The Newbies Guide to Using the Internet Steve Pease, 2018-10-07 I wrote this book for people who want to do productive things on the internet to help make their lives easier and better This is not for people who use the internet all the time and use these programs and services I work in a job where I talk to people all over the country every day dealing with computer issues and how they can do things with their computers I see every day how much people don t know how to use their computers and use the internet to make their lives easier and better This book is done with simple explanations to show even a novice how to get the most out of your computers and the internet I set this book up to show you what you can do to make your life easier and better I will show you enough to use the different things and get the benefit out of them If you use it a lot you will see other ways to use it and other things you can do if you get deeper into the specific things We will go through how to use the most used pieces of social media We will go through Facebook Twitter Google plus Instagram Reddit Tumblr We will also go through things like why post things on social media What things should you post What things you should not post What are the best ways to communicate with the people you need or want to keep in contact with We will go over the best search engines and how to use them to find what you are looking for I will go over the best way to store photographs online and your computer I will also go over how to save things you see online How to use the devices you have available anytime to retrieve those things How to use them to make your life easier and better We will go over backing up the things you want to make sure you will have if your computer dies How to use your computer and phone to remember everything you need to remember How to plan things you want to do Where to keep the things you always want to remember and have access to We

will go over Google docsEvernoteOne notePocketWunderlistOnetabGoogle  
calendarBoxDropboxOnedriveIdriveMegaCarboniteWe will also go over some computer terms you hear but you don t know  
what they are How to blogHow to create quick free websites for sharing information with anyone you want How to use email  
Mind mapping to organize your thoughts for any type of project There are a lot of useful and productive things you can do on  
the internet There are also many interesting and fun things you can do The problem is there is a learning curve to most This  
book will get you started and make it so you can use each of the items talked about to make your life easier and better This is  
not a full guide to each of these things This is for people who do not use these sites or not much and want to learn how Many  
of the things we will go over will be useful for most people Like I said this is not a comprehensive guide to teach you all about  
the things in this book This book is for people who want to learn how to use these things and save yourself time and make  
your life more organized Give it a read      Navigating the Internet with Prodigy Ned Johnson,1995 Introducing the reader to  
the Internet and its concepts this book then steps the reader through all the Internet tools that are available through Prodigy  
The coverage of each tool includes numerous real life examples of things to do on the Internet with that particular tool A  
listing of the best Internet resources available in each category in included      Development of a Cognitive Model for
