

NEAR DEATH EXPERIENCE: A HOLOGRAPHIC EXPLANATION

"Harding...tackles a very difficult topic, and he does so with humility and conviction, a combination of features all too rare in works of this type."

*Professor George Graham
Maastricht University*

OSWALD G. HARDING Ph.D

Near Death Experience A Holographic Explanation

Susan Blackmore

Near Death Experience A Holographic Explanation:

Near Death Experience Oswald G. Harding Ph. D.,2005-12-01 *What is the New Age?* William P. Frost,1992 This study offers information about the claims and beliefs of the New Age as well as background to the physical biological neurophysiological cultural anthropological psychological and quantum theoretical facts that are part of discussions of this form of holistic spirituality **Near-Death Experience: Scientific Interpretation** Prof. (Dr.) Jai Paul Dudeja,2024-01-02 A Near Death Experience NDE is the recollected experience of someone who has been declared clinically dead by the doctors followed by resuscitation the act of bringing someone back to life Common traits that have been reported by NDErs persons having near dear experiences are An awareness of being dead A sense of peace well being painlessness and other positive emotions a sense of removal from the world an intense feeling of unconditional love and acceptance experiencing euphoric environments an out of body experience OBE that means a perception of one s body from an outside position sometimes observing medical professionals performing resuscitation efforts a tunnel experience or entering a zone of darkness a rapid movement toward a bright light being reunited with deceased loved ones receiving a life review commonly referred to as seeing one s life in a flash back before one s eyes approaching a border or a decision by oneself or others to return to one s body often accompanied by a reluctance to return and suddenly finding oneself back inside one s body Although majority of the NDErs report pleasant experiences a few of them may have distressing or unpleasant experiences also This book consists of 13 chapters categorized into three sections i Introduction and Overview ii Some True Stories and iii Scientific Interpretation *The Holographic Universe Explained* Dr. Julian M. Raithe,2025-09-30 What if your reality isn t solid separate or even real but a holographic projection shaped by consciousness itself *The Holographic Universe Explained* is your definitive guide to decoding the hidden architecture of reality Drawing on groundbreaking insights from quantum physics neuroscience spiritual wisdom and metaphysical science this book reveals how the universe and your life is far more mysterious interconnected and malleable than you ve ever imagined Whether you re a curious beginner or a seasoned seeker this transformational guide will take you beyond the veil of ordinary perception and show you how to reshape your world from the inside out Inside this book you ll explore The shocking implications of quantum entanglement wave function collapse and non local consciousness How physicist David Bohm and neuroscientist Karl Pribram uncovered the holographic nature of the universe and the brain Why time may be an illusion and how you can access the timeless now to shift your reality Dreams d j vu remote viewing and near death experiences through the lens of holography The bridge between ancient metaphysics and modern science How energy vibration and frequency shape your health mindset and physical world The role of trauma belief systems and ancestral programming in your life hologram Powerful techniques for aligning with the quantum field scripting holographic anchoring and coherence practices Why collective consciousness may hold the key to humanity s next evolutionary leap This is not just theory it s a call to awaken You ll walk away with a radically expanded view

of who you are why you re here and what you re truly capable of Deathing Anya Foos-Graber,1989-01-15 Everyone who is born is someday going to die Some of us will die peacefully in our sleep some will die in accidents and some as the result of diseases cancer or AIDS Because we do not usually know when we are going to die most of us are frightened of death We do not want to talk about it do not want to face it and we run from it as long as we can And some of us die a lonely death in a hospital surrounded by strangers and white sheets while family and loved ones are kept out of the room at the final moment Anya Foos Graber believes that death like birth should be a shining light filled conscious moment Death is not a disease It is the most natural passage we will make since birth Looking at death before the time comes is like learning about natural childbirth before having a baby Just as women are choosing to be conscious participants in the birth process Foos Graber feels that all of us should be conscious as well of our eventual death that we should prepare for it the way the Tibetan Buddhists and American Indians used to do The author calls this process of conscious preparation and practice deathing The book presents two teaching stories illustrating both a conscious death and an unconscious one The second half of the book is a step by step manual containing complete instruction and simple exercises such as breathing visualization and the all important 6th technique or your chosen Name and form of God to which you direct your attention in life and the death transition You can use the formless LIGHT itself as referent an absence of any belief structure A support person rather like the father s presence in natural childbirth can assist in the event of coma or accident death Other books have been written about grief about wills about taking care of your affairs This is a book about taking care of yourself and how to be helpful to someone you care for Deathing has two aims to make sure that the dying are comfortable and comforted as they die and to help all of us prepare for the greatest adventure we will face since birth **Death and Dying** John F. Szabo,2009-11-02

While it can be traced to the 1700s the term thanatology has gained traction in recent decades to refer to the study of death Because of the breadth of the published material and the challenges of discovery in large bibliographic databases and catalogs finding and identifying monographic material on death dying grief and bereavement can be extremely challenging Although there have been several bibliographical resources published on thanatology those titles were incomplete limited in scope or leaned heavily toward one area of the field In *Death and Dying An Annotated Bibliography of the Thanatological Literature* John F Szabo provides more than 2 200 citations of monographs on the science and study of death and dying Among the areas this volume addresses are the psychological philosophical and attitudinal aspects coping and dealing with the burdens of caregiving and working in the helping professions instructional and educational topics for practitioners primarily health care providers cultural differences in bereavement rituals and grief mourning and loss In addition notable titles on or relating to death and dying in popular culture death themes in literature methods of death or specific ethical policy or public issues are also included when they contribute important information to subject areas on which the book focuses This book will be helpful to students researchers academics caregivers health care professionals psychologists social

workers and anyone with an interest in death dying bereavement or the care of the terminally ill

THOUGHT FORMS AND HALLUCINATIONS Chidambaram Ramesh, 2014-02-27 In recent times the subject of consciousness has emerged as an important paradigm of scientific investigation and research despite most of its concerns having roots in philosophy religion and occultism What is consciousness What is the substance of consciousness Is it material or immaterial mortal or immortal How is it connected with a body Has it a particular seat in any particular body as the brain does Is consciousness synonymous with mind Is it eternal and non local These questions have interested thinkers for many centuries It is the object of this book to demonstrate through a series of cases reported across the world at various times relating to many curious mind related phenomena like the creation of mental entities the imprints of indelible images on the human body stigmata birthmarks and bodily deformities corresponding to the injuries sustained in the previous life thought photography materialization experiments etc that Human mind can bring into being thought forms and can exteriorize them giving them some objective consistency There can be continuity of thoughts even after the destruction of the physical brain These psychic entities are sometimes given a kind of autonomy so that they may act and seemingly think without the consent or even knowledge of their creator The book does not stop with the mere reproduction of recorded cases and just messaging the dimension of the problem but extends over to solve it by suggesting a bio holographic theory of body and mind The book is alike novel fun filled profound and useful thus affording the blend of interest and instruction which cannot fail to render it interesting to the inquisitive and candid mind

Holographic Universe Michael Talbot, 1992-05-06 Examines a new theory of reality based on holography that explains the paranormal abilities of the mind the latest frontiers of physics and the unsolved riddles of the brain and body

Out-of-Body and Near-Death Experiences Michael N. Marsh, 2010-01-21 Discrediting mystical or psychical interpretations of out of body and near death experiences Michael Marsh demonstrates how these phenomena are explicable in terms of brain neurophysiology and its neuropathological disturbances and discusses the theological and philosophical implications of his hypotheses

Fun and Games Panos Markopoulos, Wijnand IJsselstein, Duncan Rowland, 2008-10-08 The use of computing technology for entertainment purposes is not a recent phenomenon Video game consoles home computers and other entertainment media have been used widely for more than three decades and people of all ages are spending an increasing amount of time and money on these technologies More recent is the rise of a vibrant research community focusing on gaming and entertainment applications Driven by the growth and the coming of age of the gaming industry and by its increasing recognition in the media and the minds of the broader public the study of computer games game development and experiences is attracting the interest of researchers from very diverse fields social sciences computing electrical engineering design etc Research of this kind looks to extend the boundaries of gaming technologies In a relentless drive for innovation it looks to create and understand an ever increasing range of experiences and examine how games can provide value for educational therapeutic and other serious purposes These themes were

reflected in the call for participation and eventually the papers accepted for presentation The Fun n Games conference was the second event of a bi annual series of c ferences The first event of the series was held in Preston in 2006 organized by the University of Central Lancashire Following the success of this event it was decided to run a follow up The Human Hologram Robin Kelly,2011-07-30 What if our physical bodies were perpetually being formed upon an invisible field of information And what if this field was one vital and integral part of the same field underlying the physical structure of our universe holding all the information and wisdom of its past and present And what if by being a knowing contributor to this field each of us could create a blissful and peaceful future not only for ourselves and our planet but for our whole universe If we are indeed at the deepest level of our being truly holographic these questions may no longer be regarded as far fetched Dr Robin Kelly author of the award winning The Human Antenna explores these mind stretching concepts and speculates exactly how our developing awareness of ourselves as Human Holograms will affect every aspect of our future on this planet He guides us into how we can best use this information here and now to transform our lives and to achieve optimum health

Near Death Experiences Oliver Faith,AI,2025-02-14 Near Death Experiences explores the profound phenomenon of NDEs examining accounts of individuals who have clinically died and returned to life It probes fundamental questions about consciousness spirituality and the nature of reality particularly focusing on out of body experiences life reviews and feelings of peace Historically dismissed NDEs are now recognized as complex experiences that challenge scientific materialism and offer comfort to those facing death or grief The book uniquely synthesizes scientific research religious interpretations and personal narratives to bridge the gap between science and spirituality making it valuable for those interested in religion spirituality and consciousness studies The book is structured to provide a comprehensive overview starting with the core elements of NDEs It then examines scientific research analyzing physiological and psychological aspects Next it explores religious interpretations across faiths like Christianity Islam Hinduism and Buddhism comparing beliefs about death and the afterlife Finally it analyzes cross cultural accounts identifying universal motifs and cultural variations This approach culminates in arguing that NDEs regardless of their origin can profoundly impact individuals fostering compassion and diminishing the fear of death *The Ascension Names and Terms Glossary* Joshua Stone,2001-06-12 The Ascension Names and Terms Glossary is the only comprehensive Ascension Glossary that has been written at this time on the planet The Ascension Movement and Ascended Masters Teachings are one of the biggest and fastest Spiritual Movements on this planet The challenge is that for new intermediate and even adveanced Masters and students there are an enormous number of terms and Masters to be defined and understood For the first time in this easy to understand book this has been done This is one of the few Glossaries on this planet that you can just pick up and read any place in the book and it will accelerate your Initiation and Ascension path enormously This book is literally must reading for all people on a Spiritual Path or Path of Initiation and Ascension **5 Steps to Decode Your Dreams** Gillian Holloway Ph.D.,2011-07-01 Packed with sound

principles and sage advice Holloway's practical handbook helps readers hear their inner dream guide Patricia Garfield PhD author of *Creative Dreaming* and *The Healing Power of Dreams* Have you ever woken up baffled dreams you had the night before Respected dream analyst and intuition expert Gillian Holloway can help you navigate your dreams and pinpoint their meanings with her renowned 5 step approach Unlike dream dictionaries that merely define symbols *5 Steps to Decode Your Dreams* provides you with a method you can use to uncover how powerful your dreams truly are and how you can positively apply the messages in your dreams to your everyday life What the Experts Are Saying A lovely friendly inspiring introduction to the world of dreams Gayle Delaney author of *Breakthrough Dreaming* and *Sexual Dreams* A practical comprehensive guide to dream interpretation The reader is skillfully led toward personal growth and self discovery Stanley Krippner editor of *Dreamtime* and *Dreamwork* What Readers Are Saying The 5 steps let me see into my subconscious enabling me to grow and understand myself better Lea H Your book is very user friendly and extremely helpful in helping me figure out the messages in many of my dreams Thank you Linda M

Holographic Reprocessing for Healing Trauma, Abuse, and Maltreatment Lori S. Katz, 2023-10-24 Holographic Reprocessing for Healing Trauma Abuse and Maltreatment facilitates constructive reorganization of the perception of trauma which in turn modifies associated emotional and behavioral tendencies that render people stuck in repetitive cycling of trauma These patterns are called experiential holograms This book outlines a step by step process to 1 identify experiential holograms 2 consider context to holistically reappraise meaning and 3 reprocess using an imagery based procedure of visiting one's younger self to offer a healing message This novel approach is integrative easily tailored to individual needs and well grounded in theory It can be applied to healing from a variety of traumatic experiences including moral injury medical interpersonal and military traumas Numerous outcome studies support a growing evidence base for the efficacy of this treatment and this is an indispensable guide for trauma clinicians

Dying to Live Susan Blackmore, Progress in medical science has increased our understanding of what happens when the brain begins to fail Psychology delves ever more deeply into the nature of the self In *Dying to Live* Blackmore a leading expert in near death experiences explores what psychology biology and medicine have to say about this extraordinary aspect of death and dying the best resource for materialist arguments that currently exists Blackmore's book is the most up to date catalogue of misgivings about the dualist concept of self and the religionist's desire for the afterlife via a vis experiences near death a fine book *Journal of Scientific Exploration* one of the most intelligent and comprehensive examinations of the near death experience to date For thoroughness of treatment and tidiness of theory the book is quite without equal *Journal of the American Society for Psychical Research* This book is brilliant though controversial Choice Her book is a model of understanding and moving in its course through a sensitive subject *New Scientist* Well documented and well researched The author's impartial treatment of diverse beliefs on the subject helps readers to see how scientific and spiritual points of view can coexist There's much to think about here *School Library Journal* [The Akashic Experience](#)

Ervin Laszlo, 2009-02-12 Firsthand testimonies by 20 leaders in culture and science of their interactions with the Akashic field Provides important evidence for the authenticity of nonmaterial contact that human beings have with each other and with the cosmos Demonstrates that the increasing frequency and intensity of these experiences is evidence of a widespread spiritual resurgence Includes contributions by Alex Grey Stanislav Grof Stanley Krippner Swami Kriyananda Edgar Mitchell and others Knowing or feeling that we are all connected to each other and to the cosmos by more than our eyes and ears is not a new notion but one as old as humanity Traditional indigenous societies were fully aware of nonmaterial connections and incorporated them into their daily life The modern world however continues to dismiss and even deny these intangible links taking as real only that which is physically manifest or proved scientifically Consequently our mainstream culture is spiritually impoverished and the world we live in has become disenchanted In *The Akashic Experience* 20 leading authorities in fields such as psychiatry physics philosophy anthropology natural healing near death experience and spirituality offer firsthand accounts of interactions with a cosmic memory field that can transmit information to people without having to go through the senses Their experiences with the Akashic field are now validated and supported by evidence from cutting edge sciences that shows that there is a cosmic memory field that contains all information past present and future The increasing frequency and intensity of these Akashic experiences are an integral part of a large scale spiritual resurgence and evolution of human consciousness that is under way today

Signals in the Noise: Encountering the Limits of Materialist Science - An Exploration of Consciousness and Reality Robert DeFilippis, 2023-10-15 *Signals in the Noise* An Exploration of Consciousness and Reality How Current Research is Challenging Materialist Science The *Signals in the Noise* groundbreaking theories about consciousness are meticulously explored presenting an avant garde perspective that stands to challenge our traditional materialist viewpoints The author leads us on an intellectual journey questioning established materialist scientific norms and bringing forward evidence that defies materialist theories of consciousness The book emphasizes that consciousness persists and can even be enhanced when brain activity decreases supported by numerous research studies involving psychedelics near death experiences and other instances when brain functions are diminished This new understanding suggests that consciousness transcends the physical confines of our biological makeup challenging conventional notions about its origin and nature Furthermore the book introduces a transformative perspective on the universe proposing that what we perceive as material is merely a function of our sensory systems Based on the author's review of current theories of the composition of the cosmos we now know everything that exists is composed of energy with physicality representing deeper qualities that lie out of our reach Drawing on proven quantum physics the author presents the theory that the universe's interconnectedness is a product of coherent quantum fields from which everything emerges and takes on the character of separateness and materiality in the 4D or manifest level we experience In a radical departure from mainstream materialist thought *The Signals in the Noise* argues that consciousness is a universal phenomenon

occurring in varying degrees of complexity across all organisms The author posits that while the presence of proto consciousness is universal the consciousness we experience emerges in the fourth dimensional or manifest level an idea that if widely accepted can redefine our understanding of life and existence Finally the author criticizes the materialist worldview stating that this ingrained belief system creates many societal political religious and environmental problems He argues that our obstinate adherence to materialist orthodoxy drives our trajectory toward planetary destruction Catalyzed by our capitalist system of consumption this materialist belief system hinders our ability to recognize and correct the adverse effects of our actions The Signals in the Noise is a compelling critique of the materialist worldview challenging our understanding of consciousness existence and our place in the universe It underscores the urgency to redefine our perspectives to avert the catastrophic trajectory that our current beliefs are driving us toward This book is a radical and thought provoking read for anyone interested in consciousness quantum physics and the future of our planet Otherworld Journeys Carol

Zaleski,1988-11-03 Dozens of books articles television shows and films relating near death experiences have appeared in the past decade People who have survived a close brush with death reveal their extraordinary visions and ecstatic feelings at the moment they died describing journeys through a tunnel to a realm of light visual reviews of their past deeds encounters with a benevolent spirit and permanent transformation after returning to life Carol Zaleski's Otherworld Journeys offers the most comprehensive treatment to date of the evidence surrounding near death experiences The first to place researchers findings first person accounts and possible medical or psychological explanations in historical perspective she discusses how these materials reflect the influence of contemporary culture She demonstrates that modern near death reports belong to a vast family of otherworld journey tales with examples in nearly every religious heritage She identifies universal as well as culturally specific features by comparing near death narratives in two distinct periods of Western society medieval Christendom and twentieth century secular America This comparison reveals profound similarities such as the life review and the transforming after effects of the vision as well as striking contrasts such as the absence of hell or punishment scenes from modern accounts Mediating between the debunkers and the near death researchers Zaleski considers current efforts to explain near death experience scientifically She concludes by emphasizing the importance of the otherworld vision for understanding imaginative and religious experience in general **The Rule of Law and Governance in Indigenous**

Yoruba Society John Ayotunde Isola Bewaji,2016-08-22 In The Rule of Law and Governance in Indigenous Yoruba Society John Ayotunde Isola Bewaji has two main goals The first is to provide an exploration of aspects of indigenous Yoruba philosophy of law The second is to relate this philosophy of law to the Yoruba indigenous traditions of governance with a view to appreciating the relevance of the Yoruba traditions of law and governance to contemporary African experiments with imported Western democracy in the 21st century This book is devoted to what can be described as a juridical forensic investigation of Nigeria's predicament of developmental deficit leading to gross and unconscionable impoverishment of large

segments of the population in the midst of so much natural resources and abundant human capital using Yoruba indigenous legal traditions as reflective template Bewaji urges that Africa has to take seriously the necessity of obedience observance enforcement and operation of law as no respecter of persons groups affiliations and pedigrees as was in the case in the societies founded by our ancestors rather than the present scenario whereby the highest bidder procures semblances of justice from a crooked system of common law which was never designed to be fair equitable and just to the disadvantaged in society

Unveiling the Magic of Words: A Overview of "**Near Death Experience A Holographic Explanation**"

In a global defined by information and interconnectivity, the enchanting power of words has acquired unparalleled significance. Their capability to kindle emotions, provoke contemplation, and ignite transformative change is truly awe-inspiring. Enter the realm of "**Near Death Experience A Holographic Explanation**," a mesmerizing literary masterpiece penned by way of a distinguished author, guiding readers on a profound journey to unravel the secrets and potential hidden within every word. In this critique, we shall delve into the book is central themes, examine its distinctive writing style, and assess its profound impact on the souls of its readers.
