American Indian Literatures of the United States Since 1945 is the first major volume of its kind to focus on Native literatures in a postcolonial context. Written by a team of noted Native and non Native scholars, these essays consider the complex social and political influences that have shaped American Indian literatures in the second half of the twentieth century, with particular emphasis on core themes of identity, sovereignty, and land. In his essay comprising part I of the volume, Eric Cheyfitz argues persuasively for the necessary conjunction of Indian literatures and federal Indian law, from Apsákwika to Alexie. Part II is a comprehensive survey of five genres of literature: fiction, Arnold Krupat and Michael Elliott poetry, Kimberly Blaeser drama, Shari Huhndorf nonfiction, David Murray and autobiography. Kendall Johnson discusses the work of Vine Deloria Jr., N. Scott Momaday, Joy Harjo, Simon Ortiz, Louise Erdrich, Leslie Marmon Silko, Gerald Vizenor, Jimmy Santiago Baca, and Sherman Alexie, among many others. Drawing on historical and theoretical frameworks, the contributors examine how American Indian writers and critics have responded to major developments in American Indian life and how recent trends in Native writing build upon and integrate traditional modes of storytelling. Sure to be considered a groundbreaking contribution to the field, *The Columbia Guide to American Indian Literatures of the United States Since 1945* offers both a rich critique of history and a wealth of new information and insight.

The Language of Flowers Beverly Seaton, 2012-10-10

The author traces the phenomenon of ascribing sentimental meaning to floral imagery from its beginnings in Napoleonic France through its later transformations in England and America. At the heart of the book is a depiction of what the three most important flower books from each of the countries divulge about the period and the respective cultures. Seaton shows that the language of flowers was not a single and universally understood correlation of flowers to meanings that men and women used to communicate in matters of love and romance. The language differs from book to book, country to country. To place the language of flowers in social and literary perspective, the author examines the nineteenth-century uses of flowers in everyday life and in ceremonies and rituals and provides a brief history of floral symbolism. She also discusses the sentimental flower book, a genre especially intended for female readers. Two especially valuable features of the book are its table of correlations of flowers and their meanings from different sourcebooks and its complete bibliography of language of flower titles. This book will appeal not only to scholars in Victorian studies and women's studies but also to art historians, book collectors, museum curators, historians of horticulture, and anyone interested in nineteenth-century popular culture.
