DiSpezio, 2001 To introduce the science and magic of optical tricks this book presents optical illusions and mind boggling tricks that play with your perception from creating your own anaglyphs to building a zootrope **When Science Met God** Gita Krishna Raj, Anatomy of Spirituality: Portrait of the Soul Chander Behl, 2015-04-27 The domain of spirituality separated from its theological overburden believes in the existence of a spiritual self presumed to be distinctly separate from the psychological self The spiritual eternal self also known as the soul or spirit sometimes supported by an overarching Spirit is asserted to be operating behind the ephemeral self This book takes a contrarian stance it argues that the premise of the soul concept is obtained through the magic of language maintained through the marvel of the brain's biochemistry and sustained through the mirage of the psychological juggernauts of the brain The magic the marvel and the mirage together bring about subtle shifts as the linguistic brain suppresses many psychological details habitually applies mental templates such as inversions and dichotomies and enhances its language by coining religious and spiritual metaphors The consequence of these changes is that the usual flickering self begins to be impressed by itself believing it is buttressed by something transcendental and eternal within the soul or the spirit The self although indoctrinated during its formative years also begins to assimilate and accept the opinion that the overwhelming weight of religious doctrines and dogmas the overburden signifies as the legitimate proof for the eternal soul *Optical Illusions* Keith Kay, 2007 A collection of hundreds of optical illusions including classic examples from various sources and new drawings **The World of Visual Illusions** Al Seckel, 2013-09-11 Visual illusions is a fascinating collection of optical illusions many of which have never before been published in this form From classic illustrations of impossible figures to
