Lesbian Texts and Contexts Karla Jay, Joanne Glasgow, 1990-06

Lesbian writers include some of the most innovative and adventurous writers of this century but only recently have they been given their due attention in terms of critical study. This book is the first anthology to discuss the subject of lesbianism as it relates to the critical interaction among readers, writers, and literary critics. It explores lesbian texts in terms of identification, meaning, and interpretation and examines the complex entanglements of identity, voice, intersubjectivity, textualities, and sexualities. A wonderful exploration of the varieties of life choices lesbians can and do make. This book once again proves that telling the truth about yourself is a revolutionary act. Rita Mae Brown. They will probably drum Karla Jay and Joanne Glasgow out of the academy for this one. A college text that is witty, literate, interesting, and can be read for fun. What's the world coming to? *Lesbian Texts and Contexts* dry title wonderful book. Barbara Grier. Editor Naiad Press. To call this collection much needed or eagerly awaited would be the understatement of the year. It's thrilling to think of the new readings of classic texts, the new directions for theory, and maybe best of all, the new range of literary encounters in the classroom that will be enabled by this radical intervention on the critical scene. Eve Kosofsky Sedgwick, Duke University. Excellent, challenging, sexy, never boring. *Outweek*

Looking At Gay & Lesbian Life Diane Raymond, 1993-06-30. Discusses gender roles, human sexuality, prejudice, discrimination, lesbian and gay politics, AIDS, gay culture, and the homosexual in literature.

Women's Sexuality Across the Life Span Judith C. Daniluk, 2003-06-09. Moving beyond a traditional focus on sexual functioning, this book emphasizes the complex interaction of psychological, social, cultural, and biological influences on women's sense of themselves as sexual beings. Written for practitioners and educators, its goal is to challenge contradictory messages and meanings that cause many women to feel disconnected from their bodies and from their needs and desires. Themes explored include the development of sexual awareness and sexuality in childhood and adolescence, the critical sexual choices of young adulthood, and the multiple transitions characterizing the middle and later years of life. The book features creative exercises and interventions to help girls and women construct more affirming sexual meanings.

Learning to Be Old Margaret Cruikshank, 2009-01-16. What does it mean to grow old in America today? Is successful aging our responsibility? What will happen if we fail to grow old gracefully? Especially for women, the onus on the aging population in the United States is growing rather than diminishing. Gender, race, and sexual orientation have been reinterpreted as socially constructed phenomena, yet aging is still seen through physically constructed lenses. The second edition of Margaret Cruikshank's *Learning to Be Old* helps put aging in a new light, neither romanticizing nor demonizing it. Featuring new research and analysis, expanded sections on gay, lesbian, bisexual, transgender, aging, and critical gerontology, and an updated chapter on feminist gerontology, the second edition even more thoroughly than the first looks at the variety of different forces affecting the progress of aging. Cruikshank pays special attention to the fears and taboos, multicultural traditions, and the

medicalization and politicization of natural processes that inform our understanding of age Through it all we learn a better way to inhabit our age whatever it is

The Changing of the Guard Dana Rosenfeld, 2003 One of the first books to link identity age and gender The Changing of the Guard offers a significant meditation on the politics of older lesbians and gays Combining interviews and sustained critical thought Rosenfeld links the development of lesbian and gay elders identity with the key moments in the 20th century reinvention of homosexuality In doing so she bridges the gap between history and interaction that has characterized and constrained previous studies of identity Rosenfeld first summarizes the meaning of homosexuality that prevailed when her subjects came of age and the radical changes it underwent during their middle years She uses these changes to trace the paths they took toward one of two homosexual identities a discreditable one adopted before the advent of gay liberation or an accredited one adopted during and through those momentous years She theorizes that there is the existence of two distinct identity cohorts shaped by a willingness or resistance to accept the historical forces at work on lesbian and gay identity Such decisions on identities Rosenfeld argues strongly shaped her subjects in later life specifically their understanding of th

Gay Midlife and Maturity John Alan Lee, 1991 Aging is stressful for anyone in youth oriented Western societies Elderly people encounter difficulties and discrimination sometimes because of reduced income transportation and housing problems and failing health but often due to the persistent negative stereotypes that color others

attitudes and behavior toward old people Gay men and lesbians experience these stresses as well as the numerous additional problems associated with their sexual orientation Gay Midlife and Maturity is a dynamic and positive volume that challenges the long held stereotype of the sad and lonely old homosexual A growing body of international literature much of which is featured in this book rejects this myth and illustrates that older gay men and lesbians cope well with the aging process and are comparable to younger homosexuals in social and psychological adjustment A much needed and major contribution Gay Midlife and Maturity contains an enormous amount of information for readers interested in gerontology and homosexuality Experts for the first time examine the relationship between the adjustment of gay people to later life and the age and sequence of the resolution of these typically early developmental processes raising many questions about traditional theories of gay development The existing contradictions and debates about gay men and accelerated aging are addressed Other valuable chapters focus on a theory of successful aging a comparison of the traditional gay community pre Stonewall versus the organized gay community the vital role of communication in gay relationships the sexual attitudes and behaviors of older gay men and much more Additional interesting and worthwhile chapters of this thought provoking new book include an in depth interview with Don Bachardy about his 33 year relationship Christopher Isherwood a renowned English writer who was 30 years his senior and a review of the growing literature on gay aging
