you might wonder where they came from and where they're going. And for general fans of the intersection of culture and technology. *The Untold Story of the Talking Book* is a fascinating read. Neil Steinberg, Chicago Sun Times. Rubery explores 150 years of the audio format with an imminently accessible style touching upon a wide range of interconnected topics. Through careful investigation of the co-development of formats within the publishing industry, Rubery shines a light on overlooked pioneers of audio. Rubery's work succeeds in providing evidence to move beyond the reductive debate on whether audiobooks really count as reading and establishes the format's rightful place in the literary family.
