

Natures Religion

Nicola Laneri, Anna Perdibon

Natures Religion:

Nature's Religion Robert S. Corrington, 1997-10-16 In the wake of both the semiotic and the psychoanalytic revolutions how is it possible to describe the object of religious worship in realist terms Semioticians argue that each object is known only insofar as it gives birth to a series of signs and interpretants new signs From the psychoanalytic side religious beliefs are seen to belong to transference energies and projections that contaminate the religious object with all too human complexes In *Nature's Religion* distinguished theologian and philosopher Robert S Corrington weaves together the concept of infinite semiosis with that of the transference to show that the self does have access to something in nature that is intrinsically religious Corrington argues that signs and our various transference fields can and do connect us with fully natural religious powers that are not of our own making thereby opening up a path past the Western monotheisms to a capacious religion of nature With a foreword by Robert C Neville *Nature's Religion* is essential reading for philosophers of religion scholars of the psychology of religion and theologians [Nature Religion in America](#) Catherine L. Albanese, 1991-09-24 Charts the multiple histories of American nature religion and explores the moral and spiritual responses the encounter with nature has provoked throughout American history Traces the connections between movements and individuals Includes figures from popular culture such as the Hutchinson Family Singers and Davy Crockett as well as Thomas Jefferson Ralph Waldo Emerson Henry David Thoreau and John Muir [A Religion of Nature](#) Donald A. Crosby, 2012-02-01 The beauty sublimity and wonder of nature have been justly celebrated in all of the religious traditions of the world but usually these traditions have focused on beings or powers presumed to lie behind nature providing nature's ultimate explanation and meaning In a radical departure Donald A Crosby makes an eloquent case for regarding nature itself as the focus of religion conceived without God gods or animating spirits of any kind and argues that nature is metaphysically ultimate He explores the concept of nature the place of humans in nature the responsibilities of humans to one another and to their natural environments and offers a religious vision that grants to nature the kind of reverence awe love and devotion formerly reserved for God Crosby also shares his personal journey from theistic faith to a religion of nature

Encyclopedia of Religion and Nature Bron Taylor, 2008-06-10 The Encyclopedia of Religion and Nature originally published in 2005 is a landmark work in the burgeoning field of religion and nature It covers a vast and interdisciplinary range of material from thinkers to religious traditions and beyond with clarity and style Widely praised by reviewers and the recipient of two reference work awards since its publication see www.religionandnature.com earn this new more affordable version is a must have book for anyone interested in the manifold and fascinating links between religion and nature in all their many senses **God's Action in Nature's World** Nathan Hallanger, 2016-04-22 In 1981 Robert John Russell founded what would become the leading center of research at the interface of science and religion the Center for Theology and the Natural Sciences Throughout its twenty five year history CTNS under Russell's leadership has continued to guide and further

the dialogue between science and theology Russell has been an articulate spokesperson in calling for creative mutual interaction between the two fields

God's Action in Nature's World brings together sixteen internationally recognized scholars to assess Robert Russell's impact on the discipline of science and religion Focusing on three areas of Russell's work: methodology, cosmology and divine action in quantum physics, this book celebrates Robert John Russell's contribution to the interdisciplinary engagement between the natural sciences and theology

Natural Religion and the Nature of Religion Peter Byrne, 2013-05-02 This study offers students of religion and philosophy introductory chapters concerning the concept of natural religion It holds that we can't engage in useful discussion about the present concept of religion without a knowledge of the philosophical history that has shaped that concept This is discussed with reference to the notion of natural religion to illustrate certain aspects of deism and its legacy Originally published in 1989

Nature and Scripture in the Abrahamic Religions: God, Scripture and the rise of modern science (1200-1700) Jitse M. van der Meer, Scott Mandelbrote, 2008 These volumes describe how the development of the different styles of interpretation found in reading scripture and nature have transformed ideas of both the written word and the created world

Romanism the Religion of Human Nature Richard Whately (Archbishop of Dublin.), 1878

Religion and Environmentalism Lora Stone, 2020-07-01 A foundational resource for readers investigating religiously motivated environmentalism this book provides both a global overview of the subject and a detailed discussion of key figures, concepts, organizations, events and documents Beginning in the late 1960s a growing number of activists, scholars and scientists asserted that traditional religions had been major contributors to the environmental crisis In response theologians, religious organizations and religiously motivated activists became increasingly involved in environmental issues At the same time emerging nature based belief systems emphasized values and lifestyles based in environmentalism More recently religiously motivated environmentalism has become a powerful force in shaping environmental policy and human action globally and has joined with secular environmentalism to address related issues This book explores the background and current state of religious environmentalism The book begins with an overview essay examining the history and context of religious environmentalism and its significance today A chronology then profiles the most important events related to religious environmentalism A section of more than 50 alphabetically arranged reference entries follows with each entry providing objective information about people, places, events, movements, works and other topics The entries include cross references and suggestions for further reading and the book closes with a selected annotated bibliography of major works

The Rights of Nature Roderick Frazier Nash, 1989-01-17 Charting the history of contemporary philosophical and religious beliefs regarding nature Roderick Nash focuses primarily on changing attitudes toward nature in the United States His work is the first comprehensive history of the concept that nature has rights and that American liberalism has in effect been extended to the nonhuman world A splendid book Roderick Nash has written another classic This exploration of a new dimension in environmental ethics is both illuminating and overdue Stewart Udall His

account makes history come alive Sierra So smoothly written that one almost does not notice the breadth of scholarship that went into this original and important work of environmental history Philip Shabecoff New York Times Book Review Clarifying and challenging this is an essential text for deep ecologists and ecophilosophers Stephanie Mills Utne Reader

Dark Green Religion Bron Raymond Taylor, 2010 A love of green may be a human universal Deepening the palette of green scholarship Bron Taylor proves remarkably to be both an encyclopedist and a visionary Jonathan Benthall author of *Returning to Religion Why a Secular Age is Haunted by Faith* This important book provides insight into how a profound sense of relation to nature offers many in the modern world a vehicle for attaining a spiritual wholeness akin to what has been historically associated with established religion In this sense *Dark Green Religion* offers both understanding and hope for a world struggling for meaning and purpose beyond the isolation of the material here and now Stephen Kellert Yale University School of Forestry and Environmental Studies In this thought provoking volume Bron Taylor explores the seemingly boundless efforts by human beings to understand the nature of life and our place in the universe Examining in depth the ways in which influential philosophers and naturalists have viewed this relationship Taylor contributes to the further development of thought in this critically important area where our depth of understanding will play a critical role in our survival Peter H Raven President Missouri Botanical Garden Carefully researched strongly argued originally conceived and very well executed this book is a vital contribution on a subject of immense religious political and environmental importance It s also a great read Roger S Gottlieb author of *A Greener Faith Religious Environmentalism and our Planet s Future* A fascinating analysis of our emotional and spiritual relationship to nature Whether you call it dark green religion or something else Bron Taylor takes us through our spiritual relationship with our planet its ecosystems and evolution in an enlightened and completely undogmatic manner Dr Claude Martin Former Director General World Wildlife Fund An excellent collection of guideposts for perplexed students and scholars about the relationships of nature religions spirituality animism pantheism deep ecology Gaia and land ethics and for the environmentalist seeking to make the world a better place through green religion as a social force Fikret Berkes author of *Sacred Ecology Traditional Ecological Knowledge and Resource Management* *Dark Green Religion* shows conclusively how nature has inspired a growing religious movement on the planet contesting the long reign of many older faiths Taylor expertly guides us through an astonishing array of thinkers past and present who have embraced in part or whole the new religion I was thoroughly convinced that this movement has indeed become a major force on Earth with great potential consequences for our environmental ethics Donald Worster University of Kansas In this exceptionally interesting and informative book Bron Taylor has harvested the fruits of years of pioneering research in what amounts to a new field in religious studies the study of how religious spiritual themes show up in the work of people concerned about nature in many diverse ways Taylor persuasively argues that appreciation of nature s sacred or spiritual dimension both informs and motivates the work of individuals ranging from radical environmentalists and surfers to

eco tourism leaders and museum curators I highly recommend this book for everyone interested learning more about the surprising extent to which religious spiritual influences many of those who work to protect to exhibit or to represent the natural world Michael E Zimmerman Director Center for Humanities and the Arts University of Colorado at Boulder

Theories of Religion Seth Daniel Kunin,Jonathan Miles-Watson,2006 This book provides a comprehensive selection of readings that relate to and explore the definition of religion The texts come from a wide range of approaches unified both by the questions they are addressing and their broadly social scientific perspective The disciplines covered include anthropology phenomenology psychology and sociology The editors have also included some key texts relating to the feminist approach to and critique of religion The first section of the book includes some of the foundational texts such as materials by Marx Freud and Durkheim The remaining sections look at more recent discussions of the issues from the different disciplinary perspectives Each reading is introduced by a biographical sketch of the author The book also includes introductory discussions to each section that both raise the key issues developed in a particular discipline and address the disciplinary approaches from a more critical stance *Theories of Religion A Reader* is an invaluable critical resource accessible to a broad audience as well as students of theology and religious studies

Faith in the Blessed God: Its Nature, Results, and Reward. A Reprint (by Request) of 19 Lectures from His Commentary on the Epistle to the Hebrews. With a Preface on the Authority of the Old Testament and a Note on the Passion of Our Lord William Tait (English Chaplain at Pau.),1874

The Sacred Depths of Nature Ursula Goodenough,2023 This eloquent volume reconciles our contemporary scientific understanding of reality with our timeless spiritual yearnings Addressing ideas like evolution emotions sexuality and death *The Sacred Depths of Nature* allows even non scientists to appreciate that the origins of life and the universe are no less meaningful in light of our scientific understanding of them This new edition offers a deepened consideration of emergent properties and emergent dynamics as well as an exploration of their role as the generators of life s complexity Goodenough also expands upon the ethic of ecomorality in a new chapter and incorporates new quotes figures and poems in her analysis

The Good Book of Human Nature Carel van Schaik,Kai Michel,2016-05-24 In *The Good Book of Human Nature* evolutionary anthropologist Carel van Schaik and historian Kai Michel advance a new view of Homo sapiens cultural evolution The Bible they argue was written to make sense of the single greatest change in history the transition from egalitarian hunter gatherer to agricultural societies Religion arose as a strategy to cope with the unprecedented levels of epidemic disease violence inequality and injustice that confronted us when we abandoned the bush and which still confront us today Amazon com

Sacred Nature Nicola Laneri,Anna Perdibon,2022-12-02 *Sacred Nature Animism and Materiality in Ancient Religions* is the second volume of the series *Material Religion in Antiquity MaReA* The book collects the proceedings of the international online workshop carrying the same title organized by CAMNES SoRS on 20 21 May 2021 *Sacred Nature* brings together the perspectives of scholars from different disciplines archaeology anthropology iconography philology history of religions about the notions of

nature sacredness animism and materiality in ancient religions of the Old and the New World The contributions highlight various ways of understandings the relationships that occurred between human beings animals plants rivers deities and the land in the religious life of ancient societies In particular each chapter explores entangled aspects of the perception of nature and its other than human inhabitants and contributes to readdress some notions about nature personhood agency divinity sacrality and materiality spirituality in ancient religions and cosmologies In this line the book seeks to promote a starkly interdisciplinary and religious anthropological approach to the definition of sacred nature especially engaging with the analytical category of animism as a fruitful conceptual tool for the investigation of human environmental relations in the ancient religious conceptions representations and practices Dialoguing with animism and drawing upon the question on how an ancient religion happened materially the volume presents key case studies that explore how nature and its non human inhabitants were understood represented engaged with and interwoven in the sacred and sensuous landscapes of ancients

Ecological Imaginations in the World Religions Tony Watling, 2009-05-01 The field of religion and ecology is an emerging and growing movement that is becoming relevant and influential in the world It seeks to analyse encourage inspire use compare and combine religious traditions to engage and shape environmental issues Tony Watling seeks to ethnographically analyse this important field and its expressions In particular he analyses and compares its explorations of different world religions for ecological themes and the resulting expressions of ecological visions in what he terms religious ecotopias idealized environmentally friendly re imaginings of nature and humanity and correspondingly religion which seek to influence environmental attitudes

In Our Own Image Wesley J. Wildman, 2017 This study provides a comprehensive systematic classification comparison and evaluation of the major classes of theories of ultimate reality It offers compelling analyses of anthropomorphism and apophaticism including tracing multiple dimensions of anthropomorphism in various models of ultimate reality

Nature, God and Humanity Richard L. Fern, 2002-04-04 Nature God and Humanity clarifies the task of forming an ethics of nature thereby empowering readers to develop their own critical faith based ethics Calling on original thought provoking analyses and arguments Richard L Fern frames a philosophical ethics of nature assesses it scientifically finds support for it in traditional biblical theism and situates it culturally Though defending the moral value of beliefs affirming the radical Otherness of God and human uniqueness this book aims not to compel the adoption of any particular ethic but rather illumine the contribution diverse forms of inquiry make to an ethics of nature How does philosophy clarify moral conviction What does science tell us about nature Why does religious faith matter Rejecting the illusion of a single rationally compelling ethics Fern answers these questions in a way that fosters both agreement and disagreement allowing those holding conflicting ethics of nature to work together for the common good

The Nature and Destiny of Man Reinhold Niebuhr, 1996-01-01 Thought to be Niebuhr's most significant work as well as one of the few great 20th century works of theology by an American writer considers human nature from a Christian perspective
