THE FINANCIAL TIMES BEST BOOKS OF THE YEAR This absorbing collective biography of the genius Nobel family reveals how the Nobels business and personal lives were fundamentally intertwined with the histories of Sweden and Russia as well as the economic and entrepreneurial development of Europe in the long 19th century The name Nobel is mainly associated with the Nobel prize However Alfred Nobel was only one of a family of conspicuously gifted individuals The Nobels who moved from Sweden to Russia in the 1830s ran one of Russia's biggest machine factories and founded the Russian oil industry Using thousands of Nobel family letters and other documents shared here for the first time Bengt Jangfeldt provides a fascinating and authoritative multi generational chronicle charting the family exploits The author describes how the father Immanuel Nobel a polymath architect inventor and engineer set the family on a path to financial success amidst a backdrop of imperial Russian industrial growth He tells the story of how Immanuel's sons Robert and Ludvig and his grandson Emanuel developed the family business into a powerful industrial empire with a progressive agenda in the fields of worker's welfare profit sharing and charity When the Revolution struck in 1917 the family's industrial empire as well as their huge personal wealth were swept away in one go As a result they had to flee the country where they had been active for 80 years and return to Sweden During a time of immense change in Russia and right across Europe the story of the Nobels stands out as one of both brilliance and resilience with family firmly at its heart **The Book of Knowledge** Arthur Mee, 1912
