The Coveted Westside Jennifer Mandel, 2022-03-29 From the middle of the nineteenth century as Euro Americans moved westward they carried with them long held prejudices against people of color

By the time they reached the West Coast their new settlements included African Americans and recent Asian immigrants as well as the indigenous inhabitants and descendants of earlier Spanish and Mexican settlers. The Coveted Westside deals with the settlement and development of Los Angeles in the context of its multiracial multiethnic population especially African Americans. Mandel exposes the enduring struggle between Whites determined to establish their hegemony and create residential heterogeneity in the growing city and people of color equally determined to obtain full access to the city and the opportunities including residential that it offered. Not only does this book document the Black homeowners fight against housing discrimination it shares personal accounts of Blacks efforts to settle in the highly desirable Westside of Los Angeles. Mandel explores the White derived social and legal mechanisms that created this segregated city and the African American led movement that challenged efforts to block access to fair housing.

Making It in America Elliott Robert Barkan, 2001-05-01 This collection of over 400 biographies of eminent ethnic Americans celebrates a wide array of inspiring individuals and their contributions to U S history. The stories of these 400 eminent ethnic Americans are a testimony to the enduring power of the American dream. These men and women from 90 different ethnic groups certainly faced unequal access to opportunities. Yet they all became renowned artists, writers, political and religious leaders, scientists and athletes. Kahlil Gibran, Daniel Inouye, Zbigniew Brzezinski, Thurgood Marshall, Madeleine Albright and many others are living proof that the land of opportunity sometimes lives up to its name. Alongside these success stories, as historian Elliot R Barkan notes in his introduction to this volume, there have been many failures and many immigrants who did not stay in the United States. Nevertheless, the stories of these trailblazers, visionaries and champions portray the breadth of possibilities from organizing a nascent community to winning the Nobel prize. They also provide irrefutable evidence that no single generation and no single cultural heritage can claim credit for what America is.
