Barely four feet tall with a deeply curving spine Steinmetz's physical deformity belies his great intellect Allied with his Mohawk friend Joseph Longboat and his adopted eleven year old granddaughter Midget the advancements he makes in Electric City will quite simply change the world The peak of Autumn 1965 Sophie Levine the daughter of a company man one of the many scientists working at The Company whose electric logo can be seen from everywhere in town Her family escaped Europe just before World War II leaving behind a wake of annihilation and persecution Ensconced in Electric City Sophie is coming of age just as the town is gasping its last breaths The town and America as a whole is on the cusp of great instability blackouts social unrest over Vietnam and soon the advent of the seventies Into her orbit drifts Henry Van Curler the favored son of one of Electric City's founding Dutch families as well as Martin Longboat grandson of Joseph Longboat This new generation of Electric City will face both the history of their town and their own uncertain future struggling to bridge the gap between the old world and the new Electric City is a vital pulsing epic novel of America of its great scientific ingenuity and its emotional ambition one that frames the birth and evolution of its towns against the struggles of its indigenous tribes the immigrant experience a country divided and the technological advancements that ushered in the modern world

Electricity and Its Similitudes Charles Herbert Tyndall,1902 The Liberalization of Electricity and Natural Gas in the European Union Damien Geradin,2001-07-11 In this important book notable European experts in the energy field provide valuable perspectives on the principal issues raised by the liberalisation of the electricity and natural gas markets in the EU Lawyers business people regulators and policymakers who deal with matters and issues in the energy natural resources and environmental fields will find the details and insights presented here of great value **Lightning, Thunder and Lightning Conductors** Gerald Molloy,2023-07-10 In *Lightning Thunder and Lightning Conductors* Gerald Molloy provides an exceptional exploration of atmospheric phenomena focusing particularly on the understanding and significance of lightning and its conductors The book is meticulously structured and features a blend of scientific inquiry and vivid descriptions that showcase Molloy's mastery of both technical detail and engaging prose Written during a period when electrical science was rapidly evolving Molloy's work situates itself within the broader landscape of 19th century scientific literature marrying empirical research with literary flair to illuminate the mysteries of nature's electrostatic discharges Gerald Molloy an Irish priest and physicist was deeply influenced by the burgeoning scientific discoveries of his time which fueled his interest in the natural world A scholar with a keen engagement in the intersection of science and faith Molloy sought to make complex scientific concepts accessible to a wider audience His background in both theology and the natural sciences uniquely positioned him to convey these topics with clarity and passion allowing readers to appreciate the intricacies of lightning a phenomenon that has captivated human curiosity for centuries This book is essential reading for anyone interested in the interplay between science and literature as it not only elucidates the principles of electrical phenomena but also enriches one's appreciation for nature's grandeur Recommended for scholars educators and enthusiasts alike Molloy's work serves as both

a historical document and a timeless inquiry into the forces that shape our understanding of the world **Recreations in Science and Natural Philosophy** Jacques Ozanam, 1844 **Outlines of Natural Philosophy** James Renwick, 1822

Biology, History, and Natural Philosophy A. D. Breck, 2012-12-06 In a world that peers over the brink of disaster more often than not it is difficult to find specific assignments for the scholarly community One speaks of peace and brotherhood only to realize that for many the only real hope of making a contribution may seem to be in a field of scientific specialization seemingly irrelevant to social causes and problems Yet the history of man since the beginnings of science in the days of the Greeks does not support this gloomy thesis Time and again we have seen science precipitate social trends or changes in the humanistic beliefs that have a significant effect on the scientific community Not infrequently the theoretical scientist triggered by society's changing goals and understandings finds ultimate satisfaction in the work of his colleagues in engineering and the other applied fields Thus the major debate in mid nineteenth century in which the evidence of natural history and geology at variance with the Biblical feats provided not only courage to a timid Darwin but the kind of audience that was needed to fit his theories into the broad public dialogue on these topics The impact of Darwinism was felt far beyond the scientific community It affected social thought upset religious certainties and greatly affected the teaching of science
