Nazis Strike:

Screen Nazis Sabine Hake, 2012-08-31 From the late 1930s to the early twenty first century European and American filmmakers have displayed an enduring fascination with Nazi leaders rituals and symbols making scores of films from *Confessions of a Nazi Spy* 1939 and *Watch on the Rhine* 1943 through *Des Teufels General* *The Devil's General* 1955 and *Pasqualino settebellezze* *Seven Beauties* 1975 up to *Der Untergang* *Downfall* 2004 *Inglourious Basterds* 2009 and beyond Probing the emotional sources and effects of this fascination Sabine Hake looks at the historical relationship between film and fascism and its far reaching implications for mass culture media society and political life In confronting the specter and spectacle of fascist power these films not only depict historical figures and events but also demand emotional responses from their audiences infusing the abstract ideals of democracy liberalism and pluralism with new meaning and relevance Hake underscores her argument with a comprehensive discussion of films including perspectives on production history film authorship reception history and questions of performance spectatorship and intertextuality Chapters focus on the Hollywood anti Nazi films of the 1940s the West German anti Nazi films of the 1950s the East German anti fascist films of the 1960s the Italian Naziploitation films of the 1970s and issues related to fascist aesthetics the ethics of resistance and questions of historicization in films of the 1980s 2000s from the United States and numerous European countries [Hollywood's War with Poland, 1939-1945](#) M.B.B. Biskupski, 2010-01-08 This passionate carefully researched richly detailed well written study reveals the political motives behind WWII Hollywood's portrayal of Poles *Choice During World War II* Hollywood studios supported the war effort by making patriotic movies designed to raise the nation's morale Often the characterizations were as black and white as the movies themselves Americans and their allies were heroes while everyone else was a villain The peoples of Norway France Czechoslovakia and England were all good because they had been invaded or victimized by Nazi Germany Yet Poland the first country to be invaded by the Third Reich was repeatedly represented in a negative light In this prize winning study Polish historian M B B Biskupski explores why Biskupski presents a close critical study of prewar and wartime films such as *To Be or Not to Be* *In Our Time* and *None Shall Escape* Through memoirs letters diaries and memoranda written by screenwriters directors studio heads and actors Biskupski examines how the political climate and especially pro Soviet sentiment influenced Hollywood films of the time Winner of the Oscar Halecki Prize A *Choice Outstanding Academic Title* **New Political Ideas in the Aftermath of the Great War** Alessandro Salvador, Anders G. Kj stvedt, 2016-11-10 This edited collection presents new research on how the Great War and its aftermath shaped political thought in the interwar period across Europe Assessing the major players of the war as well as more peripheral cases the contributors challenge previous interpretations of the relationship between veterans and fascism and provide new perspectives on how veterans tried to promote a new political and social order Those who had frontline experience of the First World War committed themselves to constructing a new political and social order in war torn Europe shaped by their

experience of the war and its aftermath A number of them gave voice to the need for a world order free from political and social conflict and all over Europe veterans imagined a third way between capitalist liberalism and state controlled socialism By doing so many of them moved towards emerging fascist movements and became in some case unwillingly the heralds of totalitarian dictatorships

The Rise of Global Powers Anthony D'Agostino,2011-11-17 Does a system of great powers necessarily imply a struggle for world primacy Do great states merely hold onto what is theirs or do they reach for more Anthony D Agostino offers a fascinating new answer to these questions through a fundamental reassessment of the international history of the first half of the twentieth century From the spatial limits of a purely European great power politics the book looks out to the new horizon of world politics From the time limits of 1914 to 1945 it considers the interface with nineteenth century imperialism at one end and the impact of the world wars on the Cold War at the other This is a global retelling of the expansion of Europe coming up against its limits in the most violent conflicts and explosive social movements yet known to history the two world wars the Great Depression and the Russian and Chinese revolutions

The British Press and Nazi Germany Kylie Galbraith,2020-12-10 What was known and understood about the nature of the Nazi dictatorship in Britain prior to war in 1939 How was Nazism viewed by those outside of Germany The British Press and Nazi Germany considers these questions through the lens of the British press Until now studies that centre on British press attitudes to Nazi Germany have concentrated on issues of foreign policy The focus of this book is quite different In using material that has largely been neglected Kylie Galbraith examines what the British press reported about life inside the Nazi dictatorship In doing so the book imparts important insights into what was known and understood about the Nazi revolution And because the overwhelming proportion of the British public s only means of news was the press this volume shows what people in Britain could have known about the Nazi dictatorship It reveals what the British people were being told about the regime specifically the destruction of Weimar democracy the ruthless persecution of minorities the suppression of the churches and the violent factional infighting within Nazism itself This pathbreaking examination of the British press coverage of Nazism in the 1930s greatly enhances our knowledge of the fascist regime with which the British Government was attempting to reach agreement at the time

Hitler in the Movies Sidney Homan, Hernán Vera, 2016-04-21 In *Hitler in the Movies* Finding Der F hrer on Film a Shakespearean and a sociologist explore the fascination our popular culture has with Adolf Hitler What made him Hitler Do our explanations tell us more about the perceiver than the actual historical figure We ask such question by viewing the Hitler character in the movies How have directors actors film critics and audiences accounted for this monster in a medium that reflects public tastes and opinions The book first looks at comedic films such as Chaplain s *The Great Dictator* or Ernst Lubitsch s *To Be or Not to Be* 1942 along with the Mel Brooks s 1983 version Then there is the Hitler of fantasy from trash films like *The Saved Hitler s Brain* to a serious work like *The Boys from Brazil* where Hitler is cloned Psychological portraits include Anthony Hopkins s *The Bunker* the surreal *The Empty Mirror* and Max a portrait of Hitler in his days in Vienna as a would be artist Documentaries and docudramas range from Leni Reinfenstahl s iconic *The Triumph of the Will* or *The Hidden F hrer* to the controversial *Hitler A Film from Germany* and Quentin Tarantino s fanciful *Inglourious Basterds* *Hitler in the Movies* also considers the ways Der F hrer remains today as a ghostly presence if not an actual character Why is he still with us in everything from political smears to video games to merchandise In trying to explain this and the man himself what might we learn about ourselves and our society
