from poachers to meet consumer demand Greg Warchol draws on his firsthand experience and research in Africa to examine the structure and operation of the illegal trade in wildlife He identifies the participants as well as their motivations and operations and explains the behavior of poachers traffickers and consumers of illegally obtained goods He concludes with a description of legislative and law enforcement efforts to control and prevent wildlife exploitation along with a number of contemporary conservation initiatives designed to improve the ability of rangers to protect wildlife

Encyclopedia of Law Enforcement Larry E Sullivan, 2005 Vols 1 and 2 cover U S law enforcement Vol 3 contains articles on individual foreign nations together with topical articles on international law enforcement

Wild Lives Kathleen Weidner Zoehfeld, 2014-06-30 From the moment the very first animals two small bedraggled prairie dogs arrived at the Bronx Zoo in 1899 history was being made Zookeeping has steadily been evolving over the years Today animals that would once have been kept in iron cages roam freely in habitats similar to real prairies jungles and forests Wild Lives takes readers through a century of zookeeping at one of the most beloved zoos in the world and shares what zoologists have learned over the years about keeping wild animals

[You Belong in a Zoo!](#) Peter Brazaitis, 2007-12-18 From catching alligators in the reservoirs of New York and capturing giant crocodiles in Venezuela and giant frogs in West Africa to finding mummified human heads in a Bronx apartment eels on a bus cobras on the loose and crocodiles that make change a memoir of one man s career working with exotic reptiles and other animals After the teenage Peter Brazaitis brought home one creepy crawly creature too many his stepmother declared You are an animal and you belong in a zoo He took her at her word He went directly from high school in Brooklyn to a job at the Reptile House at the Bronx Zoo where he stayed for more than thirty years eventually becoming superintendent of reptiles He later became curator of the Central Park Zoo and continues to work with law enforcement as a forensic specialist in the fight to stop illegal importation and slaughter of reptiles for the luxury exotic leather industry His effectiveness at this would earn him the moniker The Bald Headed Snake Keeper in the Bronx You Belong in a Zoo presents the amazing experiences Brazaitis has had in more than four decades of working with wild animals Enlightening funny and often outrageous You Belong in a Zoo is a fascinating behind the scenes look at zoos animal people and some of nature s most extraordinary creatures

Dreaming of Animals Valerie Harms, 2005 What are the links between the inner world of our imagination emotions and thoughts and the outer world where we encounter animals Can it be that the psychological and ecological are one and the same This book shows how their convergence might alter our perception of community Currently the connection between people and animals

appears dysfunctional because of the accelerated loss of species Since we will not save what we do not love this book seeks to restore the honor and importance of animals Dreams including daydreams thoughts ideas cultural myths and sleep dreams have positive and negative consequences in the world In order to help heal ourselves and the Earth this book dives deeply into the lives of many animals documents our relationship to them over time and shows how to work with dreams and dialogues A great emotion transforming in effect is released when we take the beauty and power of dream animals to heart

Encyclopedia of Environment and Society Paul Robbins, 2007-08-27 As befits the topic this beautifully packaged wonderfully illustrated interdisciplinary resource has more than 1200 entries written by specialists A helpful reader's guide groups topics like agriculture conservation and ecology movements and regulations politics pollution and society A resource guide chronology glossary and list of the UN's economic indicators complete the set Library Journal this important work gives a well focused snapshot of environmentalism in the early 21st Century and it will remain valuable into the future both for its content and as a yardstick to measure progress toward sustainability and conservation Summing Up Recommended Undergraduates and general readers CHOICE Booklist Editors Choice 2008 This superb interdisciplinary work should find a place on the shelves of every public and academic library that has the least bit of interest in environment issues which should mean just about all Booklist Starred Review Where does the environment leave off and society begin When expanding production and consumption drives greenhouse gas emissions that warm the planet which in turn influence the conditions of economic expansion it is unclear where the climate ends and the economy begins This fact is not new to our era however our social and natural sciences have only recently come to grips with the incredible complexity of the world described by understanding the environment and society as being of a piece As a result in the last decade there has been an unprecedented explosion of new concepts theories facts and techniques that follow from such an understanding The Encyclopedia of Environment and Society brings together multiplying issues concepts theories examples problems and policies with the goal of clearly explicating an emerging way of thinking about people and nature With more than 1 200 entries written by experts from incredibly diverse fields this innovative resource is a first step toward diving into the deep pool of emerging knowledge The five volumes of this Encyclopedia represent more than a catalogue of terms Rather they capture the spirit of the moment a fascinating time when global warming and genetic engineering represent only two of the most obvious examples of socio environmental issues Key Features Examines many new ideas about how the world works what creates the daunting problems of our time and how such issues might be addressed whether by regulation markets or new ethics Demonstrates how theories of environmental management based on market efficiency may not be easily reconciled with those that focus on population and both may certainly diverge from those centering on ethics justice or labor Offers contributions from experts in their fields of specialty including geographers political scientists chemists anthropologists medical practitioners development experts and sociologists among many others Explores the emerging socio

environmental problems that we face in the next century as well as the shifting and expanding theoretical tools available for tackling these problems Covers regions of North America in greater detail but also provides a comprehensive picture that approaches as effectively as possible a cohesive global vision Key Themes Agriculture Animals Biology and Chemistry Climate Conservation and Ecology Countries Geography History Movements and Regulations Organizations People Politics Pollution Society Packed with essential and up to date information on the state of the global socio environment the Encyclopedia of Environment and Society is a time capsule of its historic moment and a record of where we stand at the start of the 21st century making it a must have resource for any library These inspiring volumes provide an opportunity for more new ways of thinking behaving and living in a more than human world *Encyclopedia of Police Science* Jack Raymond Greene,2006-10-23 In 1996 Garland published the second edition of the Encyclopedia of Police Science edited by the late William G Bailey The work covered all the major sectors of policing in the US Since then much research has been done on policing issues and there have been significant changes in techniques and in the American police system Technological advances have refined and generated methods of investigation Political events such as the terrorist attacks of September 11 2001 in the United States have created new policing needs while affecting public opinion about law enforcement These developments appear in the third expanded edition of the Encyclopedia of Police Science 380 entries examine the theoretical and practical aspects of law enforcement discussing past and present practices The added coverage makes the Encyclopedia more comprehensive with a greater focus on today s policing issues Also added are themes such as accountability the culture of police and the legal framework that affects police decision New topics discuss recent issues such as Internet and crime international terrorism airport safety or racial profiling Entries are contributed by scholars as well as experts working in police departments crime labs and various fields of policing *Carnivore Conservation* John L. Gittleman,2001-06-28 Carnivores are the focus of intense attention and resources in conservation biology It is often argued that because carnivores are at the top of the food chain if they are protected then other taxa will also be afforded adequate protection Carnivores are also charismatic and compete with humans for dwindling space and environmental resources In the past 10 years theoretical and empirical studies on carnivores have developed very quickly This volume reviews and summarises the current state of the field describes limitations and opportunities for carnivore conservation and offers a conceptual framework for future research and applied management As such it will be of interest to students and researchers of conservation biology mammalogy animal behaviour ecology and evolution **The Encyclopedia of Police Science** Jack R. Greene,2007 First published in 1996 this work covers all the major sectors of policing in the United States Political events such as the terrorist attacks of September 11 2001 have created new policing needs while affecting public opinion about law enforcement This third edition of the Encyclopedia examines the theoretical and practical aspects of law enforcement discussing past and present practices American Book Publishing Record Cumulative 1998 R R Bowker Publishing,1999-03 The Library
